The topic of social deviance is inherently intriguing. People in general, and college students in particular, find the topic of deviant behavior fascinating. This can be explained, at least in part, by a combination of the subject matter itself, our own past deviant behaviors, and our willingness and desire to evaluate and comment on the behaviors of others. While the topic of deviant behavior seems straightforward at the surface, the study of social deviance reveals how complicated it really is. Although Social Deviance utilizes a textbook-style approach in its coverage of deviant behavior, this comprehensive, straightforward, and student-friendly book maintains student interest because of the author's use

Although the analysis indicates a network of policy and practice issues warranting further consideration, the diverse nature of Canadian science education makes simple identification of causal relationships elusive. Canada has a reputation for strong science achievement. However, there is currently limited literature on science education in Canada at the general level or in specific areas such as Canadian science curriculum or science teacher education. This

This book offers a critical account of the historical evolution of mountaineering and its relation to the phenomenon of tourism, providing an overview of recent developments linked to the diversification, commodification and commercialisation of mountaineering activity. Mountaineering, broadly defined as hiking, trekking and climbing, is now a mass phenomenon, with continually growing numbers of trekkers, climbers and religious tourists hiking in mountain regions. Increasing visitor numbers require the current policies to be updated.

The Urban Uncanny explores through ten engaging essays the slippage or mismatch between our expectations of the city—as the organised and familiar environments in which citizens live, work, and go about their lives—and the often surprising and unsettling experiences it evokes. The city is uncanny when it reveals itself in new and unexpected light; when its streets, buildings, and people suddenly appear strange, out of place, and not quite right. Bringing together a variety of approaches, including psychoanalysis, historical and contemporary case study of cities, urban geography, film and literary critique, the essays explore some of the unsettling mismatches between city and citizen in order to make sense of each, and to gauge the wellbeing of city life more generally. Essays examine a number of cities, including
