Applied Enterprise JavaBeans Technology shows how to leverage the full power of EJB 2.0 to build industrial-strength applications that are distributed, transactional, and secure. Exceptionally comprehensive and accurate, this book starts from first principles and progresses to the state-of-the-art, revealing normally hidden aspects of the EJB architecture that offer immense power to developers. It includes a full-scale case study, in-depth coverage of integration, and extensive cross-references to the official EJB 2.0 specifications.

Harley-Davidson riders are a close-knit community that loves good food. The official motto of Harley riders may be "Live to Ride, Ride to Live," but the unofficial motto is "Eat to Ride, Ride to Eat." To help celebrate the 100th anniversary of Harley-Davidson in 2003, Bill Hufnagle, aka Biker Billy, collected 200 righteous recipes from HOG (Harley Owners Group) members and other Harley enthusiasts from sea to shining sea whose close-second passion is a fantastic, stick-to-your-ribs meal with no holds barred. There are plenty of Billy's own favorites included, too. Here and only here are recipes for Nana's Famous Horseradish Cheese Spread, Grandpa's Oil Can Stew, Penne with Crankcase Vodka Sauce, Black Leather Tostadas, and John's Prison Break Cake. This is torqued-up-tasty food from a bunch of adventure-loving riders that's certain to appeal to the more than five million Harley riders across the U.S.A.

A single dad, wrongly convicted of murdering his ex-wife, is killed during a prison yard fight. Years later it is discovered that his ex-wife's boyfriend was the murderer 40 years later technology advances and man has created the ability to travel back in time. Nick Ryan, the son of the murdered parents is now a successful corporate attorney working for LexiCon Industries, with one primary objective. LexiCon has developed the top secret technology and wants congress to approve human experimentation in time travel. Politicians take sides, some fearful of the ripple effect of time travel, others anxious to take advantage of the power it can deliver. Lesley Powell works for a division of the justice department and after much debate is the special agent assigned to be the human experiment. Her mission; fix an injustice that happened 40 years ago; save the life of Nick's mother or help defend his father of the wrongful conviction. Knowledge of the future should be an advantage for Lesley. However, man can not be all knowing and her trip back in time leads her down a path she could not have predicted.

When Nash, a Marine returning home with an injury, who is rebuilding his life, walks into the library where shy librarian Betsy Bobbin works, she's intimidated by the handsome man who wears an eye patch and an attitude. But when her car has a flat in the library parking lot as she's leaving work during a winter storm, the mysterious Marine comes to her rescue. He comes to her rescue again when Betsy and her less mature younger sister Leann have trouble at a local country western bar with a drunk who won't leave Leann alone. But the fight outside the bar between an angry Nash and the drunk frightens Betsy. She's fallen for the recovering war veteran, but is it safe to fall for a man with PTSD? Betsy is torn. Will love and trust win out over her fear before it is too late? Nash has found the girl of his dreams, but his wounds run deep. His ex-fiancé was repulsed by his eye patch and his scars, and manufactured drama like bees do honey. He's sworn off of women and their drama and is keeping his focus on restoring a one hundredth anniversary 2003 Harley Davidson Road King and on the college classes he is taking. Meeting Betsy at the library, he's drawn to the sweet, shy librarian and she brings out his protective instincts. If only her sister would stop getting in the way. Real drama surrounds Betsy, when a stalker comes after her sister Leann. The girls learn that stalking is a real problem on college campuses when Leann's tutor stalks her. When Leann's college stalker shows up in town Betsy again turns to Nash. This military romance with a touch of suspense features a Marine veteran hero with PTSD, a shy college librarian heroine, her younger less mature sister and a college campus stalker.

The governor of Wisconsin describes the vehemently protested reforms he instituted in 2010 to limit union actions that were costing taxpayers billions, answering the charges of his detractors while explaining how he kept his office after an election recall attempt.

Chronicled here for the first time, Harley-Davidson's exclusive CVO models are pure eye candy.

The Harley-Davidson Source Book celebrates these iconic motorcycles in encyclopedia form. Rich with vivid photography, insightful commentary, and production specs and data, this is the #1 resource for die-hard Harley fans all around the world. When most people close their eyes and imagine a motorcycle, that motorcycle looks very much like a Harley-Davidson. That's because Harley builds the archetypal motorcycle, the mythic bike that exists beyond the input provided by our traditional senses. This is what the philosopher Kant called a priori knowledge, knowledge we can't learn but only intuit. That makes a Harley-Davidson the a priori motorcycle. The Harley-Davidson Motor Co. builds motorcycles that look the way the primordial biker inside each of us feels a motorcycle should be built. This is why Harley-Davidson defines the very word motorcycle for so many people. In The Harley-Davidson Source Book, acclaimed Harley-Davidson historian Mitchel Bergeron covers every motorcycle the company has built, from the very first prototype to the Silent Gray Fellow to the latest CVO Electra Glides and Softails. They're all here—the Knucklehead, the Panhead, the Pea Shooter, the KR, the Sportster, the XR750, the Shovelhead, the Evolution, the Twin Cam, the V-Rod, and all the rest. An authoritative text by noted Harley-Davidson historian and journalist Mitchel Bergeron complemented by modern and period photography and archival marketing materials make this Harley reference complete. The Harley-Davidson Source Book showcases the most storied, celebrated, and downright wild motorcycles ever produced by the Motor Company. This is the ultimate encyclopedia of the ultimate motorcycle.

I was born in 2009 after my creator grabbed her creative balls and decided to let me out of her imagination. Damn, its good to be out and alive! As I said, I was born in 2009 and was let out in 2010. My creator was inspired by a great friend of hers. R.I.P Shawn! He had a passion for riding his motorcycle and was an unbelievable man. My creator has taken an artistic journey and expanded me into a Book complied of crazy digital abstract paintings. She has put me on Hoodies, T-Shirts (long and short sleeved), and is now doing customized prints of other riders Pride and Joy, their bikes! Soon I hope to be on the back of

riders all over the world. People have seemed to taken an interest in me before I even knew wherwe I was going, what a rush it is! The more bikes I get to take on, in an artistic way of course, the more alive I feel. What an empowering journey this is to be a part of something so creative and so different and most importantly being a part of something that captures the very essence of ones glory. To feel the wind at your back, the sun beating down on you, and the energetic force that is the motorcycle! My heart races when I can hear a growl, flying down an open road and it almost seems to whisper catch me if you can. For all those who share the same thrill and love of the ride, youve got to check me out, Steel and Ice Motorcycle Art!!! Cheers all, and remember to always take your friends with you on your journeys!
