

2017 Central York School District 2018

NATIONAL BESTSELLER • From the acclaimed Nobel Prize winner—a powerful examination of our obsession with beauty and conformity that asks questions about race, class, and gender with characteristic subtly and grace. In Morrison’s acclaimed first novel, Pecola Breedlove—an 11-year-old Black girl in an America whose love for its blond, blue-eyed children can devastate all others—prays for her eyes to turn blue: so that she will be beautiful, so that people will look at her, so that her world will be different. This is the story of the nightmare at the heart of her yearning, and the tragedy of its fulfillment. Here, Morrison’s writing is “so precise, so faithful to speech and so charged with pain and wonder that the novel becomes poetry” (The New York Times).

A New York Times Top Ten Book of the Year and National Book Award finalist, Pachinko is an "extraordinary epic" of four generations of a poor Korean immigrant family as they fight to control their destiny in 20th-century Japan (San Francisco Chronicle). NEW YORK TIMES NOTABLE BOOK OF 2017 * A USA TODAY TOP TEN OF 2017 * JULY PICK FOR THE PBS NEWSHOUR-NEW YORK TIMES BOOK CLUB NOW READ THIS * FINALIST FOR THE 2018DAYTON LITERARY PEACE PRIZE* WINNER OF THE MEDICI BOOK CLUB PRIZE Roxane Gay's Favorite Book of 2017, Washington Post NEW YORK TIMES BESTSELLER * #1 BOSTON GLOBE BESTSELLER * USA TODAY BESTSELLER * WALL STREET JOURNAL BESTSELLER * WASHINGTON POST BESTSELLER "There could only be a few winners, and a lot of losers. And yet we played on, because we had hope that we might be the lucky ones." In the early 1900s, teenaged Sunja, the adored daughter of a crippled fisherman, falls for a wealthy stranger at the seashore near her home in Korea. He promises her the world, but when she discovers she is pregnant--and that her lover is married--she refuses to be bought. Instead, she accepts an offer of marriage from a gentle, sickly minister passing through on his way to Japan. But her decision to abandon her home, and to reject her son's powerful father, sets off a dramatic saga that will echo down through the generations. Richly told and profoundly moving, Pachinko is a story of love, sacrifice, ambition, and loyalty. From bustling street markets to the halls of Japan's finest universities to the pachinko parlors of the criminal underworld, Lee's complex and passionate characters--strong, stubborn women, devoted sisters and sons, fathers shaken by moral crisis--survive and thrive against the indifferent arc of history. *Includes reading group guide*

New York Times Bestseller • Notable Book of the Year • Editors' Choice Selection One of Bill Gates’ “Amazing Books” of the Year One of Publishers Weekly’s 10 Best Books of the Year Longlisted for the National Book Award for Nonfiction An NPR Best Book of the Year Winner of the Hillman Prize for Nonfiction Gold Winner • California Book Award (Nonfiction) Finalist • Los Angeles Times Book Prize (History) Finalist • Brooklyn Public Library Literary Prize This “powerful and disturbing history” exposes how American governments deliberately imposed racial segregation on metropolitan areas nationwide (New York Times Book Review). Widely heralded as a “masterful” (Washington Post) and “essential” (Slate) history of the modern American metropolis, Richard Rothstein’s The Color of Law offers “the most forceful argument ever published on how federal, state, and local governments gave rise to and reinforced neighborhood segregation” (William Julius Wilson). Exploding the myth of de facto segregation arising from private prejudice or the unintended consequences of economic forces, Rothstein describes how the American government systematically imposed residential segregation: with undisguised racial zoning; public housing that purposefully segregated previously mixed communities; subsidies for builders to create whites-only suburbs; tax exemptions for institutions that enforced segregation; and support for violent resistance to African Americans in white neighborhoods. A groundbreaking, “virtually indispensable” study that has already transformed our understanding of twentieth-century urban history (Chicago Daily Observer), The Color of Law forces us to face the obligation to remedy our unconstitutional past.

Time-Saving Routines and Tested Strategies for Success

We can all be heroes. That’s the inspiring message of this New York Times Bestselling picture book biography series from historian and author Brad Meltzer. Even as a child, Martin Luther King, Jr. was shocked by the terrible and unfair way African-American people were treated. When he grew up, he decided to do something about it--peacefully, with powerful words. He helped gather people together for nonviolent protests and marches, and he always spoke up about loving other human beings and doing what’s right. He spoke about the dream of a kinder future, and bravely led the way toward racial equality in America. This lively, New York Times Bestselling biography series inspires kids to dream big, one great role model at a time. You’ll want to collect each book.

LOS ANGELES TIMES BESTSELLER The problem is not overpolicing, it is policing itself. Why we need to defund the police and how we get there. Recent weeks have seen an explosion of protest against police brutality and repression. Among activists, journalists and politicians, the conversation about how to respond and improve policing has focused on accountability, diversity, training, and community relations. Unfortunately, these reforms will not produce results, either alone or in combination. The core of the problem must be addressed: the nature of modern policing itself. This book attempts to spark public discussion by revealing the tainted origins of modern policing as a tool of social control. It shows how the expansion of police authority is inconsistent with community empowerment, social justice— even public safety. Drawing on groundbreaking research from across the world, and covering virtually every area in the increasingly broad range of police work, Alex Vitale demonstrates how law enforcement has come to exacerbate the very problems it is supposed to solve. In contrast, there are places where the robust implementation of policing alternatives—such as legalization, restorative justice, and harm reduction—has led to a decrease in crime, spending, and injustice. The best solution to bad policing may be an end to policing.

Ever notice how some people around you seem to “do it all”? How their professional and personal lives just flow like clockwork? These people have mastered the juggling act of appointments, deadlines, and demands on their time ... and you can, too! In Clockwork: Time-Saving Routines and Tested Strategies for Success, author Michael Snell shares the secrets behind the routines that give you control of your days, weeks, months and year. You’ll learn the benefit of implementing changes to your routines and practices that will ultimately give you more time to lead effectively at work and to be more effective in all other areas of your life. With quick tips for getting started and tangible guidance for today’s leaders, this book will help you make your professional and personal worlds flow like clockwork in no time.

At the Schoolhouse Gate

Handbook of Giftedness in Children

In one comprehensive resource, this superb handbook covers everything you need to know about the subject. It brings together leading experts from the fields of psychology and education, combining theory and applied empirical research on such crucial topics as conceptualization, types of intelligence, developmental considerations, and ethical and legal concerns. Particular attention is given to social and family contexts, and evidence-based strategies and interventions offer solid guidelines on assessment, curriculum design, and encouraging and nurturing talent - from preschool through adolescence.

The objective of this edited volume is to shed light upon K-12 perspectives of various school stakeholders in the current unique context of increasing political polarization and heightened teacher and student activism. It is grounded in academic freedom case law and the majority of opinion of the Supreme Court in the Tinker v. Des Moines Independent Community School District (1969) that held that certain forms of expression are protected by the First Amendment. Justice Fortas wrote in the majority opinion that “it can hardly be argued that either students or teachers shed their constitutional rights to freedom of speech or expression at the schoolhouse gate.” This volume is timely and instructive, as protections afforded by the First Amendment are a topic of enduring concern, with such freedoms requiring vigilant advocacy and protection from each generation. Paulo Freire stated, “Citizenship is not obtained by chance: It is a construction that, never finished, demands we fight for it” (1998, p. 90). There is confusion and much debate in and outside of schools about how and when these and other rights described in the First Amendment may or may not be limited, and the time is now to clarify the place of such rights in public education. At the Schoolhouse Gate is divided into three sections: Foundations, Case Studies of Rights in Schools, and Choices to Act. The “Foundations” section presents the case law pertaining to the rights of both teachers and students, setting the tone for what presently is permissible and chronicling the ongoing struggle with defining rights and responsibilities in schools. In “Case Studies of Rights in Schools,” various authors examine teacher and student interactions with rights and responsibilities in schools, including the interest of students in participating with their teachers in the democratic experiment of schooling, the promise of student-led conferences, a new teacher’s success with democratizing her classroom, and student views of news and technology. “Choices to Act” includes a portrait of teacher activism during the Oklahoma Walkout, a general counsel’s advice to teachers for availing themselves of their rights, a story of a civic education curriculum generating student agency, and vignettes of two public high school students who took action in their schools and communities.

Schooling Multicultural Teachers offers a historical overview of the multicultural education context, followed by practical examples of how the DCRPS can support program evaluation, as well as guide pre-service and in-service teacher development across diverse programs and demographic contexts.

It is essential for today’s students to learn about science and engineering in order to make sense of the world around them and participate as informed members of a democratic society. The skills and ways of thinking that are developed and honed through engaging in scientific and engineering endeavors can be used to engage with evidence in making personal decisions, to participate responsibly in civic life, and to improve and maintain the health of the environment, as well as to prepare for careers that use science and technology. The majority of Americans learn most of what they know about science and engineering as middle and high school students. During these years of rapid change for students’ knowledge, attitudes, and interests, they can be engaged in learning science and engineering through schoolwork that piques their curiosity about the phenomena around them in ways that are relevant to their local surroundings and to their culture. Many decades of education research provide strong evidence for effective practices in teaching and learning of science and engineering. One of the effective practices that helps students learn is to engage in science investigation and engineering design. Broad implementation of science investigation and engineering design and other evidence-based practices in middle and high schools can help address present-day and future national challenges, including broadening access to science and engineering for communities who have traditionally been underrepresented and improving students’ educational and life experiences. Science and Engineering for Grades 6-12: Investigation and Design at the Center revisits America’s Lab Report: Investigations in High School Science in order to consider its discussion of laboratory experiences and teacher and school readiness in an updated context. It considers how to engage today’s middle and high school students in doing science and engineering through an analysis of evidence and examples. This report provides guidance for teachers, administrators, creators of instructional resources, and leaders in teacher professional learning on how to support students as they make sense of phenomena, gather and analyze data/information, construct explanations and design solutions, and communicate reasoning to self and others during science investigation and engineering design. It also provides guidance to help educators get started with designing, implementing, and assessing investigation and design.

8 starred reviews · Goodreads Choice Awards Best of the Best · William C. Morris Award Winner · National Book Award Longlist · Printz Honor Book · Coretta Scott King Honor Book · #1 New York Times Bestseller! "Absolutely riveting!" —Jason Reynolds "Stunning." —John Green "This story is necessary. This story is important." —Kirkus (starred review) "Heartbreakingly topical."

—Publishers Weekly (starred review) "A marvel of verisimilitude." —Booklist (starred review) "A powerful, in-your-face novel." —Horn Book (starred review) Sixteen-year-old Starr Carter moves between two worlds: the poor neighborhood where she lives and the fancy suburban prep school she attends. The uneasy balance between these worlds is shattered when Starr witnesses the fatal shooting of her childhood best friend Khalil at the hands of a police officer. Khalil was unarmed. Soon afterward, his death is a national headline. Some are calling him a thug, maybe even a drug dealer and a gangbanger. Protesters are taking to the streets in Khalil’s name. Some cops and the local drug lord try to intimidate Starr and her family. What everyone wants to know is: what really went down that night? And the only person alive who can answer that is Starr. But what Starr does—or does not—say could upend her community. It could also endanger her life. Want more of Garden Heights? Catch Maverick and Seven’s story in Concrete Rose, Angie Thomas’s powerful prequel to The Hate U Give.

This very teachable book is ideal for child-focused courses that deal with the juvenile justice system and the child welfare system or with the legal position of children within their families and society. The Fourth Edition is updated with case law and legislation current through mid-2019, including the Supreme Court’s latest decisions on special education, constitutional limits on punishing minors, new materials on conflicts between parents and state authorities over school curriculum, faith healing, and compulsory vaccination, as well as on the free speech and free exercise rights of students. The chapters on delinquency explore why the new understanding of how and when adolescents mature is revolutionizing the law, and the unit on child abuse and neglect and the child welfare system covers new state and federal legislation, as well as cases from around the country that examine the tension between protecting children’s relationships with their families and protecting them from harm. New to the Fourth Edition: The Supreme Court’s latest special education decisions Cases challenging new, tough legislation eliminating exceptions to vaccination requirements More in-depth examination of the conflict between students’ free speech rights and schools’ anti-bullying initiatives The “Making a Murderer” case as a vehicle for analyzing limits on police interrogation of juveniles Cases exploring how Troxel affects child abuse and neglect cases Professors and students will benefit from: Problem exercises throughout the book—some short and others longer and more complex An interdisciplinary approach that incorporates information from related social sciences such as psychology and sociology Balanced perspective and coverage of issues, with no perceptible liberal or conservative bias in tone or selection of topics Ample coverage of juvenile courts Logical organization and clear structure that make it suitable for a

variety of teaching styles Teaching materials include: Teacher’s Manual Sample interim assessment problems

Freedom of Speech: Reflections in Art and Popular Culture

Martindale-Hubbell Law Directory

The End of Policing

This book examines how freedom of speech is reflected in pop culture by looking at numerous examples of films, websites, television shows, and songs that have touched on—and impacted—this issue. • Covers freedom of speech issues in popular culture in the 19th and 20th centuries as well as the present day • Examines everything from banned books to comic book censorship, music, theater, photography, film, television, video games, and social media • Enables readers to better appreciate how freedom of speech and expression is a subtext in most aspects of daily life

Taking place during the most critical period of our nation's birth, The First Conspiracy tells a remarkable and previously untold piece of American history that not only reveals George Washington's character, but also illuminates the origins of America's counterintelligence movement that led to the modern day CIA. In 1776, an elite group of soldiers were handpicked to serve as George Washington's bodyguards. Washington trusted them; relied on them. But unbeknownst to Washington, some of them were part of a treasonous plan. In the months leading up to the Revolutionary War, these traitorous soldiers, along with the Governor of New York, William Tryon, and Mayor David Mathews, launched a deadly plot against the most important member of the military: George Washington himself. This is the story of the secret plot and how it was revealed. It is a story of leaders, liars, counterfeitters, and jailhouse confessors. It also shows just how hard the battle was for George Washington and how close America was to losing the Revolutionary War. In this historical page-turner, New York Times bestselling author Brad Meltzer teams up with American history writer and documentary television producer, Josh Mensch to unravel the shocking true story behind what has previously been a footnote in the pages of history. Drawing on extensive research, Meltzer and Mensch capture in riveting detail how George Washington not only defeated the most powerful military force in the world, but also uncovered the secret plot against him in the tumultuous days leading up to July 4, 1776. Praise for The First Conspiracy: "This is American history at its finest, a gripping story of spies, killers, counterfeitters, traitors?and a mysterious prostitute who may or may not have even existed. Anyone with an interest in American history will love this book." —Douglas Preston, #1 bestselling author of The Lost City of the Monkey God "A wonderful book about leadership?and it shows why George Washington and his moral lessons are just as vital today. What a book. You'll love it." —President George H.W. Bush "This is an important book: a fascinating largely unknown chapter of our hazardous beginning, a reminder of why counterintelligence matters, and a great read." —President Bill Clinton

"The volume provides education leaders and policymakers with practical guidance on how to make each dollar go further—whether a given dollar is "old" or "new." This book identifies insights, lessons, and suggestions that can help schools spend their funds effectively. The volume is focused on solutions—ways school systems can prioritize and make tradeoffs that can help them spend their dollars more effectively— and more general lessons for how leaders can and should think about these issues. The book provides policy-specific recommendations. When it comes to school spending, getting more bang for the buck is never just a matter of spending on "what works." It's a complicated calculus of student needs, available resources, political realities, and local context. That's why school spending should never be a mechanical task, but an educational exercise—and an opportunity to discover more promising paths forward. This book guides readers through this journey of school spending"—

A Guide for Program Assessment and Professional Development

I Am Martin Luther King, Jr

Wake up your social problems classes! Social Problems: Sociology in Action helps your students learn sociology by doing sociology. Social Problems will inspire your students to do sociology through real-world activities designed to increase learning, retention, and engagement with course material.

The classic, bestselling book on the psychology of racism -- now fully revised and updated Walk into any racially mixed high school and you will see Black, White, and Latino youth clustered in their own groups. Is this self-segregation a problem to address or a coping strategy? Beverly Daniel Tatum, a renowned authority on the psychology of racism, argues that straight talk about our racial identities is essential if we are serious about enabling communication across racial and ethnic divides. These topics have only become more urgent as the national conversation about race is increasingly acrimonious. This fully revised edition is essential reading for anyone seeking to understand the dynamics of race in America.

Why are carefully designed, sensible policies too often not adopted or implemented? When they are, why do they often fail to generate development outcomes such as security, growth, and equity? And why do some bad policies endure? World Development Report 2017: Governance and the Law addresses these fundamental questions, which are at the heart of development. Policy making and policy implementation do not occur in a vacuum. Rather, they take place in complex political and social settings, in which individuals and groups with unequal power interact within changing rules as they pursue conflicting interests. The process of these interactions is what this Report calls governance, and the space in which these interactions take place, the policy arena. The capacity of actors to commit and their willingness to cooperate and coordinate to achieve socially desirable goals are what matter for effectiveness. However, who bargains, who is excluded, and what barriers block entry to the policy arena determine the selection and implementation of policies and, consequently, their impact on development outcomes. Exclusion, capture, and clientelism are manifestations of power asymmetries that lead to failures to achieve security, growth, and equity. The distribution of power in society is partly determined by history. Yet, there is room for positive change. This Report reveals that governance can mitigate, even overcome, power asymmetries to bring about more effective policy interventions that achieve sustainable improvements in security, growth, and equity. This happens by shifting the incentives of those with power, reshaping their preferences in favor of good outcomes, and taking into account the interests of previously excluded participants. These changes can come about through bargains among elites and greater citizen engagement, as well as by international actors supporting rules that strengthen coalitions for reform.

Offers a practical guide for improving schools dramatically that will enable all students from all backgrounds to achieve at high levels. Includes assessment forms, an index, and a DVD.

An Amazon Best Book of the Year optioned for television by Gabrielle Union! In a series of personal essays, prominent journalist and LGBTQIA+ activist George M. Johnson explores his childhood, adolescence, and college years in New Jersey and Virginia. From the memories of getting his teeth kicked out by bullies at age five, to flea marketing with his loving grandmother, to his first sexual relationships, this young-adult memoir weaves together the trials and triumphs faced by Black queer boys. Both a primer for teens eager to be allies as well as a reassuring testimony for young queer men of color, All Boys Aren't Blue covers topics such as gender identity, toxic masculinity, brotherhood, family, structural marginalization, consent, and Black joy.

Johnson's emotionally frank style of writing will appeal directly to young adults.
