

1984 Part 2 Chapter 1 Questions And Answers Full Online

A chilling look at the near future presents the story of Offred, a Handmaid in the Republic of Gilead, once the United States, an oppressive world where women are no longer allowed to read and are valued only as long as they are viable for reproduction. 25,000 first printing.

George Orwell's *Nineteen Eighty-Four* is unquestionably the most famous dystopian novel of all times. Written in the year of 1948, the author swapped the last two digits while describing a future totalitarian society where the minds, attitudes and actions of the subjects are thoroughly scrutinized by the "Thought Police", suspected dissidents tracked down and where the worship of the mythical party leader Big Brother is forced upon the masses. The low-ranking party member Winston Smith begins secretly to question the whole system and initiates a forbidden love affair with another party member.

Book 3 in the thrilling 7-book *Atlantis Saga* The US government, the US military, and world-renowned scientists are all after one thing—the Atlantis gene, from the descendants of the lost island of Atlantis. Jaxon's new life in LA is torture until she hears about a teenage vigilante in the news. Turns out he's someone she knows from her posh private school. She begins sneaking out of the house to join him in his fight against criminals downtown. General Meade will stop at nothing to defend the world against alien threat and will thwart his own government to be the savior. Meanwhile, the Atlantis Allegiance operates off the grid and has plans to go on a world trip to find the original island of Atlantis. *The Atlantis Gene* is the 3rd book in the 7-book *Atlantis Saga*, about the girl with the Atlantis gene. Book 1: *The Atlantis Girl* Book 2: *The Atlantis Allegiance* Book 3: *The Atlantis Gene* Book 4: *The Atlantis Secret* Book 5: *The Atlantis Origins* Book 6: *The Atlantis Guard* Book 7: *The Atlantis Ascent*

Old London Churches

Gordon Comstock has 'declared war' on what he sees as an 'overarching dependence' on money by leaving a promising job as a copywriter for an advertising company called 'New Albion'—at which he shows great dexterity—and taking a low-paying job instead, ostensibly so he can write poetry. Coming from a respectable family background in which the inherited wealth has now become dissipated, Gordon resents having to work for a living. The 'war' (and the poetry), however, aren't going particularly well and, under the stress of his 'self-imposed exile' from affluence, Gordon has become absurd, petty and deeply neurotic...

This remarkable and monumental book at last provides a comprehensive answer to the age-old riddle of whether there are only a small number of 'basic stories' in the world. Using a wealth of examples, from ancient myths and folk tales via the plays and novels of great literature to the popular movies and TV soap operas of today, it shows that there are seven archetypal themes which recur throughout every kind of storytelling. But this is only the prelude to an investigation into how and why we are 'programmed' to imagine stories in these ways, and how they relate to the inmost patterns of human psychology. Drawing on a vast array of examples, from Proust to detective stories, from the Marquis de Sade to E.T., Christopher Booker then leads us through the extraordinary changes in the nature of storytelling over the past 200 years, and why so many stories have 'lost the plot' by losing touch with their underlying archetypal purpose. Booker analyses why evolution has given us the need to tell stories and illustrates how storytelling has provided a uniquely revealing mirror to mankind's psychological development over the past 5000 years. This seminal book opens up in an entirely new way our understanding of the real purpose storytelling plays in our lives, and will be a talking point for years to come.

"Published by OpenStax College, American Government is designed to meet the scope and sequence requirements of the single-semester American Government course. This title includes innovative features designed to enhance student learning, including Insider Perspective features and a Get Connected module that shows students how they can get engaged in the political process. The book provides an important opportunity for students to learn the core concepts of American Government and understand how those concepts apply to their lives and the world around them. Our American Government textbook adheres to the scope and sequence of introductory American government courses nationwide. We have endeavored to make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. The organization and pedagogical features were developed and vetted with feedback from American government instructors dedicated to the project."--BC Campus website.

A monumentally devastating plague leaves only a few survivors who, while experiencing dreams of a battle between good and evil, move toward an actual confrontation as they migrate to Boulder, Colorado.

The Handmaid's Tale

Politics and the English Language

The Visible Filth**The Prevention of Literature****University Physics****The Complete Works of George Orwell: A kind of compulsion, 1903-1936**

NEW YORK TIMES BESTSELLER • A powerful collection of the influential columnist's most important works—featuring rare speeches, a major essay about today's populist movements and the future of global democracy, and a new preface by the author's son, Daniel Krauthammer “Charles will be remembered as one of the greatest public intellectuals of his generation.” —John McCain In his decades of work as America's preeminent political commentator, whether writing about statecraft and foreign policy or reflecting on more esoteric topics such as baseball, spaceflight and medical ethics, Charles Krauthammer elevated the opinion column to a form of art. This collection features the columns, speeches and unpublished writings that showcase the best of his original thought and his last, enduring words on the state of American politics, the nature of liberal democracy and the course of world history. The book also includes a deeply personal section offering insight into Krauthammer's beliefs about what mattered most to him: friendship, family and the principles he lived by. The Point of It All is a timely demonstration of what made Charles Krauthammer the most celebrated American columnist and political thinker of his generation, a revealing look at the man behind the words and a lasting testament to his belief that anyone with an open and honest mind can grapple deeply with the most urgent questions in politics and in life.

A brilliant satire of mass culture and the numbing effects of technology, *White Noise* tells the story of Jack Gladney, a teacher of Hitler studies at a liberal arts college in Middle America. Jack and his fourth wife, Babette, bound by their love, fear of death, and four ultramodern offspring, navigate the rocky passages of family life to the background babble of brand-name consumerism. Then a lethal black chemical cloud, unleashed by an industrial accident, floats over their lives, an "airborne toxic event" that is a more urgent and visible version of the white noise engulfing the Gladneys—the radio transmissions, sirens, microwaves, and TV murmurings that constitute the music of American magic and dread.

A PBS Great American Read Top 100 Pick With extraordinary relevance and renewed popularity, George Orwell's *1984* takes on new life in this edition. “Orwell saw, to his credit, that the act of falsifying reality is only secondarily a way of changing perceptions. It is, above all, a way of asserting power.” —The New Yorker In 1984, London is a grim city in the totalitarian state of Oceania where Big Brother is always watching you and the Thought Police can practically read your mind. Winston Smith is a man in grave danger for the simple reason that his memory still functions. Drawn into a forbidden love affair, Winston finds the courage to join a secret revolutionary organization called The Brotherhood, dedicated to the destruction of the Party. Together with his beloved Julia, he hazards his life in a deadly match against the powers that be. Lionel Trilling said of Orwell's masterpiece, “1984 is a profound, terrifying, and wholly fascinating book. It is a fantasy of the political future, and like any such fantasy, serves its author as a magnifying device for an examination of the present.”

Though the year 1984 now exists in the past, Orwell's novel remains an urgent call for the individual willing to speak truth to power. Return from the Preshamble / Paula Guran -- The Afflicted / Matthew Johnson -- Dead Song / Jay Wilburn -- Iphigenia in Aulis / Mike Carey -- Pollution / Don Webb -- Becca at the End of the World / Shira Lipkin -- The Naturalist / Maureen F. Coming Up for Air

The Atlantis Gene

“Elegant and troublingly, wonderfully disturbing.” —Victor LaValle, award-winning author of *The Changeling* This gripping novella of terror by Shirley Jackson Award-winning author Nathan Ballingrud is the basis for the film *Wounds* starring Dakota Johnson, Armie Hammer, and Zazie Beetz! An eerie dread descends upon a New Orleans dive bartender after a cell phone is left behind in a rollicking bar fight in the novella “The Visible Filth,” which has been adapted for film by director Babak Anvari—premiering at the Sundance film festival!—and starring Armie Hammer, Dakota Johnson, and Zazie Beetz. *Wounds* will release on April 12th, 2019.

An insurance salesman desperately tries to recapture his youth in this “charming” comic novel by the iconic British author (The New York Times). George Bowling is having a crisis. Not a loud, unsightly one, but a small, desperate one. His days are occupied by an unfulfilling insurance job; his nights spent worrying about his mortgage, marriage, expanding waistline, and what seems to be a certain prospect of World War II looming on the horizon. So when George unexpectedly hits it big on a lucky horse, he spends the windfall on the only thing he ever knew to make him happy: his childhood. George travels back to his boyhood home of Lower Binfield, swimming in vivid memories of worry-free bliss, sights, sounds, smells, and emotions of a pre-war world. But while the idyllic village in George's head may not have seen battle, the reality may be more sobering than he is prepared to deal with. Penned with Orwell's trademark insight and passion, *Coming Up for Air* is an elegiac look at memory and desire at a desperate moment in England's history.

George Orwell set out ‘to make political writing into an art’, and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While *1984* and *Animal Farm* are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In *The Prevention of Literature*, the third in the *Orwell's Essays* series, Orwell considers the freedom of thought and expression. He discusses the effect of the ownership of the press on the accuracy of reports of events,

and takes aim at political language, which 'consists almost entirely of prefabricated phrases bolted together.' The *Prevention of Literature* is a stirring cry for freedom from censorship, which Orwell says must start with the writer themselves: 'To write in plain vigorous language one has to think fearlessly.' 'A writer who can - and must - be rediscovered with every age.' - *Irish Times*

Introduction to Sociology 2e adheres to the scope and sequence of a typical, one-semester introductory sociology course. It offers comprehensive coverage of core concepts, foundational scholars, and emerging theories, which are supported by a wealth of engaging learning materials. The textbook presents detailed section reviews with rich questions, discussions that help students apply their knowledge, and features that draw learners into the discipline in meaningful ways. The second edition retains the book's conceptual organization, aligning to most courses, and has been significantly updated to reflect the latest research and provide examples most relevant to today's students. In order to help instructors transition to the revised version, the 2e changes are described within the preface. The images in this textbook are grayscale. Authors include: Heather Griffiths, Nathan Keirns, Eric Strayer, Susan Cody-Rydzewski, Gail Scaramuzzo, Tommy Sadler, Sally Vyain, Jeff Bry, Faye Jones

A Play

The War of the Worlds

Authorized King James Version

Follows the adventures of Paul Atreides, the son of a betrayed duke given up for dead on a treacherous desert planet and adopted by its fierce, nomadic people, who help him unravel his most unexpected destiny.

New York Times Best Seller How will Artificial Intelligence affect crime, war, justice, jobs, society and our very sense of being human? The rise of AI has the potential to transform our future more than any other technology—and there's nobody better qualified or situated to explore that future than Max Tegmark, an MIT professor who's helped mainstream research on how to keep AI beneficial. How can we grow our prosperity through automation without leaving people lacking income or purpose? What career advice should we give today's kids? How can we make future AI systems more robust, so that they do what we want without crashing, malfunctioning or getting hacked? Should we fear an arms race in lethal autonomous weapons? Will machines eventually outsmart us at all tasks, replacing humans on the job market and perhaps altogether? Will AI help life flourish like never before or give us more power than we can handle? What sort of future do you want? This book empowers you to join what may be the most important conversation of our time. It doesn't shy away from the full range of viewpoints or from the most controversial issues—from superintelligence to meaning, consciousness and the ultimate physical limits on life in the cosmos.

"[A] winningly obsessive history of our relationship with underground places" (The Guardian), from sacred caves and derelict subway stations to nuclear bunkers and ancient underground cities—an exploration of the history, science, architecture, and mythology of the worlds beneath our feet

NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR When Will Hunt was sixteen years old, he discovered an abandoned tunnel that ran beneath his house in Providence, Rhode Island. His first tunnel trips inspired a lifelong fascination with exploring underground worlds, from the derelict subway stations and sewers of New York City to sacred caves, catacombs, tombs, bunkers, and ancient underground cities in more than twenty countries around the world. *Underground* is both a personal exploration of Hunt's obsession and a panoramic study of how we are all connected to the underground, how caves and other dark hollows have frightened and enchanted us through the ages. In a narrative spanning continents and epochs, Hunt follows a cast of subterraneaphiles who have dedicated themselves to investigating underground worlds. He tracks the origins of life with a team of NASA microbiologists a mile beneath the Black Hills, camps out for three days with urban explorers in the catacombs and sewers of Paris, descends with an Aboriginal family into a 35,000-year-old mine in the Australian outback, and glimpses a sacred sculpture molded by Paleolithic artists in the depths of a cave in the Pyrenees. Each adventure is woven with findings in mythology and anthropology, natural history and neuroscience, literature and philosophy. In elegant and graceful prose, Hunt cures us of our "surface chauvinism," opening our eyes to the planet's hidden dimension. He reveals how the subterranean landscape gave shape to our most basic beliefs and guided how we think about ourselves as humans. At bottom, *Underground* is a meditation on the allure of darkness, the power of mystery, and our eternal desire to connect with what we cannot see. Praise for *Underground* "A mesmerizingly fascinating tale . . . I could not stop reading this beautifully written book."—Michael Finkel, author of *The Stranger in the Woods* "Few books have blown my mind so totally, and so often. In Will Hunt's nimble hands, excursion becomes inversion, and the darkness turns luminous. There are echoes of Sebald, Calvino, and Herzog in his elegant and enigmatic voice, but also real warmth and humor. . . . An intrepid—but far from fearless—journey, both theoretically and terrestrially."—Robert Moor, *New York Times* bestselling author of *On Trails*

When a meteorite lands in Surrey, the locals don't know what to make of it. But as Martians emerge and begin killing bystanders, it quickly becomes clear—England is under attack. Armed soldiers converge on the scene to ward off the invaders, but meanwhile, more Martian cylinders land on Earth, bringing reinforcements. As war breaks out across England, the locals must fight for their lives, but life on Earth will never be the same. This is an unabridged version of one of the first fictional accounts of extraterrestrial invasion. H. G. Wells's military science fiction novel was first published in book form in 1898, and is considered a classic of English literature.

Drawing the Line

At 9:02 am on Wednesday April 19, 1995, two tons of explosives ripped apart the federal office building in Oklahoma City and the psyche of America. The worst case of domestic terrorism in our history, this explosion killed 169 men, women, and children. The author of this book has written, If [this book] had been available to the general public . . . the Oklahoma bombing would not have come as such a surprise. It has been considered by the Justice Department and other government agencies as the bible of right-wing militia groups, and the FBI believes it provided the blueprint for the Oklahoma City bombing.

Barricade Books has published it so America can better understand the cause of racism and extremism.

SOON TO BE A MAJOR FILM STARRING KEIRA KNIGHTLEY Set in post-war Germany, the international bestseller *The Aftermath* by Rhidian Brook is a stunning emotional thriller about our fiercest loyalties and our deepest desires. In the bitter winter of 1946, Rachael Morgan arrives with her only remaining son Edmund in the ruins of Hamburg. Here she is reunited with her husband Lewis, a British colonel charged with rebuilding the shattered city. But as they set off for their new home, Rachael is stunned to discover that Lewis has made an extraordinary decision: they will be sharing the grand house with its previous owners, a German widower and his troubled daughter. In this charged atmosphere, enmity and grief give way to passion and betrayal. 'Profoundly moving, beautifully written. Ponders issues of decency, guilt and forgiveness' *Independent* 'Terrific. Suspicion, resentment and misunderstanding haunt this city. Richly atmospheric' *Sunday Telegraph* 'An extraordinary read' *Daily Mail*

Written in 1944, the novel entitled 1984 proved to be George Orwell's most chilling prophecy. Timelier than ever, Orwell's dystopian vision of a government that will do anything to control the narrative forms the basis of one of the greatest novels of all time. This book and audiobook offer uniqueness, and time and cost-efficiency. Summaries and Expansions, filled with insight, and some added material most relevant to Orwell's topics and themes, become yours to enjoy. Many of his most famous scenes and passages form a solid foundation for analysis. Winston Smith toes the Party line, rewriting history to satisfy the demands of the Ministry of Truth—a job similar to the one Orwell had with the BBC. With each falsehood that he writes and each truth that he buries, Winston grows to hate the Party that seeks power for its own sake and persecutes those who dare to commit thoughtcrimes against it. He starts to think for himself but can't escape the fact that Big Brother is constantly watching and listening. Even thinking of writing a personal journal, or falling in love, is punishable by death. Winston writes a journal and falls in love. Game on. Winston challenges Big Brother's Doublethink, which became crafted to brainwash the populous into submission. WAR IS PEACE FREEDOM IS SLAVERY IGNORANCE IS STRENGTH A stunning and haunting work that blessed us as a unique literary masterpiece, 1984 creates an imaginary world that is both convincing and unforgettable, from beginning to end. There is no denial of the novel's hold on the imagination of entire generations or the influence of its warnings—a power that seems to gain strength, not lose it, with time. Orwell's 1984 rose to the top of best seller lists in late 2020 and 2021 because the world continues to evolve from the one which gave him his experiences and motives during the war towards one which matches his gloomy predictions in a most uncanny fashion.

University Physics is designed for the two- or three-semester calculus-based physics course. The text has been developed to meet the scope and sequence of most university physics courses and provides a foundation for a career in mathematics, science, or engineering. The book provides an important opportunity for students to learn the core concepts of physics and understand how those concepts apply to their lives and to the world around them. Due to the comprehensive nature of the material, we are offering the book in three volumes for flexibility and efficiency. Coverage and Scope Our University Physics textbook adheres to the scope and sequence of most two- and three-semester physics courses nationwide. We have worked to make physics interesting and accessible to students while maintaining the mathematical rigor inherent in the subject. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from fundamental to more advanced concepts, building upon what students have already learned and emphasizing connections between topics and between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses and future careers. The organization and pedagogical features were developed and vetted with feedback from science educators dedicated to the project. VOLUME I Unit 1: Mechanics Chapter 1: Units and Measurement Chapter 2: Vectors Chapter 3: Motion Along a Straight Line Chapter 4: Motion in Two and Three Dimensions Chapter 5: Newton's Laws of Motion Chapter 6: Applications of Newton's Laws Chapter 7: Work and Kinetic Energy Chapter 8: Potential Energy and Conservation of Energy Chapter 9: Linear Momentum and Collisions Chapter 10: Fixed-Axis Rotation Chapter 11: Angular Momentum Chapter 12: Static Equilibrium and Elasticity Chapter 13: Gravitation Chapter 14: Fluid Mechanics Unit 2: Waves and Acoustics Chapter 15: Oscillations Chapter 16: Waves Chapter 17: Sound

Safe, efficient, code-compliant electrical installations are made simple with the latest publication of this widely popular resource. Like its highly successful previous editions, the National Electrical Code 2011 spiral bound version combines solid, thorough, research-based content with the tools you need to build an in-depth understanding of the most important topics. New to the 2011 edition are articles including first-time Article 399 on Outdoor, Overhead Conductors with over 600 volts, first-time Article 694 on Small Wind Electric Systems, first-time Article 840 on Premises Powered Broadband Communications Systems, and more. This spiralbound version allows users to open the code to a certain page and easily keep the book open while referencing that page. The National Electrical Code is adopted in all 50 states, and is an essential reference for those in or entering careers in electrical design, installation, inspection, and safety.

Can we still watch Woody Allen's movies? Can we still laugh at Bill Cosby's jokes? Woody Allen, Kevin Spacey, Dave Chappelle, Louis C. K., J.K. Rowling, Michael Jackson, Roseanne Barr. Recent years have proven rife with revelations about the misdeeds, objectional views, and, in some instances, crimes of popular artists. Spurred in part by the #metoo movement, and given more access than ever thanks to social media and the internet in general, the public has turned an alert and critical eye upon the once-hidden lives of previously cherished entertainers. But what should we members of the public do, think, and feel in response to these artists' actions or statements? It's a predicament that many of us face: whether it's possible to disentangle the deeply unsettled feelings we have toward an artist from how we respond to the art they produced. As consumers of art, and especially as fans, we have a host of tricky moral question to navigate: do the moral lives of artists affect the aesthetic quality of their work? Is it morally permissible for us to engage with or enjoy that work? Should immoral artists and their work be canceled? Most of all, can we separate an artist from their art? In *Drawing the Line*, Erich Hatala Matthes employs the tools of philosophy to offer insight and clarity to the ethical questions that dog us. He argues that it doesn't matter whether we can separate the art from the artist, because we shouldn't. While some dismiss the lives of artists as if they are irrelevant to the artist's work, and others instrumentalize artwork, treating it as nothing more than a political tool, Matthes argues both that the lives of artists can play an important role in shaping our moral and aesthetic relationship to the artworks that we love and that these same artworks offer us powerful resources for grappling with the immorality of their creators. Rather than shunning art made by those who have been canceled, shamed, called out, or even arrested, we should engage with it all the more thoughtfully and learn from the complexity it forces us to confront. Recognizing the moral and aesthetic relationships between art and artist is crucial to determining when and where we should draw the line when good artists do bad things.

The basis for the hit Netflix series! "What Walter Tevis did for pool in *The Hustler*, he does for chess in *The Queen's Gambit*" (Playboy). When eight-year-old Beth Harmon's parents are killed in an automobile accident, she's placed in an orphanage in Mount Sterling, Kentucky. Plain and shy, Beth learns to play chess from the janitor in the basement and discovers she is a prodigy. Though penniless, she is desperate to learn more—and steals a chess magazine and enough money to enter a tournament. Beth also steals some of her foster mother's tranquilizers to which she is becoming addicted. At thirteen, Beth wins the chess tournament. By the age of sixteen she is competing in the US Open Championship and, like Fast Eddie in *The Hustler*, she hates to lose. By eighteen she is the US champion—and Russia awaits . . . Fast-paced and elegantly written, *The Queen's Gambit* is a thriller masquerading as a chess novel—one that's sure to keep you on the edge of your seat. "The Queen's Gambit is sheer entertainment. It is a book I reread every few years—for the pure pleasure and skill of it." —Michael Ondaatje, Man Booker Prize-winning author of *The English Patient*

The Frog Prince

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While *1984* and *Animal Farm* are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In *Politics and the English Language*, the second in the Orwell's Essays series, Orwell takes aim at the language used in politics, which, he says, 'is designed to make lies sound truthful and murder respectable, and to give an appearance of solidity to pure wind'. In an age where the language used in politics is constantly under the microscope, Orwell's *Politics and the English Language* is just as relevant today, and gives the reader a vital understanding of the tactics at play. 'A writer who can – and must – be rediscovered with every age.' — Irish Times

The publication of the King James version of the Bible, translated between 1603 and 1611, coincided with an extraordinary flowering of English literature and is universally acknowledged as the greatest influence on English-language literature in history. Now, world-class literary writers introduce the book of the King James Bible in a series of beautifully designed, small-format

volumes. The introducers' passionate, provocative, and personal engagements with the spirituality and the language of the text make the Bible come alive as a stunning work of literature and remind us of its overwhelming contemporary relevance. The NIV Church Bible is ideal as a quality pew Bible, but is also perfect for home study or for your church. It includes the complete text of the NIV translation, printed on high-quality paper inside a durable binding. Features include:* Complete NIV text with subject headings and translators' footnotes* Easy-to-read double-column format* Durable black hardcover binding with gold stamping

American Government

The first ever graphic novel adaptation of George Orwell's timeless dystopia Winston Smith, an outwardly obedient citizen of Airstrip One, dreams secretly of truth and freedom - but his rebellion will come at a terrible cost. George Orwell's dark masterpiece has enthralled readers for over seventy years. Now the dystopian world of Big Brother, telescreens, the Thought Police and Room 101 is vividly brought to new life in this first ever graphic novel adaptation, illustrated by acclaimed artist Fido Nesti.

"Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.
