The concept of the avant garde is highly contested, whether one consigns it to history or claims it for present-day and future uses. The first volume of *The Idea of the Avant Garde - And What It Means Today* provided an unprecedented forum on the kinds of radical art theory and partisan practices that are possible in today's world of global art markets and creative industry entrepreneurialism. This second volume presents the work of 50 artists and writers who explore the diverse ways that today's avant-gardism renews the project of aesthetic and political

praxis. The manifest strategies, temporalities and genealogies of avant-gardism are expressed through an international, intergenerational and interdisciplinary convocation of ideas that covers the fields of film, video, architecture, visual art, art activism, literature, poetry, theatre, performance, music and intermedia."More than one hundred years after the eruption of Dada and fifty years after its loudly proclaimed death, the spectre of the avant garde returns in renewed and vibrant forms. This excellent collection gives an overview of just how and why a renewed experimental artistic politics is important."- Stephen Shukaitis,

author of *The Composition of Movements to Come: Aesthetics and Cultural Labor After the Avant-Garde*. "One hundred years after the October Revolution, why does art continue to be meaningful in terms of ideological disruption, that is, in avant-garde terms? If you are looking to understand this question, *The Idea of the Avant Garde* is the place to start. Navigating the decade marked by the financial apocalypse of 2008, this volume introduces the twenty-first century anti-capitalist zeitgeist in no uncertain terms: art reserves the right to not let us lose sight of what is wrong, who is responsible and what it means to take sides." - Angela Dimitrakaki, author of

If you are contemplating working with a champion, a potential champion, or anyone with untapped talent - be prepared, be very prepared. In 1998 Sir Steve Redgrave stared at Ingham and demanded to know, "Are you going to make me go faster?" Ingham had been

trained and developed as a scientist, but in that single instance he questioned everything he thought he knew. Applied science in elite sport has boomed. Science has radically changed elite sport, but one thing remains as the guiding focus - the summit of performing to your best and winning. This applies to the athlete, the coaches and increasingly for the applied practitioner. In this book Ingham draws on the lessons learned from a career in the intense, unforgiving rollercoaster of

elite sport; helping, supporting and developing some of the best athletes in the world, including Sir Steve Redgrave, Sir Matthew Pinsent, Hayley Tullett, Kelly Sotherton, and Jessica Ennis-Hill as they pursue their goals. His journey shows that all the knowledge in the world will get you only so far, but it is with trust, team-work, critical thinking, adaptability, accountability and altruism that you can truly support a champion. Brand Revolution offers a radical new approach to
