An award-winning scientist offers his unorthodox approach to childrearing: “Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions” (Amy Chua, author of Battle Hymn of the Tiger Mother). If you’re like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing

advice, he turned to scientific research to make the big decisions. In Parentology, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are

very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

A completely revised version of one of the best-selling motorcycle riding skills books of all time. Today's super high-performance bikes are the most potent vehicles ever sold to the public and they demand advanced riding skills. Get it right, and a modern motorcycle will provide you with the thrill of a lifetime; get it wrong and you'll be carted off in a meat wagon. The line between ecstasy and agony is so thin that there is absolutely no margin for error. Total Control provides you with the information you need to stay on the healthy

many individuals who desire to express their gratitude to the Lord and Savior, Jesus Christ. Finding grace and mercy; forgiveness and healing, LuAnn Caperton uses her own shortcomings, downfalls, and realizations to show you the many examples of how this God of the universe relates, sees, and cares for even the smallest of us. At age fifty, LuAnn has chosen to share this Jubilee in celebration and thanks for God's gift of His Son, Jesus Christ, and the redemption He brings to each of us. In this stack of letter-filled pages, you'll find fifty wondrous stories of how the Lord has ministered to her while walking through everyday life. "Many, O LORD my God, are thy wonderful

works which thou hast done, And thy thoughts which are to us-ward" (Psalm 40:5a). LuAnn's hopes are that somewhere in these simple yet heartfelt words to follow, your hope in Christ will either be found for the first time or strengthened in some way by what you read.
