The dream of control over human behaviour is an old dream, shared by many cultures. This fascinating account of the histories of human engineering describes how technologies of managing individuals and groups were developed from the nineteenth century to the present day, ranging from brainwashing and mind control to Dale Carnegie's art of dealing with people. Derksen reveals that common to all of them is the perpetual tension between the desire to control people's behaviour and the resistance this provokes. Thus to influence other people successfully, technology had to be combined with tact: with a personal touch, with a subtle hint, or with outright deception, manipulations are made palatable or invisible. Combining psychological history and theory with insights from science and technology studies and rhetorical scholarship, Derksen offers a fresh perspective on human engineering that will appeal to those interested in the history of psychology and the history of technology.

The bestselling author of *All the Shah's Men* and *The Brothers* tells the astonishing story of the man who oversaw the CIA's secret drug and mind-control experiments of the 1950s and '60s. The visionary chemist Sidney Gottlieb was the CIA's master magician and gentlehearted torturer—the agency's "poisoner in chief." As head of the MK-ULTRA mind control project, he directed brutal experiments at secret prisons on three continents. He made pills, powders, and potions that could kill or maim without a trace—including some intended for Fidel Castro and other foreign leaders. He paid prostitutes to lure clients to CIA-run bordellos, where they were secretly dosed with mind-altering drugs. His experiments spread LSD across the United States, making him a hidden godfather of the 1960s counterculture. For years he was the chief supplier of spy tools used by CIA officers around the world. Stephen Kinzer, author of groundbreaking books about U.S. clandestine operations, draws on new documentary research and original interviews to bring to life one of the most powerful unknown Americans of the twentieth century. Gottlieb's reckless experiments on "expendable" human subjects destroyed many lives, yet he considered

himself deeply spiritual. He lived in a remote cabin without running water, meditated, and rose before dawn to milk his goats. During his twenty-two years at the CIA, Gottlieb worked in the deepest secrecy. Only since his death has it become possible to piece together his astonishing career at the intersection of extreme science and covert action. Poisoner in Chief reveals him as a clandestine conjurer on an epic scale.

Neuro-linguistic Programming and the Structure of Hypnosis

Most hypnotists will tell you "You can't be made to do something in hypnosis that is against your Will." Most of them actually believe it. But a few of the most experienced hypnotists simply say it to put people at ease. They know that, in the right hands, very few people can resist a skilled hypnotist. Skilled hypnotists know what it takes to resist suggestions and it's not what most people would think. Reason #1 - Because they don't want others to have the power they have. In spite of what they may want you to believe hypnotists are human beings. They have egos and ambitions just like everyone else. A lot of hypnotists discover something that works really well and they'll want to

keep it to themselves. Reason #2 - Because it frightens away clients who believe they have some sort of Will Power. For most people real Will Power is a myth, a story, even a fantasy. Facing this truth, for most people, is a humbling experience.

Dr. William Wesley Cook's Practical Lessons in Hypnotism was originally published in 1901, but this scholarly study is as relevant as it ever was. In spite of the skeptics, hypnotism has long been a psychological science that has earned the respect of many in the medical profession (notably, Sigmund Freud) and hypnotherapy is widely used in many treatment programs. Here, Cook approaches the subject in a constructive way, covering the history and philosophy of the science, as well as practical techniques and considerations. Most compelling are the studies of hypnotism's many applications, such as in self-healing, anesthesia, behavioral therapy, and even persuasion in the field of business. Cook's work also includes intellectual discussions on tangential-and fascinating-subjects such as telepathy, clairvoyance, and magnetic healing. Comprehensive and erudite, it promises satisfaction for the curious as well as the studious. "SINCE 1933, when a completely drugged and trial-conditioned human wreck confessed to having started the Reichstag fire in Berlin, Dr. Joost A. M. Meerloo has studied the methods by which systematic mental pressure brings people to abject submission, and by which totalitarians imprint their subjective "truth" on their victims' minds. The first two and one-half years of WWII, Dr. Meerloo spent under the pressure of Nazi-

occupied Holland, witnessing at first-hand the Nazi methods of mental torture on more than one occasion...Then, after personal experiences with enforced interrogation, he escaped from a Nazi prison and certain death to England, where he was able, as Chief of the Psychological Department of the Netherlands Forces, to observe and study coercive methods officially.... After the war, he came to the United States...As more and more cases of thought control, brainwashing, and mental coercion were disclosed - Cardinal Mindszenty, Colonel Schwable, Robert Vogeler, and others - his interest grew. It was Dr. Meerloo who coined the word menticide, the killing of the spirit, for this peculiar crime... It is Dr. Meerloo's position that through pressure on the weak points in men's makeup, totalitarian methods can turn anyone into a "traitor." And in *The Rape of the Mind* he goes far beyond the direct military implications of mental torture to describing how our own culture unobtrusively shows symptoms of pressurizing people's minds. He presents a systematic analysis of the methods of brainwashing and mental torture and coercion, and shows how totalitarian strategy, with its use of mass psychology, leads to systematized "rape of the mind." He describes the new age of cold war with its mental terror, verbocracy, and semantic fog, the use of fear as a tool of mass submission and the problem of treason and loyalty, so loaded with dangerous confusion. *The Rape of the Mind* is written for the interested layman, not only for experts and scientists."-Print ed.

hypnosis and mind control? If yes, then keep reading... Dark Psychology is both the study of criminal and deviant behavior and a conceptual framework in order to decipher the potential of evil that could be found within all of us. The idea with this one is that everyone, even if they realize it or not, will have the potential, if it is going to benefit themselves and even their families enough, to victimize other humans and creatures. Some people are just more willing to do it than others. You may not think about doing this to just get a promotion at work or to get someone to notice you, but you may be willing to hurt other people if you knew it would save your life or save the life of someone in your family. According to dark psychology, every human has a bank of malevolent intentions geared towards other people and these intentions range from fleeting thoughts to minimally obtrusiveness to pure psychopathic deviant characters that are devoid of any form of cohesive rationality. Every human will have had thoughts or feelings of acting towards another person in a brutal manner and many times would have had thoughts or the feelings of hurting someone else without mercy. To be honest with oneself is to accept the fact that at a certain point in time there has been a feeling of wanting to commit some heinous acts. While many of us are going to restrain or hide this kind of tendency, there are those who are going to see their impulses and decide to act on them. The idea of dark psychology is to seek to understand these perceptions, feelings, thoughts, and even the subjective processing systems that tend to lead to the predatory behavior that is seen as unethical to what most of modern society is going to see as normal or good. This book covers the following

They may be seen as bad or evil, but the other person is doing them for some purpose, and not just because they feel like it. They are going to have a rational goal most of the time. Someone may use abuse to keep their partner in their place to ensure that they are able to get the love and attention they need. Ready to get started? Click "Buy Now"!

The law of obedience cannot be forgotten. A man must be a man. A girl must be a girl. They are not equal. Besides this though it is important to understand where a girl and man's true happiness come from. For a girl it is in obeying her man. A girl wants a man who will command her, instruct her, teach her, rule her, and make sure she's acting like a good little girl. She wants a protector. She wants a man to make her submit. For a girl this is at the root of her true nature. It is truly what makes her happiest in life. For a man, domination, power, rule, control, and so forth are where lay his greatest happiness. He must rule over his kingdom (house-hold) and this includes mastering his little girl. What he decides is the final ruling. Okay, so

this sounds a bit whacked, right? Well, actually, it isn't. If you'll suspend your doubt and disbelief, take a wild leap of faith with me for just a moment, you'll discover a philosophy that has been intentionally done away with; one that has caused humanity to suffer as a result. You'll discover, basically, where true happiness comes from and how to instantly get it. Men reading this book will learn cover hypnosis and persuasion techniques, the psychology of control and how to shape their girl, they'll learn NLP techniques that give them a communication edge, and by the time they're finished with this book they'll be able to start obedience training their little girl so she starts to find true happiness again. For the girl reader, you'll discover what's been missing from your life. You'll learn insightful persuasion techniques your boyfriend or husband, i.e. man, can use on you to control you and reign you in. You'll start to appreciate his control over you and the more he dominates you and you submit to him lovingly, the more happiness you'll find. Many girls have really taken to this philosophy when they've been open-minded to it and really given it a chance. That's all that's needed in order for you to discover true happiness. If you're a girl who is deeply depressed then this is a book your man (or next man) needs. Men reading this book will really benefit from learning all the things they've been doing wrong in their relationships. They'll realize that control and power as well as being indirectly persuasive produce far better relationship outcomes. You'll learn how to preserve your relationship. You won't have to worry about divorce, her leaving you, or anything like this, because you'll be the 'key' to her happiness, and she won't be able to

psychologically leave you, ever. Don't take my word for it that this philosophy really truly works --- simply grab a copy of this book, learn the techniques, apply them, and watch your girl retreat back into being a good little girl who only has eyes for you and who wants you to take care of her and make her obey. Girls, if any of this resonates with you, or you've been secretly wondering why you're always depressed, or why you can't seem to find a good man, or why you simply can't find happiness, grab up a copy of this book for your man or next man. If you fancy a particular man, make sure you hand him a copy of this book, and smile at him. That's all that's needed. The book will do the rest. I really hope you'll not blast this book with negative, feminist criticism. That's not why this book was written. It was written for the simple purpose of helping both men and girls find greater happiness. Follow this advice and you'll wonder how you ever lived without it.
