The Chronicles of the People's Car

Covers the Volkswagen 1200, 1968-77; 1300 and 1300A, 1968-1975; 1500, 1968-1970; 1302 (1285cc), 1970-1972; 1302S and LS (1584cc), 1970-1972; 1303 (1285cc), 1972-1975; Karmann Ghia, 1968-1974.

Six months after its American introduction in 1985, the Yugo was a punch line; within a year, it was a staple of late-night comedy. By 2000, NPR's Car Talk declared it "the worst car of the millennium." And for most Americans that's where the story begins and ends. Hardly. The short, unhappy life of the car, the men who imported it, and the decade that embraced and discarded it is rollicking and astounding, and one of the greatest untold business-cum-morality tales of the 1980s. Mix one rabid entrepreneur, several thousand "good" communists, a willing U.S. State Department, the shortsighted Detroit auto industry, and improvident bankers, shake vigorously, and you've got The Yugo: The Rise and Fall of the Worst Car in History. Brilliantly re-creating the amazing confluence of events that produced the Yugo, Yugoslav expert Jason Vuic uproariously tells the story of the car that became an international joke: The American CEO who happens upon a Yugo right when his company needs to find a new import or go under. A State Department eager to aid Yugoslavia's nonaligned communist government. Zastava Automobiles, which overhauls its factory to produce an American-ready Yugo in six months. And a hole left by Detroit in the cheap subcompact market that creates a race to the bottom that leaves the Yugo . . . at the bottom.

The explosion of Patina Volkswagens on social media has inspired those car fanatics who realise that you don't have to restore a car to end up with a good-looking ride. At last, you can stand out from the crowd, even on a tight budget. The look of the cars that result from patina builds is honest, unspoiled, and characterful; it has also inspired the media, movie stars and celebrities.

Interest in patination has undoubtedly resulted in increased car values, and turned a brand of cars that had always been a cheap, honest mode of transportation into something cool with a high price tag. The people the look initially inspired have grown with the hobby, finding ways to still be cool on a tight budget and producing a micro-industry that still manages to embrace the 'built not bought' ethos. How to Build a Patina Volkswagen book takes a look at the differing styles of patina VW build, and imparts tips on finding and buying a project car, carrying out a sympathetic patina style renovation and includes a chapter on re-creating a patina finish on repaired areas or missing parts.

Just as the Beetle started a long tradition of Volkswagen automotive excellence, these are the manuals that created the Bentley reputation for clarity, thoroughness, and indispensability. Our air-cooled Volkswagen manuals provide both do-it-yourself owners and professional mechanics with clear explanations and illustrations, detailed service steps, and time-saving troubleshooting tips.

Demand for Bay window buses is booming with rocketing prices to match. This is the first and only book to address the needs of owners looking to save a Bay bus. The book is packed with clear color photographs showing step by step real life restoration.

Volkswagen Super Beetle, Beetle & Karmann Ghia Official Service Manual1970, 1971, 1972, 1973, 1974, 1975, 1976, 1977,Robert Bentley, Incorporated

Since the early 2000s, the apparent explosion of interest in Volkswagens with original paint, rust and patina has inspired a generation of car fanatics, who might not be able to afford to restore a car to show condition, but still want a good looking, cool car that will stand out from the crowd. Once looked upon as being in need of restoration, cars with original paint, rust and patina, especially within the global Volkswagen community, have gradually become far more popular than restored cars. When walking down a line of cars at a car show, it's easy to see why; these cars are rare, unspoiled survivors i cars that tell a story of an interesting and varied past. The look of the Volkswagens being built in this style is so honest, unspoiled and characterful, that it has begun to inspire the media, even Hollywood movie stars and celebrities. Whilst this has undoubtedly resulted in increased car values, and turned a brand of cars that had always been a cheap, honest mode of transportation into something cool with a high price tag, the generation it initially inspired has grown with the hobby, and produced a micro-industry that still manages to embrace the 'Built not bought' ethos. This book, superbly illustrated with stunning colour photographs, takes an inside look at some of the key car builders, dealers, celebrities and hobbyists, as well as the different styles of build, meaning every single car has a style all its own. Foreword by Drew Fritchard of TV's 'Salvage Hunters' fame. This manual is an historical record of the illustrations and procedures for routine maintenance, troubleshooting, repair and rebuilding. Features: Engine and cylinder head service, repair and reconditioning, including bench testing procedures and specifications for 25hp and 36hp motors Solex 28 PCI carburetor and Solex fuel pump troubleshooting, rebuilding, and adjustment Transmission removal, rebuilding, and adjustment, including special needle bearings on synchronesh transmissions Frame, floor and body panel repair. All measurements and detailed cutting, alignment and welding instructions. Painting preparation and procedures Body repair and replacement procedures, including the sliding fabric sunroof and convertible top. Complete wiring diagrams All factory changes and updates are noted in the text by manufacturing date, chassis number, engine number and part number Full explanations of the operation of all systems, with exploded views, cutaways and diagrams Required workshop equipment, tools, and equipment for local manufacture listings Troubleshooting tables for clutch, carburetor, fuel pump, steering, brakes, generator, starter, and wipers Maintenance and lubrication chars and procedures
