David Crystal's classic English as a Global Language considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.

When the Smoke Clears

OBD-II & Electronic Engine Management Systems

Complete Small Truck Cost Guide 1997

Virginia is for lovers, but in the heartless and unforgiving streets of Virginias 7even Cities: where disillusioned hustlers pitch narcotics on project blocks without a conscience, disgruntled stick up kids terrorize the streets with their ambitions attached to ski masks and twin pistols, and dispirited young females strip themselves of their self-worth and sell their most sacred possessions all for a piece of the Devils Pie, love is an ideal often spoke about, but seldom seen. The 7even Cities, where the disenfranchised take to the streets to obtain the American Dream of lavish homes, luxury automobiles, and tailored garments, while the aristocracy relentlessly aim to squander their hopes with oppressive laws and a multi-million dollar penal system. This is Virginia through the clairvoyant eyes of Marquis Cream Cureton in his classic debut novel, When the Smoke Clears: An Urban Novel. Inspired by true events, Cream narrates the story of Secoya Smoke Harris, a promising college basketball player with ambitions as vast as the oceans are blue, who tip-toed the fine line between success and the streets. Originally from the gang infested streets of Compton, California, Smoke cant resist the lure of the underworld of the 7even Cities, and in one costly decision finds himself incarcerated in Virginias Department of Corrections and marked for death by his big homie. His basketball career ruined and future bleak, Smoke apprehensively makes the decision to dive head first into the streets and get money the only way he sees possibletrafficking marijuana. Beef inevitable, bodies dropping, and indictments looming, Smoke drowns himself in a cloud of haze from the finest bud California has to offer in order to escape the harsh reality that in the streets nothing last forever, and no one ever wins; there are only those that survive the game and live to tell about it behind penitentiary walls, and those that lose, taking their last breath in the streets. Which side will Smoke find himself? Only God knows, When the Smoke Clears.

Gripping and sumptuous, this is the definitive book on the history, mystique, and science of Mount Everest, including how climate change is impacting the world's tallest mountain. In 1963, the American Mount Everest Expedition made mountaineering history. It was the first American venture to successfully scale the legendary peak and the first successful climb up the hazardous West Ridge (a climb so difficult no one has yet repeated it). In 2012, adventurer Conrad Anker led a National Geographic/The North Face team up the mountain to enact a legacy climb. Environmental changes and overcrowding led to challenges and disappointments, but yet the mountain maintains its allure. Now, steely-eyed Anker leads a team of writers in a book designed to celebrate the world's most famous mountain, to look back over the years of climbing triumphs and tragedies, and to spotlight what has changed--and what remains eternal--on Mount Everest. Telltale signs of Everest's current state, never-before-published photography, and cutting-edge science expose the world's tallest peak--its ancient meaning, its ever-present challenges, and its future in a world of disappearing ice.

The latest values of collector cars based on six different grades of condition can be found in a comprehensive reference that has some 250,000 listings for domestic cars and light trucks, and various import vehicles manufactured between 1900 and 1999. Original.
