Before his epiphany, Ray Lopez was every car buyer's “worst nightmare” ... but not before he had them believing he was their new best friend! A car salesman for 30 years, Lopez was trained to analyze potential clients for quick psychological profiles so he could tailor his approach to push all their hot buttons and convince—or coerce—they into purchasing the car HE wanted them to buy at the price HE said they could afford. Lopez doesn't take all the credit, however. The entire dealership was in on the game, from the service managers to the showroom staff to the car porters, taking cues from him to deliver their pitches, too. Even before customers stepped onto the lot, they were manipulated by the car dealership! But, the cold slap of reality left its mark on his face when Lopez cut a fair

deal on a Mustang GT convertible for his brother. "We're here to make money on everybody! You steal every last dollar you can get!" screamed his manager as Lopez's brother drove off the lot. "If you can't f--- your own family and brag about it afterwards, you don't belong here!" Thanks to that wake-up call, Lopez quit to happily finish out his career at one of the few honest, reputable U.S. dealerships. Although he can't undo any of the deals he drove down consumers' throats before his revelation, Lopez made it his goal to expose the uncouth practices of car dealers by educating the people on every dirty detail, questionable sales practice and untold secret of how dealerships con the public. Before buying another car, let Ray Lopez, a former "swift talking, blood-sucking salesperson" and author of *Inside the Minds of Car Dealers* give you a look under the hood of dealerships to show you every trick that will be used against you! Learn every single psychological ploy and manipulative scheme typical auto dealers employ to squeeze every last dime out of your pocket—all while you're being sold a car you may not even want! Discover in detail the 12 crucial dos and don'ts to car buying from a seasoned insider. This comprehensive, tell-all car buying guide holds nothing back!

Whether we're buying a pair of jeans, ordering a cup of coffee, selecting a long-distance carrier, applying to college, choosing a doctor, or setting up a 401(k), everyday decisions—both big and small—have become increasingly complex due to the overwhelming abundance of choice with which we are presented. As Americans, we assume that more choice means better options and greater satisfaction. But beware of excessive choice: choice overload can make you question the decisions you make before you even make them, it can set you up for unrealistically high expectations, and it can make you blame yourself for any and all failures. In the long run, this can lead to decision-making paralysis, anxiety, and perpetual stress. And, in a culture that tells us that there is no excuse for falling short of perfection when your options are limitless, too much choice can lead to clinical depression. In *The Paradox of Choice*, Barry Schwartz explains at what point choice—the hallmark of individual freedom and self-determination that we so cherish—becomes detrimental to our psychological and emotional well-being. In accessible, engaging, and anecdotal prose, Schwartz shows how the dramatic explosion in choice—from the mundane to the profound challenges of balancing career, family, and individual needs—has paradoxically become a problem instead of a solution. Schwartz also shows how our obsession with choice encourages us to seek that which makes us feel worse. By synthesizing current research in the social sciences, Schwartz makes the counter intuitive case that eliminating choices can greatly reduce the stress, anxiety, and busyness of our lives. He offers eleven practical steps on how to limit choices to a manageable number, have the discipline to focus on those that are important and ignore the rest, and ultimately derive greater satisfaction from the choices you have to make.

Chad Albert is an automotive industry insider with over twenty five years of experience in helping people "Buy their vehicle right" so they could "Drive Away Happy." Learn how to avoid common and expensive buying mistakes by replacing them with successful proven strategies that work. Albert walks you through the buying process from start to finish; he helps you negotiate at the finance office, get the facts on leases, learn the truth about subprime financing and really understand the details of your buying contract. You'll save money; know how to work with the dealer, and get off the vehicle buyer's emotional roller coaster. *Buy a Vehicle, Buy it Right*, is an informative and easy read that puts the control back in your hands where it belongs so that you get the vehicle you deserve.

The steady rise of Clint Eastwood's career parallels a pressing desire in American society over the past five decades for a figure and story of purpose, meaning, and redemption. Eastwood has not only told and filmed that story, he has come to embody it for many in his public image and film persona. Eastwood responds to a national yearning for a vision of individual action and initiative, personal responsibility, and potential for renewal. An iconic director and star for his westerns, urban thrillers, and adventure stories, Eastwood has taken film art to new horizons of meaning in a series of masterpieces that engage the ethical and moral consciousness of our times, including *Unforgiven*, *Million Dollar Baby*, and *Mystic River*. He revolutionized the war film with the unprecedented achievement of filming the opposing sides of the same historic battle in *Flags of Our Fathers* and *Letters from Iwo Jima*, using this saga to present a sharply critical representation of the new America that emerged out of the war, a society of images and spectacles. This timely examination of Clint Eastwood's oeuvre against the backdrop of contemporary America will be fascinating reading for students of film and popular culture, as well as readers with interests in Eastwood's work, and American film and culture.

This document, assembled from the lived experience of Ferrari 458 owners, serves as a comprehensive guide for prospective 458 purchasers. The checklist is inclusive of critical and minor flaws observed among 458s and will assist you in making an informed decision. I want to empower your selection process with knowledge gleaned from my ownership, help you understand price differentials within the marketplace, and raise awareness of maintenance concerns associated with 458s. Although I feel this guide is exhaustive, some items may be missing or difficult to check prior to purchase. This is a living document that will be updated periodically to reflect my experience of ownership and DIY maintenance. All future updates are included with the purchase of this document. It's tempting to save money by using this guide in lieu of a Pre Purchase Inspection (PPI) provided by a professional mechanic. For most older Ferrari purchases, I believe a PPI is critical but on the more modern Ferraris, I've found them to be less helpful and sometimes a waste of money. Please do your own due diligence and determine what the PPI will include before you agree to have the service done. If you are unsure about whether or not the PPI is worth the money, you can contact me to set up consulting time and I can review the PPI. Finally, do not discount your emotional experience throughout your considerations. It can feel exhilarating to purchase a 458, but that state of mind can interrupt better judgement. This guide can help you maintain objectivity while evaluating a car you have cultivated bias for. Please bear in mind that Ferraris are still just cars, machines that can and will wear and break. However, like any ordinary car, a Ferrari can be thoughtfully maintained to provide many years and miles of use. You should scale your expectations based on your desire for perfection. If you are in search of an immaculate 458, then you'll want to ensure most items on this list are in excellent repair. If you are looking for a driver's car, then your threshold of tolerance for minor functional or aesthetic flaws may be higher. Bear in mind, lower miles can mean more problems. Cars that have sat unmoved for long periods of time tend to have more issues than those that have been driven and maintained properly. This guide will help expose these issues and let you decide if they are deal-breakers, negotiation points, or simply items to resolve (or even just accept as is) after purchase. People ask me all the time, "Should I buy this Ferrari?" That is a question I cannot answer for you. I can only help inform your decision with knowledge gleaned from my own experience. The decision is ultimately yours to make, but in most cases, I don't think you'll regret it.

A breed unlike any seen before or since, the powerful, stylish American muscle car defined an era in automotive history.
