I wrote this free ebook to warn people that our current way of living beyond our means is not sustainable. Our governments and citizens have gone to great lengths to create debt levels which cannot continue to rise forever. During the first part of the book I wrote about how we are in a massive financial bubble which spreads across all asset classes, and then in the next part of the book I outlined how each of us can greatly dial down our expenses, pay down our debts, and prepare for the financial storm which awaits. This debt monster has now become like a great Ponzi scheme, and it threatens the very existence of our society and culture. We have debts (e.g. entitlements) which are mandated by law to grow at double digits while our GDP cannot grow more than the low single digits. This is a catastrophic scenario. We cannot grow fast enough to service the ballooning debts. Each of us must have courage and self control to put our financial houses in order before the next enormous financial crisis comes.

How Faith in Yourself Shifts Everything!

Great leadership begins with great understanding. No one knows that better than basketball legend Byron Scott and lifelong business executive Charlie Norris who, respectively, won NBA championships and resurrected multimillion-dollar corporations by being team players no matter their position. Whether it's on the basketball court, in the boardroom, or in everyday life, getting to the heads and hearts of people is paramount to getting the most out of them. In SLAM-DUNK SUCCESS, Scott and Norris share their parallel formulas for victory and prove that, with the right tools, winning can happen anywhere. As a player Scott won three championships with the Los Angeles Lakers, and as coach he twice took the New Jersey Nets to the NBA Finals and won Coach of the Year honors with the New Orleans Hornets. With every team his role changed, but his winning mentality never faltered. As CEO of McKesson Water, Charlie Norris turned a \$200 million-dollar company into a company that sold ten years later for \$1.1 billion dollars and, as chairman of the board of Freshpet, he helped lead the start-up from early stage testing to become a publicly traded company with a market value of over \$350 million. In each job, he led with the same amount of conviction and care. Their book-which grew from their unlikely friendship and realization that two men from completely different backgrounds could have the same leadership ideals-breaks down their keys to motivating others, negotiating deals, and creating prosperity from scratch. Their blueprint includes lessons on listening, turning failure into learning opportunities, and delegating authority with extreme precision. Leadership is a full-time job and Byron Scott and Charlie Norris's story is a guidebook for leaders in all fields and in any position looking to better both their careers and lives. Champions are formed when people make those around them better and this book shows how you can be a winner every day.

Published with Kappa Delta Pi, Creativity and Education in China takes readers on a journey through research-supported ideas and practical examples of creative and innovative schooling within a changing regime. Analyzing the consequences of exam-centric accountability on the creative and critical capacities of Chinese students, author Carol A. Mullen's dynamic portrait of a country serves as both a cautionary tale and an inspiring example to emulate. Examining creative endeavors and breakthroughs within a competitive, globalized educational landscape, the chapters are organized around environmental and global issues impacting education, expressions of creativity within pre-K-12

schools in China, and creative innovation in higher education learning environments. Presenting captivating cases from the field, the book offers novel approaches to fostering creativity as a natural, integrated part of high-stakes education systems in Eastern and Western cultures alike.
