The Scientific Advisory Committee on Fisheries (SAC) of the General Fisheries Commission for the Mediterranean (GFCM) held its twentieth session in Tangiers, Morocco, from 26 to 29 June 2018. The session was attended by delegates from 14 Mediterranean contracting parties, seven observers, representatives of the FAO regional projects, the GFCM Secretariat and invited experts. The Committee reviewed the work carried out during the 2017–2018 intersession, including within its four subregional subsidiary bodies (Subregional Committee for the Adriatic Sea, Subregional Committee for the Central Mediterranean, Subregional Committee for the Eastern Mediterranean and Subregional Committee for the Western Mediterranean) which all met during the intersession. In relation to the mid-term strategy (2017–2020) towards the sustainability of Mediterranean and Black Sea fisheries, the Committee welcomed the progress in multiple priority activities as well as cooperation with partners. Issues in relation to fishery data quality, data collection needs and methodologies, estimation and quantification of illegal, unreported and unregulated fishing and formulation of advice on the status of fisheries were discussed. Recalling the need to improve knowledge on small-scale fisheries in the Mediterranean and the Black Sea, the work underway to test a characterization matrix as well as the forthcoming Regional Plan of Action for Small-Scale Fisheries in the Mediterranean and Black Sea were tackled. Furthermore, the Committee formulated advice on the following aspects: i) overall status of Mediterranean stocks; ii) management of European eel; iii) management of deep-sea fisheries and identification of VMEs and iv) roadmap towards a network of essential fish habitats. In line with the subregional approach and based on the conclusions of the four subregional committees, the SAC also provided specific advice for each subregion. In particular, attention was paid to: i) blackspot seabream in the western Mediterranean; ii) demersal fisheries in the Strait of Sicily; iii) small pelagic fisheries in the Adriatic Sea; iv) demersal fisheries in the Adriatic Sea, including the monitoring of the Jabukua/omni Pft fisheries restricted area; and v) deep-water red shrimps in the central and eastern Mediterranean. In addition, the Committee also endorsed an updated table of priority species by subregion. Finally, the Committee agreed upon its work plan for 2018–2020 and elected its new Bureau.

This report marks the third edition in this series, following assessments in 2012 and 2016. It provides a comprehensive overview of the state of play in the implementation of the ten SBA principles, and monitors progress made since 2016. It also identifies remaining challenges affecting SMEs in the Eastern Partnership (EaP) countries and provides recommendations to address them based on EU and international good practice examples.

Based on the second Women in Shape (WiSH) workshop held in Sirince, Turkey in June 2016, these proceedings offer the latest research on shape modeling and analysis and their applications. The 10 peer-reviewed articles in this volume cover a broad range of topics, including shape representation, shape complexity, and characterization in solving image-processing problems. While the first six chapters establish understanding in the theoretical topics, the remaining chapters discuss important applications such as image segmentation, registration, image deblurring, and shape patterns in digital fabrication. The authors in this volume are members of the WiSH network and their colleagues, and most were involved in the research groups formed at the workshop. This volume sheds light on a variety of shape analysis methods and their applications, and researchers and graduate students will find it to be an invaluable resource for further research in the area.

Background:Copenhagen EMS changed to electronic records in ambulances in May 2015. Henceforth all registrations of Out-of-Hospital Cardiac Arrest (OHCA) are documented as an integrated part of the electronic medical record. Previously OHCA was documented by EMS-personnel filling in and submitting a paper-record to the cardiac registry. We investigated consequences in respect to incidence and completeness of registrations before and after the transition.Methods:A total of 8,010 records regarding OHCA were retrospectively reviewed. The paper record group consisted of 3.481 records for all OHCA collected nationally 1 January 2016 to 31 December 2016. The historic cohort has been reported. (1) In the electronic record group for 1 January 2016 to 31 December 2018 a total of 4,529 records were eligible for review. All electronic records were validated. Endpoints were incidence and completeness.Results:The incidence of reported OHCA was significantly lower in paper records compared to electronic records (61 vs 85 per 100,000 inhabitants). A declining incidence was observed in the years prior to 2016, explained by receding attention to the paper records as the electronic records being implemented, though the protocol for reporting OHCA on paper did not change.Characteristics of OHCA was similar in the two samples. A significantly higher completeness of datapoints in the electronic records was observed (5.7% vs 10.6%). Validation of data from the medical records revealed cases of OHCA not previously reported. These were patients successfully resuscitated prior to arrival of EMS-personnel needing no further treatment or cases with irreversible signs of death, where EMS-personnel attempted resuscitation.Conclusion:Using electronic records significantly increased recorded incidence of OHCA. A large group of previously not registered OHCA were identified.1. Hansen S, Ringgreen K, Wissenberg M, Mortensen R, Folke F, Lippert F, et al. Book + Content Update Program The long-awaited Microsoft Office 2016 for Mac delivers the Mac's most advanced versions of Word, Excel, PowerPoint, and Outlook, plus Microsoft's powerful new OneDrive cloud storage capabilities. Get the most out of Microsoft Office 2016 for Mac -- the fast, easy way! Friendly, quick, and 100% practical, My Office for Mac 2016 is the must-have companion for every Microsoft Office 2016 for Mac user. Written by Paul McFedries, a leading expert in explaining new Microsoft and Apple technologies, this friendly, intuitive guide will walk you through every task you'll want to perform. Every task is presented step-by-step, using carefully annotated, full-color screenshots, all numbered so you'll never get lost or confused. Everything's clearly organized in modular, self-contained chapters that'll help you get great results with Office 2016 in no time. From formatting to data visualization, calendars and email to collaboration with Windows users, McFedries covers all you'll need to know. Throughout, he offers helpful tips, lists, workarounds for Office's limitations, and quick solutions to the problems you're most likely to encounter. If you want instant answers for maximum productivity, here they are! • Master core skills you can use in every Office 2016 for Mac program • Quickly create visual documents with advanced formatting and graphics • Build complex documents with columns, footnotes, headers, and tables • Enter and organize Excel data more accurately and efficiently • Quickly move, copy, delete, and format large amounts of data with Excel ranges • Use charts to make data more visual, intuitively understandable, and actionable • Add pizzazz to PowerPoint slide shows with animations and transitions • Use Outlook 2016 for Mac to efficiently manage your email, contacts, and calendar • Bring all your ideas and notes together in a OneNote notebook • Enhance your OneNote notebooks with links, files, and more • Customize your Office applications to work the way you do • Store and share your Office files in the cloud with Microsoft OneDrive • Collaborate with others, including people using other versions of Office In addition, this book is part of Que's exciting new Content Update Program. As Microsoft updates features of Office 2016 for Mac, sections of this book will be updated or new sections will be added to match the updates to the software. The updates will be delivered to you via a FREE Web Edition of this book, which can be accessed with any Internet connection. To learn more, visit www.quepublishing.com/CUP. How to access the free web edition: Follow the instructions within the book to learn how to register your book to access the FREE Web Edition.

Grogg College Keyboarding & Document Processing (GDP): Lessons 1-60 text
Impact evaluation study for Egypt's Takaful and Karama cash transfer program: Part 1: Quantitative report
The Complete Guide to Postgraduate Funding Worldwide
Assessing the Implementation of the Small Business Act for Europe
Perspectives and Issues

This report of the evaluation study provides a greater focus on measuring the impact of the larger Takaful program and also attempts to measure the impact of the much smaller Karama program. In addition, IFPRI will conduct a qualitative assessment of the Takaful and Karama program focused on learning about the experience with the program among the poorest beneficiary households. This qualitative assessment will also draw lessons from the quantitative survey to provide another report on the experience of very poor households. The remainder of this report is organized as follows Chapter 2 provides an overview of the Takaful and Karama Program. Chapter 3 summarizes the impact evaluation design. Chapter 4 describes the evaluation survey and sample. Chapter 5 provides context for the program by using the survey data to summarize the characteristics of beneficiary and non-beneficiary households and describe beneficiaries' experience with program implementation. Chapter 6 presents the impact estimates for Takaful and Chapter 7 the estimates for Karama. Chapter 8 uses data from a separate representative sample of households collected during the survey to assess the targeting performance of the program. Chapter 9 concludes and discusses implications for social policy in Egypt.

This book examines the issue of irregular transit migration to the EU by presenting the case of the Afghans. Focusing on the Afghans that arrive in and seek to move through Greece, it highlights the unique problems facing this distinctive migratory movement. Recognising that the migratory journey is a continuous interplay of policies and individuals, how each responds and adapts, the book itself moves between countries, policies, stories of migrants and the author's own experiences in the field. Drawing on extensive empirical research conducted in both Greece and Turkey, it explores why such transits occur and the decision-making process of the migrants in transit. Through the example of Afghan migration this book contributes to broader debates concerning transit migration, hospitality and asylum (how it is perceived, access to it). This book presents a timely study of the rise of 'fortress Europe' and the current discourse around refugees and migrants, amidst the largest refugee flow since WWII in Europe. This book's interdisciplinary approach will make it a valuable resource for policy makers as well as Sociology and Politics scholars.

This volume provides a comprehensive account of the linkages between environment and sustainable development in society from an interdisciplinary perspective. With its case studies from across the world, including countries such as India, Australia, South Africa, Sri Lanka, the United States, Croatia, Italy, Brazil, Japan, and Kenya, it explores critical environmental issues concerning energy justice, queer ecology, mountain cultures, incarceration, energy strategies, mining tourism, pollution control mechanisms, social impacts of oil and gas production, contract farming, gender mainstreaming, climate change, and droughts and adaptation strategies along with literacy, leisure, well-being, development, sexuality, sustainability and environmental education. The book examines several dimensions within global environment of the adverse impact of developmental activities, discusses sustainable development initiatives undertaken in contemporary times, and underscores the importance of a just, people-centric policy framework in promoting sustainable development. Lucid and topical, this book will be useful to scholars and researchers of environmental studies, development studies, sustainable development, political studies, sociology, and political economy. It will also interest policymakers, development practitioners, NGOs and think tanks working on environment and sustainable development, climate issues and SDGs.

The Laws of Transparency in Action
This is the full Mueller Report, as released on April 18, 2019, by the U.S. Department of Justice. A reprint of the report exactly as it was issued by the government, it is without analysis or commentary from any other source and with nothing subtracted except for the material redacted by the Department of Justice. The mission of the Mueller investigation was to examine Russian interference in the 2016 Presidential election, consisting of possible links, or "collusion," between the Donald Trump campaign and the Russian government of Vladimir Putin as well as any allegations of obstruction of justice in this regard. It was also intended to detect and prosecute, where warranted, any other crimes that surfaced during the course of the investigation. The report consists of a detailed summary of the various investigations and inquiries that the Special Counsel and colleagues carried out in these areas. The investigation was initiated in the aftermath of the firing of FBI Director James Comey by Donald Trump on May 9, 2017. The FBI, under Director Comey, had already been investigating links between Russia and the Trump campaign. Mueller submitted his report to Attorney General William Barr on March 22, 2019, and the Department of Justice released the redacted report one month later.

Grogg College Keyboarding and Document Processing (GDP), 11e by Ober, Johnson, and Zimmerly: Your complete learning/teaching system. Your guide to success. GDP/11 is an integrated keyboarding system designed to process and score documents created in Microsoft Word. Together, the book and software systematically lead students through each lesson to provide an easy path to success. As a solid product for over 50 years, this version of the GDP software has grown into an online functionality. The same program is now web-based with seamless updates to provide greater accessibility for use at home, in class, and in labs - perfect for distance learning! Strong enhancements to the book while maintaining key elements including integrated language arts (starting at lesson 21) support the cohesive program's strong content. Skillbuilding is reinforced with MAP+ (Mistroke Analysis and Prescription). MAP+ is an individualized, diagnostic tool that is built into the software to help identify student's strengths and weaknesses while providing prescriptive drills to help them practice where they need it most. Also, MAP+ now has new, unlimited drill lines that begin at Lesson 1. Additionally, GDP/11 automatically scores for keyboarding errors and now formatting errors too! As a result, instructors will appreciate the customization of course management tools in GDP/11, including the new GPS (Grade Posting System) which allows complete flexibility in setting up grades. GDP/11 your complete learning/teaching system. Your guide to success.

Foundations in Accountancy (FIA) awards are entry-level, core-skill focused qualifications from ACCA. They provide flexible options for students and employers, and as an ACCA Approved Content Provider, BPP Learning Media's suite of study tools will provide you with all the accurate and up-to-date material you need for exam success.

This book will help make it easier for the readers to know how to take their idea or ideas and turn them into money. This is an easy one-two-three-go-to book for entrepreneurs who want an easy starting point and an outcome that will end in prosperity. The patent application is the very first thing that has to be done when applying for a United States patent. The application has to be filed through a patent attorney for legalization of your idea. Register DBA (Doing Business As/name of business) Cost a small amount, register at your court house Tax ID number; Tax access office Create money: Go to www.accountreceivable.com. Start the application and product to deliver to customers. Once the product has been delivered, the invoice is signed and funding is approved. Most receivable companys fund is 80 percent of the total. One to two percent interest fee paid to the funding company. And the other 18 percent will be deposited into your bank account after the retailer has paid back the full receivable amount. Example: \$100k (products value) Products delivered on 11-22-2016 Within 2448 hours, \$80k is deposited into your business account. Customers buy the product for a higher amount. Half goes to the receivable funding company. The other half, profit stays with the wholesale buyer. Thirty-day term to pay back in full (12-22-2016). When starting a new product development, you need to know all of the good, bad, and the ugly. A. Good things can happen if you follow this book and put action along with lots of courage. It is very important to hire a patent attorney to help keep your ideas confidential. Always have a confidential form handy when revealing your idea. Have them sign and date the form for secret keeping. Never reveal you idea to anyone, unless theyve signed and dated the confidential form. It is very important. B. The bad news is if you dont get the confidential form signed, you could lose all rights to your idea. Its about first come first served. The ugly is having big backlash that requires fighting in court, if this idea was an original idea that you create. Some have created a poor mans patent. Thats when you print all the information about your product or service and mail it back to yourself through the USPS.

This comprehensive, multidisciplinary guide provides an up-to-date presentation of fertility preservation techniques with male cancer patients and other challenging conditions. Divided into four thematic sections, part one provides an overview of the pathophysiologic processes interrelating cancer and its treatment with infertility and discusses different methods of sperm preservation and fertility outcomes in cancer patients. Part two then explores male fertility preservation in various non-cancerous conditions, such as immunosuppressed, hypogonadal and transgender patients. The fundamental principles of cryobiology and sperm optimization are covered in part three, which also offers essential building blocks for scientists to develop a sperm banking service and implement high standards of practice. The final section describes the current practices of male fertility preservation along with its psychological impact on patients, and extends beyond to future innovative methods—tissue preservation, xenografting and artificial gametes—being researched and implemented in this field. Fertility preservation among cancer patients and survivors is an evolving practice, which involves focused research and timely collaboration of professionals from related fields. The Complete Guide to Male Fertility Preservation is unique and original in its design and will appeal to a larger audience of andrologists, reproductive endocrinologists, urologists, embryologists, and all other clinicians practicing reproductive medicine and oncology.

The 1st International Conference on Tourism, Management and Technology is motivated by improving the quality of research and development relating to tourism, management and technology fields. Thus, this conference has aims: (1) to bring together the scientists, researchers and practitioners, and lecturers. (2) to share and to discuss the practical and practical knowledge about innovation in tourism, management and technology fields. The conference took place in Universiti Kuala Lumpur, Malaysia, on August, 17th 2019. There are 34 papers that are participated from various topics. The conference involves tourism, management and technology fields, such as; Media and Technology in Tourism, Innovation in Tourism, The Theoretical Perspective on Tourism, Sustainable Tourism, Gender and Diversity Issue in Tourism, Technology and Management on Tourism, Law in Tourism, Health Tourism, Tourism Policy and Planning, Tourism and Environment, Finance in Tourism. Specifically, this conference can be used as a scientific forum for accommodating discussion among young researchers that originated from Indonesia in the field of Tourism, Management and Technology. Therefore, the invited speakers in this conference are the researchers that are well-known and reputable in the world. We would like to thank the organizing committee and the members of reviewers for their kind assistance in reviewing the papers. We would also extend our best gratitude to keynote speakers for their invaluable contribution and worthwhile ideas shared in the conference. Furthermore, ICTMT is hoped to be able to be used as academic media to exchange ideas and as a result it will succeed in deciding the recommendation related to the tourism, management and technology phenomenon.

New Perspectives on Microsoft Access 2013, Comprehensive Enhanced Edition
Between 1973 and 2016, the ways to manipulate DNA to endow new characteristics in an organism (that is, biotechnology) have advanced, enabling the development of products that were not previously possible. What will the likely future products of biotechnology be over the next 5 à 10 years? What scientific capabilities, tools, and/or expertise may be needed by the regulatory agencies to ensure they make efficient and sound evaluations of the likely future products of biotechnology? Preparing for Future Products of Biotechnology analyzes the future landscape of biotechnology products and seeks to inform forthcoming policy making. This report identifies potential new risks and frameworks for risk assessment and areas in which the risks or lack of risks relating to the products of biotechnology are well understood. The Complete Guide to Human Resources and the Law will help you navigate complex and potentially costly Human Resources issues. You'll know what to do (and what not to do) to avoid costly mistakes or oversights, confront HR problems - legally and effectively - and understand the rules. The Complete Guide to Human Resources and the Law offers fast, dependable, plain English legal guidance for HR-related situations from ADA accommodation, diversity training, and privacy issues to hiring and termination, employee benefit plans, compensation, and recordkeeping. It brings you the most up-to-date information as well as practical tips and checklists in a well-organized, easy-to-use resource.
The Program and Budget is a defining document for the Organization. It establishes the results that Member States wish to see achieved by the Organization over the coming biennium and authorizes the programs and resources necessary for the realization for those results.

Turn an Idea into a U.S. Patent/Create Money
Long-distance engagement by migrants in the politics of their homelands is not a new phenomenon, but, as this book argues, politicians are increasingly looking beyond their national boundaries for electoral and political support. While migrants rarely cast decisive votes in homeland elections, they are not marginal to homeland politics. Based on in-depth research on state-migrant relations in four high-migration countries, Courting Migrants looks at howextraterritorial outreach by homeland states and parties alters the boundaries of political membership and intersects with migrant agency to transform politics at home.

This book provides with its readers an objective overview of the latest development of China's special economic zones in 2019. It aims to inform researchers what achievements have been attained in one year and tells stories to general readers about how to address economic concerns through public policies. Its case studies illustrate economic achievements attained in public health, social security, and cultural industries. Its in-depth analyses of green, environmental-friendly, and resource-efficient policies can satisfy the curiosity about strategies applied by China meeting its economic challenges.

The most comprehensive guide on postgraduate grants and professional funding globally. For thirty-four years it has been the leading source for up-to-date information on the availability of, and eligibility for, postgraduate and professional awards. How States Make Diasporas and Diasporas Make States
Criminology: Theories, Patterns, and Typologies
Complete Guide to Human Resources and the Law, 2021 Edition

Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of sports law in Croatia deals with the regulation of sports activity by both public authorities and private sports organizations. The growing internationalization of sports inevitably increases the weight of global regulation, yet each country maintains its own distinct regime of sports law and its own national and local sports organizations. Sports law at a national or organizational level thus gains a growing relevance in comparative law. The book describes and discusses both state-created rules and autonomous self-regulation regarding the variety of economic, social, commercial, cultural, and political aspects of sports activities. Self-regulation manifests itself in the form of by-laws, and encompasses organizational provisions, disciplinary rules, and rules of play. However, the trend towards more professionalism in sports and the growing economic, social and cultural relevance of sports have prompted an increasing reliance on legal rules adopted by public authorities. This form of regulation appears in a variety of legal areas, including criminal law, labour law, commercial law, tax law, competition law, and tort law, and may vary following a particular type or sector of sport. It is in this dual and overlapping context that such much-publicized aspects as doping, sponsoring and media, and responsibility for injuries are legally measured. This monograph fills a gap in the legal literature by giving academics, practitioners, sports organizations, and policymakers access to sports law at this specific level. Lawyers representing parties with interests in Croatia will welcome this very useful guide, and

The book describes the recent trends in space policy and the space sector overall. While maintaining a global scope with a European perspective, it links space policy with other policy areas, highlights major events, and provides insights on the latest data. The Yearbook includes the proceedings of ESPi's 12th Autumn Conference, which discussed the growing importance of Security in Outer Space and the stakes for civilian space programmes in the public and private sectors. Bringing together satellite operators, SMEs, European and American institutions, and think tanks, the Autumn Conference served as platform for fresh insights on security in outer space and the potential of transatlantic relations to address its challenges. The Yearbook also includes executive summaries of ESPi's work in 2017 as well as ESPi's 2017 Executive Briefs, covering topics such as suborbital spaceflight, super heavy lift launch vehicles, collaboration with China, and the delimitation of outer space. All in all, the book gives a detailed review of space policy developments worldwide, contextualised with information about national-level space industries and activity and broader political and economic conditions. The readership is expected to include the staff of space agencies, the space industry, and the space law and policy research community.

This book examines the issue of free access to information as part of the openness and transparency principles. The free access to public information has become one of the most hotly contested aspects of contemporary government and public administration. Many countries in Europe have well-established Freedom of Information laws (FOIAs), while others have adopted them more recently. The problems that occur in the implementation of FOIAs are different due to the legal and institutional context; nevertheless, patterns of best practices and malfunctioning are comparable. The book analyses in comparative and empirical perspective the respective main challenges. Whilst the existing literature focusses on the legal provisions, this book offers practical insights through 13 national profiles and the EU level, on how effective the legal provisions of FOIAs really prove to be.
