The Non-Verbal Ninja Training Course Non-verbal reasoning questions in the 11+ exam provoke anxiety amongst students and parents alike, since the test seems, at first, to be unlike the activities of normal everyday life. In reality, however, it is straightforward to train to improve one's performance in these puzzles. The Non-Verbal Ninja Training Course from Eureka! Eleven Plus Exams is a three-part series of training books with several features to maximise the skill boost they provide to students. Full explanations are given immediately after each block of questions Visual explanations are provided where these are easier to understand The early questions of each type are easy, testing only one or two rules Challenging, broad-ranging questions are soon introduced Each question teaches an additional skill or reinforces a core skill You are not told in advance exactly what the rule will be, so you build confidence in identifying the rule for yourself - a crucial skill for exam success The series of books, studied in sequence, covers the spectrum of types of format of questions and of the types of rule being tested. Some rules can be tested in many different settings. Dedicated practice and, more importantly, careful review of the explanations of questions that turned out to be difficult, is the key to success in Non-Verbal Reasoning.

11+ Practice Papers prepare children for the secondary school selection tests. This pack focuses on the Multiple-choice tests and mirrors the real tests in both format and level. •Contains practice tests for focused preparation •Identifies areas of weakness and strength •Includes detailed parental notes

Three sets of ocean liners, each destined to be of three vessels, dominated the Atlantic in the Edwardian era. The race to build the biggest and the best began with Mauretania and Lusitania in 1906, followed by the White Star Line's Olympic and Titanic in 1911-12. Each of these pairs was to see a larger sister, developed as a result of changes needed or desired as a result of operating the two earlier vessels, with Cunard's being Aquitania and White Star's, the ill-fated Britannic. Germany's answer to these British behemoths was the Albert-Ballin designed trio of Imperator, Vaterland and Bismarck. Through misfortune or war, two of these vessels would sink but the others led useful lives, with Aquitania surviving two world wars before being scrapped. Designed to be the absolute engineering achievements of their time, these nine vessels dominated the Atlantic. J. Kent Layton tells the story of the Edwardian Superliners in this fabulously illustrated volume, showcasing many images previously unpublished and never before seen. Rarely can one describe a book as definitive, but this volume truly deserves the accolade.
