

2010 Antique Maps Wall Calendar

These two fascinating cities reflect different aspects of China - Beijing is the traditional capital, the seat of political power and home to the ancient monuments of Imperial China; Shanghai is both a financial powerhouse and a city at the cutting edge of fashion with an interesting modern history. This DK Eyewitness Travel Guide provides in-depth coverage of these cities, including Beijing's Great Wall and Forbidden City, Shanghai's Bund and the French Concession, as well as the water towns of Suzhou and Hangzhou, graced with serene and timeless gardens and lakes. Explore China's cultural heritage through richly illustrated features - on everything from Beijing Opera to Confucianism, Chinese Gardens, and the Cultural Revolution. Illustrated food features highlight the differing regional cuisines, and resident China experts have provided detailed listings of the best places to stay and eat. Specially devised walking tours take you easily to the heart of these bustling, enigmatic, and ultimately bewitching cities. Over 600 color photographs, maps & illustrations: -The flavors of Beijing and Shanghai - local produce and classic dishes -Cutaways and floor plans of all the major sights -Comprehensive selection of hotels and restaurants -3-D aerial views of Beijing and Shanghai's most interesting districts -Four Great Days Out in Beijing and Shanghai -Full-color Street Finder mapping Houses and homes are dynamic spaces within which people work to organize and secure their lives, livelihoods and relationships. Written by a team of renowned historians and anthropologists, and and accompanied by original photography by Maurice Weiss, To Be at Home: House,Work, and Self in the Modern World compares the ways people in different societies and historical periods strive to make and keep houses and homes under conditions of change, upheaval, displacement, impoverishment and violence. These conditions speak to the challenges of life in our modern world. The contributors of this volume position the home as a new nodal point between work, the self and the world to explore people's creativity, agency and labour. Houses and homes prove complex and powerful concepts – if also often elusive – invoking places, persons, objects, emotions, values, attachments and fantasies. This book demonstrates how the relations between houses, work and the self have transformed dramatically and unpredictably under conditions of capitalism and modernity – and continue to change today.

Old-House Journal is the original magazine devoted to restoring and preserving old houses. For more than 35 years, our mission has been to help old-house owners repair, restore, update, and decorate buildings of every age and architectural style. Each issue explores hands-on restoration techniques, practical architectural guidelines, historical overviews, and homeowner stories--all in a trusted, authoritative voice.

"This book by Lisa Tauxe and others is a marvelous tool for education and research in Paleomagnetism. Many students in the U.S. and around the world will welcome this publication, which was previously only available via the Internet. Professor Tauxe has performed a service for research that is utterly unique."—Neil D. Opdyke, University of Florida

In celebration of one of science fiction's most beloved franchises, an updated edition of the acclaimed Ships of the Line hardcover collection. They dared to risk it all in a skiff of reeds or leather, on a ship of wood or steel, knowing the only thing between them and certain death was the sea. To explore, to discover, to seek out what lay beyond the close and comfortable, every explorer had to embrace danger. And as they did so, what arose was a mystical bond, a passion for the ships that carried them. From the very first time humans dared to warp the fabric of space, escaping the third World War, they also created ships. These vessels have become the icons of mankind's desire to rise above the everyday, to seek out and make the unknown known. And these ships that travel the stellar seas have stirred the same passions as the ones that floated in the sea. The captain has wished that their starship could be outfitted in the same manner as the sailing ship H.M.S. Beagle—without weapons—that proved untenable. From the start, Starfleet realized that each vessel, due to the limited range of the early warp engines, must be able to stand up to attack. Thus arose the idea, taken from the days of wooden sailing ships, that every Starfleet vessel must stand as a ship of the line. Through the actions of their captains and crews, countless starships have taken on that role. Here we remember some of those ships and their crews. In celebration of one of science fiction's most beloved franchises, this updated edition of the acclaimed Ships of the Line hardcover collection now includes dozens of additional images brought together for the first time in book format—spectacular renderings featured in the highly acclaimed Ships of the Line calendar series. With text by Star Trek's own Michael Okuda, the story of each of these valiant starships now comes to life.™, ®, & © 2014 CBS Studios, Inc. A History of the Timeline

Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured.

Our critically acclaimed smash hit Cartographies of Time is now available in paperback. In this first comprehensive history of graphic representations of time, authors Daniel Rosenberg and Anthony Grafton have crafted a lively history featuring fanciful characters and unexpected twists and turns.

From medieval manuscripts to websites, Cartographies of Time features a wide variety of timelines that in their own unique ways, curving, crossing, branching, defy conventional thinking about the form. A fifty-four-foot-long timeline from 1753 is mounted on a scroll and encased in a protective box.

Another timeline uses the different parts of the human body to show the genealogies of Jesus Christ and the rulers of Saxony. Ladders created by missionaries in eighteenth-century Oregon illustrate Bible stories in a vertical format to convert Native Americans. Also included is the April 1912 Marconi North Atlantic Communication chart, which tracked ships, including the Titanic, at points in time rather than by their geographic location, alongside little-known works by famous figures, including a historical chronology by the mapmaker Gerardus Mercator and a chronological board game patented by Mark Twain. Presented in a lavishly illustrated edition, Cartographies of Time is a revelation to anyone interested in the role visual forms have played in our evolving conception of history

China is fast becoming the next superpower - a rise that presents a challenge to the world economically, politically and culturally. Drawing on extensive new Chinese sources, Professor Callahan sheds fascinating light on how Chinese people understand their changing place, and what that might mean for the world.

The geographic range of this study is the British American colonies, from Halifax, Nova Scotia, to Savannah, in the Georgia colony on the continent, and the British West Indies."--BOOK JACKET.

Who is the real Margo? Quentin Jacobsen has spent a lifetime loving the magnificently adventurous Margo Roth Spiegelman from afar. So when she cracks open a window and climbs into his life - dressed like a ninja and summoning him for an ingenious campaign of revenge - he follows. After their all-nighter ends and a new day breaks, Q arrives at school to discover that Margo, always an enigma, has now become a mystery. She has disappeared. Q soon learns that there are clues in her disappearance . . . and they are for him. Trailing Margo's disconnected path across the USA, the closer Q gets, the less sure he is of who he is looking for.

A collection of twelve poems describing the activities in a child's life and the changes in the weather as the year moves from January to December.

An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students.

Why French women of a certain age are the consummate hostesses, homemakers, and style icons--and how you can be, too. Frenchwomen--particularly those 40 and over--are role models for stylish and gracious living, what the French call l'art de vivre. American-born fashion journalist Tish Jett, who has studied these women for years, shared their beauty secrets in her first book, Forever Chic. Now she explores why Frenchwomen of a certain age are master hostesses and homemakers, expert practioners of les bonnes manières as well as everyday elegance, savoir-faire, and as a result, la joie de vivre. Jett explains how to entertain like a Frenchwoman, including a glimpse into the typical French larder from which a delicious meal can be thrown together with ease, to detailed instruction on laying a beautiful table and crafting a perfect cheese plate (did you know that when cutting from a wedge of cheese, slice from the back to the point, which is the "heart" of the cheese, and as such considered the best part and not to be lopped off so others cannot enjoy it). She explores everyday style and elegance, disclosing how to create that special bien dans sa peau (to feel good about oneself) sensation so coveted by Frenchwomen. Jett also shares the importance of discipline, which goes hand in hand with beauty--a well-ordered closet, be it for clothes or linens, translates to easy everyday elegance. With tips on adjusting your beauty and style regimes seasonally, charmingly packaged with color illustrations, Living Forever Chic is a delightful gift for the Francophile in your life.

With an appendix providing a chronology, the Hebrew alphabet, weights, measures and coins, the Jewish calendar and a guide to further reading for easy reference, this is an accessible, user-friendly introduction which is indispensable to students as a starting point for studying the history, culture and development of the people of Israel.

Recent academic and medical initiatives have highlighted the benefits of studying culturally embedded healing traditions that incorporate religious and philosophical viewpoints to better understand local and global healing phenomena. Capitalising on this trend, the present volume looks at the diverse models of healing that interplay with culture and religion in Asia. Cutting across several Asian regions from Hong Kong to mainland China, Tibet, India, and Japan, the book addresses healing from a broader perspective and reflects a fresh new outlook on the complexities of Asian societies and their approaches to health. In exploring the convergences and collisions a society must negotiate, it shows the emerging urgency in promoting multidisciplinary and interdisciplinary research on disease, religion and healing in Asia. Drawing on original fieldwork, contributors present their latest research on diverse local models of healing that occur when disease and religion meet in South and East Asian cultures. Revealing the symbiotic relationship of disease, religion and healing and their colliding values in Asia often undetected in healthcare research, the book draws attention to religious, political and social dynamics, issues of identity and ethics, practical and epistemological transformations, and analogous cultural patterns. It challenges the reader to rethink predominantly long-held Western interpretations of disease management and religion. Making a significant contribution to the field of transcultural medicine, religious studies in Asia as well as to a better understanding of public health in Asia as a whole, it will be of interest to students and scholars of Health Studies, Asian Religions and Philosophy.

BLACK ENTERPRISE is the ultimate source for wealth creation for African American professionals, entrepreneurs and corporate executives. Every month, BLACK ENTERPRISE delivers timely, useful information on careers, small business and personal finance.

This atlas of the Israeli-Palestinian conflict maps the processes and mechanisms behind the modification of the country during the last 100 years both on a policy level and in its physical implementation on the ground.

Alongside providing an indispensable reference book on the specificities of the conflict, the atlas also provides lessons on a broader front, particularly in connection with disputes over former colonial territories and natural resources. Illustrated throughout with full-colour illustrations, maps and diagrams.

The Indian Ocean and the Future of American Power

*Lauded as a "compelling" (The New Yorker) and "eye-opening tour of a process that many Americans never see" (Washington Post), David Daley's Ratf**ked documents the effort of Republican legislators and political operatives to hack American democracy through an audacious redistricting plan called REDMAP. Since the revolutionary election of Barack Obama, a group of GOP strategists has devised a way to flood state races with a gold rush of dark money, made possible by Citizens United, in order to completely reshape Congress--and our democracy itself. "Sobering and convincing" (New York Review of Books), Ratf**ked shows how this program has radically altered America's electoral map and created a firewall in the House, insulating the Republican party and its wealthy donors from popular democracy. While exhausted voters recover from a grueling presidential election, a new Afterword from the author explores the latest intense efforts by both parties, who are already preparing for the next redistricting cycle in 2020. A Washington Post Notable Book With a new chapter on eugenacist Madison Grant's The Passing of the Great Race In this brilliant and original exploration of some of the formative influences in Adolf Hitler's life, Timothy Ryback examines the books that shaped the man and his thinking. Hitler was better known for burning books than collecting them but, as Ryback vividly shows us, books were Hitler's constant companions throughout his life. They accompanied him from his years as a frontline corporal during the First World War to his final days before his suicide in Berlin. With remarkable attention to detail, Ryback examines the surviving volumes from Hitler's private book collection, revealing the ideas and obsessions that occupied Hitler in his most private hours and the consequences they had for our world. A feat of scholarly detective work, and a captivating biographical portrait, Hitler's Private Library is one of the most intimate and chilling works on Hitler yet written.*

On the world maps common in America, the Western Hemisphere lies front and center, while the Indian Ocean region all but disappears. This convention reveals the geopolitical focus of the now-departed twentieth century, but in the twenty-first century that focus will fundamentally change. In this pivotal examination of the countries known as "Monsoon Asia"—which include India, Pakistan, China, Indonesia, Burma, Oman, Sri Lanka, Bangladesh, and Tanzania—bestselling author Robert D. Kaplan shows how crucial this dynamic area has become to American power. It is here that the fight for democracy, energy independence, and religious freedom will be lost or won, and it is here that American foreign policy must concentrate if the United States is to remain relevant in an ever-changing world. From the Horn of Africa to the Indonesian archipelago and beyond, Kaplan exposes the effects of population growth, climate change, and extremist politics on this unstable region, demonstrating why Americans can no longer afford to ignore this important area of the world.

Presents a collection of original maps and historic illustrations to document the exploration of North America.

Right-Brain Strategies for Stopping Procrastination, Getting Control of the Clock and Calendar, and Freeing Up Your Time and Your Life

*Creative folks often know all too well that the muse doesn't always strike when you want it to, or when the deadline for your next brilliant project is creeping up on you like an ill-fitting turtleneck. Originality doesn't follow a time clock, even when you have to. While conventional time management books offer tons of instruction for using time wisely, they are traditionally organized in a linear fashion, which just isn't helpful for the right-brain mind. In Time Management for the Creative Person, creativity guru Lee Silber offers real advice for using the strengths of artistic folks—like originality and resourcefulness—to adopt innovative time-saving solutions, such as: * Learning to say no when your plate is just too full * How to know when a good job, not a great one, is good enough * Making “to do” lists that include fun stuff, too—that way you won't feel overwhelmed by work * Time-saving techniques around the house that give you more time to get your work done and more time to spend with your loved ones * The keys to clutter control that will keep your work space and your living space neat With these and lots of other practical tips, Lee Silber will help anyone, from the time-starved caterer rushing to prepare for her next party to the preoccupied painter who forgets when the electric bill is due, make the most of their time and turn the clock and the calendar into friends, not foes.*

Explores the theory from political continental thinkers such as Badiou, Zizek, Hardt, Negri, Agamben and Laclau and applies it to real issues, drawing examples from the contemporary world such as the 'war on terror', the anti-globalization movement and transnational activism, the wars in Iraq and Afghanistan.

The recent large-scale watershed projects in northern Syria, where the ancient city of Emar was located, have brought this area to light, thanks to salvage operation excavations before the area was submerged. Excavations at Meskeneh-Qadimeh on the great bend of the Euphrates River revealed this large town, which had been built in the late 14th century and then destroyed violently at the beginning of the 12th, at the end of the Bronze Age. In the town of Emar, ritual tablets were discovered in a temple that are demonstrated to have been recorded by the supervisor of the local cult, who was called the "diviner." This religious leader also operated a significant writing center, which focused on both administering local ritual and fostering competence in Mesopotamian lore. An archaic local calendar can be distinguished from other calendars in use at Emar, both foreign and local. A second, overlapping calendar emanated from the palace and represented a rising political force in some tension with rooted local institutions. The archaic local calendar can be partially reconstructed from one ritual text that outlines

the rites performed during a period of six months. The main public rite of Emar's religious calendar was the zukru festival. This event was celebrated in a simplified annual ritual and in a more elaborate version of the ritual for seven days during every seventh year, probably serving as a pledge of loyalty to the chief god, Dagan. The Emar ritual calendar was native, in spite of various levels of outside influence, and thus offers important evidence for ancient Syrian culture. These texts are thus important for ancient Near Eastern cultic and ritual studies. Fleming's comprehensive study lays the basic groundwork for all future study of the ritual and makes a major contribution to the study of ancient Syria.
