The Investment Report, issued annually by the European Investment Bank, provides a comprehensive overview and analysis of investment and the financing of investment in the European Union. It combines the exploration of investment trends with in-depth analysis, focusing especially on the drivers and barriers to investment activity. The report leverages on a unique set of databases and survey data, including EIBIS, an annual survey of 12 500 firms in Europe, which focuses on their assessment of investment and investment finance conditions, and which allows analysis with firm balance sheet information. The report provides critical inputs to policy debates on the need for public action on investment, and on the types of intervention that can have the greatest impact. This year's report addresses a moment of economic recovery in which investment growth, overall, is strong, but downside risks to the economic outlook are rising. It identifies many ways in which current investment is still structurally inadequate, given the legacy effects of the

recent crisis and the great challenges that lie ahead.

There is an urgent need to re-tool Europe, from its infrastructure and innovation ecosystem, through to its businesses and workers, to enhance prosperity and social cohesion.

This book presents the proceedings of the 12th International Parallel Tools Workshop, held in Stuttgart, Germany, during September 17–18, 2018, and of the 13th International Parallel Tools Workshop, held in Dresden, Germany, during September 2–3, 2019. The workshops are a forum to discuss the latest advances in parallel tools for high-performance computing. High-performance computing plays an increasingly important role for numerical simulation and modeling in academic and industrial research. At the same time, using large-scale parallel systems efficiently is becoming more difficult. A number of tools addressing parallel program development and analysis has emerged from the high-performance computing community over the

last decade, and what may have started as a collection of a small helper scripts has now matured into production-grade frameworks. Powerful user interfaces and an extensive body of documentation together create a user-friendly environment for parallel tools. The Best Book to ACE the FSA Math Exam! The 2018/2019 Indonesian elections were

among the most divisive elections in Indonesian history, where identity politics and ethno-religious sentiments were prevalent not just during the 2019 presidential election, but also during the 2018 regional executive elections as well. Contributors to this edited volume analysed the dynamics between identity politics, national and local politics and produce findings and insights that will inform prospective readers regarding the future of identity politics and how it may affect Indonesian politics for the intermediate future. This book is an up-to-date study addressing contemporary Indonesian politics that should be read by Indonesian Studies and more broadly Southeast Asian Studies specialists. It is also a useful reference for those studying Electoral Politics, Religion and Politics, and Comparative Politics. Saunders Guide to Success in Nursing School, 2018-2019 E-Book

Achieving the UN Sustainable Development Goals by 2030 will, to a great degree, depend on implementing a “circular economy”. In the forest sector, this relates to how we manage forests and use forest products. The Forest Products Annual Market Review covers recent trends, policies and market intelligence on forest products along with production, consumption and trade statistics for the UNECE region; all of which are critical to the role of forests in creating a more circular economy.

Kaplan's MCAT Biochemistry Review 2018-2019 offers an expert study plan, detailed subject review, and hundreds of online and in-book practice questions - all authored by the experts behind the MCAT prep course that has helped more people get into medical school than all other major courses combined. Prepping for the MCAT is a true challenge. Kaplan can be your partner along the way - offering guidance on where to focus your efforts and how to organize your review. With the most recent changes to the MCAT, biochemistry is one of the most high-yield areas for study. This book has been updated to match the AAMC's guidelines

precisely—no more worrying if your MCAT review is comprehensive! The Most Practice More than 350 questions in the book and access to even more online - more practice than any other MCAT biochemistry book on the market. The Best Practice Comprehensive biochemistry subject review is written by top-rated, award-winning Kaplan instructors. Full-color, 3-D illustrations from Scientific American, charts, graphs and diagrams help turn even the most complex science into easy-to-visualize concepts. All material is vetted by editors with advanced science degrees and by a medical doctor. Online resources help you practice in the same computer-based format you'll see on Test Day. Expert Guidance High-yield badges throughout the book identify the top 100 topics most-tested by the AAMC. We know the test: The Kaplan MCAT team has spent years studying every MCAT-related document available. Kaplan's expert psychometricians ensure our practice questions and study materials are true to the test.
