INSTANT NEW YORK TIMES BESTSELLER A laugh-out-loud funny look at pop culture and social media stardom from one of the most popular funemployed millennials today, perfect for fans of Next Level Basic and The Betches. As the creator of the breakout Instagram account @GirlWithNoJob, Claudia Oshry has turned not wanting an ordinary career into a thriving media company and pop culture-focused podcast and morning show. The origins of her pop culture obsessions can be traced back to household debates over boy bands, and her flair for the dramatic to her young emulation of Blair Waldorf. When she started @GirlWithNoJob, Claudia entered that world herself as a social media influencer, sharing her unbelievable—and unbelievably awkward—encounters with some of her favorite A-listers as she navigates her incredible access. Now, in this juicy, behind-the-scenes look at the life of an Instagram sensation, Claudia leaves nothing out as she contemplates staying true to yourself while hustling in today's digital culture. Sometimes the best lessons are learned the hard way, and her journey hasn't been without its punch-in-the-face doses of humility. But, like anyone with a relentless desire to be popular, she dusts herself off and finds a new, better way forward. With humor and unique insights, Claudia examines the nature of social media celebrity, the many sides of fandom, and cancel culture. If there's one thing she knows for sure, she was born thirsty, and she's here for another round!

Sometimes the most imperfect match is the most perfect surprise. Hadley Cooper believes in happily-ever-afters with her whole heart. Described by her friends as a wide-eyed, eternal optimist, she looks for the bright side in most any situation. However, when her job as the assistant manager of Silhouette, a posh boutique on Rodeo Drive, is on the line, she realizes it's time to pull her head out of the clouds and find a way to turn business around, and that just might mean partnering with the most stubborn up-and-coming fashion designer she's ever encountered. Spencer Adair has a passion for fashion, but hates the fact that it rhymes. She's serious about her designs, fiercely protective of her work, and is waiting patiently for her big break. What she didn't plan on, however, was the unsolicited opinions of that overly-friendly blond boutique manager. Or the way her heart beats faster every time she's around.

Reflecting upon what at times appeared to be the hundred-yard dash of life, I realize I have stood on the shoulders of great visionaries. Many of them were aware of the promise of my potential and the pitfalls that lay before me. They had a sincere appreciation of my desire to persevere and my passion for medicine. These courageous individuals were transformational leaders by nature. They bestowed upon me wisdom and encouragement and shared the precious gift of time, which helped generate a surge when my quest toward the finish line occasionally faltered.

Future economic growth lies in the value of experiences and transformations--good and services are no longer enough. We are on the threshold, say authors Pine and Gilmore, of the Experience Economy, a new economic era in which all businesses must orchestrate memorable events for their customers. The Experience Economy offers a creative, highly original, and yet eminently practical strategy for companies to script and stage the experiences that will transform the value of what they produce. From America Online to Walt Disney, the authors draw from a rich and varied mix of examples that showcase businesses in the midst of creating personal experiences for both consumers and businesses. The authors urge managers to look beyond traditional pricing factors like time and cost, and consider charging for the value of the transformation that an experience offers. Goods and services, say Pine and Gilmore, are no longer enough. Experiences and transformations are the basis for future economic growth, and The Experience Economy is the script from which managers can begin to direct their own transformations.

A sweeping work of original scholarship, Down and Out in Late Meiji Japan examines the daily lives of Japan ’ s hinmin (poor people), particularly urban slum-dwellers, in the late 1800s and early 1900s. James Huffman draws on newspaper articles, official surveys, and reminiscences to recreate for readers life as experienced by the poor themselves—something not attempted before in scholarship on this era. He begins by explaining the causes behind the fast-increasing numbers of poor neighborhoods in major cities after the late 1880s and goes on to describe in fascinating detail what those neighborhoods looked like and what their inhabitants did for a living: collecting night soil, weaving textiles, making match boxes and other piecework, pulling rickshaws, building the structures that made Japan “ modern, ” and supplying much of the era ’ s entertainment, including sex. He also explores what hinmin did outside of work: what they ate, where they did their wash, how they stretched their meager budgets by using pawn brokers, and how they dealt with illness and other disasters and grappled with the painful necessity of sending children to work rather than to school. Huffman argues that despite the tremendous challenge of day-to-day living, hinmin confronted life as energetic agents, embracing it as avidly as members of the more affluent classes. Reading sources carefully, and often against the grain, he reveals that many of the poor found meaning in their work, took an active and even influential part in their cities ’ politics, and nursed ambitions for a better life. And nearly all took part in the pleasures and festivities that urban neighborhoods offered. Later chapters examine poverty outside the cities and the large-scale emigration of indigent farmers to Hawai ’ i ’ s sugar plantations, beginning in 1885. In his conclusion, Huffman looks at late-Meiji hardship in light of twenty-first-century poverty and the global income disparity that has captured the public ’ s attention in recent years.

The Hidden Life of Trees: What They Feel, How They Communicate

From New York Times bestseller, Kendall Ryan, comes a sexy new standalone novel. My tempting and very alpha friend Sterling Quinn is someone I consider off-limits. It's not just that we're friends, he's also cocky, confident, and British, which means he's a walking aphrodisiac. But lately he's been giving me the look. You know the one. When he thinks I'm not paying attention, and his gaze lingers for too long. When we start working together, that's when the sexual tension between us gets so thick, I want to hack through it with a machete. I want to make all these deep feelings I've harbored for him disappear, because there's no way this can end well. The lines between business and pleasure become irrevocably blurred, and I'm stuck between a rock and Sterling's very, very hard place. Rather than keep a level head about our growing attraction, Sterling wants to go all in, showing me just how explosive we can be together. But I've been around long enough to know that this British bad boy is more than my heart can handle. I'm not about to be cast aside like yesterday's underwear when he's done having fun. Sterling's never been told no, and he's not about to put his ego aside and play by my rules. But I never thought he'd fight so dirty.

Published in partnership with the Library of Congress, Drawn to Purpose: American Women Illustrators and Cartoonists presents an overarching survey of women in American illustration, from the late nineteenth into the twenty-first century. Martha H. Kennedy brings special attention to forms that have heretofore received scant notice—cover designs, editorial illustrations, and political cartoons—and reveals the contributions of acclaimed cartoonists and illustrators, along with many whose work has been overlooked. Featuring over 250 color illustrations, including eye-catching original art from the collections of the Library of Congress, Drawn to Purpose provides insight into the personal and professional experiences of eighty women who created these works. Included are artists Roz Chast, Lynda Barry, Lynn Johnston, and Jillian Tamaki. The artists' stories, shaped by their access to artistic training, the impact of marriage and children on careers, and experiences of gender bias in the marketplace, serve as vivid reminders of social change during a period in which the roles and interests of women broadened from the private to the public sphere. The vast, often neglected, body of artistic achievement by women remains an important part of our visual culture. The lives and work of the women responsible for it merit much further attention than they have received thus far. For readers who care about cartooning and illustration, Drawn to Purpose provides valuable insight into this rich heritage.
