Based on the incredible true story of one woman’s journey to the exotic world of nineteenth-century Siam, the riveting novel that inspired The King and I. In 1862, recently widowed and with two small children to support, British schoolteacher Anna Leonowens agrees to serve as governess to the children of King Mongkut of Siam (present-day Thailand), unaware that her years in the royal palace will change not only her own life, but also the future of a nation. Her relationship with King Mongkut, famously portrayed by Yul Brynner in the classic film The King and I, is complicated from the start, pitting two headstrong personalities against each other: While the king favors tradition, Anna embraces change. As governess, Anna often finds herself at cross-purposes, marveling at the foreign customs, fascinating people, and striking landscape of the kingdom and its harems, while simultaneously trying to influence her pupils—especially young Prince Chulalongkorn—with her Western ideals and values. Years later, as king, this very influence leads Chulalongkorn to abolish slavery in Siam and introduce democratic reform based on the ideas of freedom and human dignity he first learned from his beloved tutor. This captivating novel brilliantly combines in-depth research—author Margaret Landon drew from Siamese court records and Anna’s own writings—with richly imagined details to create a lush portrait of 1860s Siam. As a Rodgers & Hammerstein Broadway musical and an Academy Award-winning film, the story of Anna and the King of Siam has enchanted millions over the years. It is a gripping tale of cultural differences and shared humanity that invites readers into a vivid and sensory world populated by unforgettable characters.

An inspiring biography of Muhammad Ali from the legendary Walter Dean Myers, reissued under Scholastic Focus for a new generation. From his childhood in the segregated South to his final fight with Parkinson’s disease, Muhammad Ali never backed down. He was banned from boxing during his prime because he refused to fight in Vietnam. He became a symbol of the antiwar movement - and a defender of civil rights. As "The Greatest," he was a boxer of undeniable talent and courage. He took the world by storm - only Ali could "float like a butterfly, sting like a bee!" Muhammad Ali: Olympic gold medalist, former heavyweight champion, and one of the most influential people of all time.

Affective Computing and Sentiment Analysis

Global Status Report on Road Safety 2015

Ending the Fossil Fuel Era

This volume maps the watershed areas between two 'holy grails' of computer science: the identification and interpretation of affect – including sentiment and mood. The expression of sentiment and mood involves the use of metaphors, especially in emotive situations. Affect computing is rooted in hermeneutics, philosophy, political science and sociology, and is now a key area of research in computer science. The 24/7 news sites and blogs facilitate the expression and shaping of opinion locally and globally. Sentiment analysis, based on text and data mining, is being used in the looking at news and blogs for purposes as diverse as: brand management, film reviews, financial market analysis and prediction, homeland security. There are systems that learn how sentiments are articulated. This work draws on, and informs, research in fields as varied as artificial intelligence, especially reasoning and machine learning, corpus-based information extraction, linguistics, and psychology.

"The Global status report on road safety 2015, reflecting information from 180 countries, indicates that worldwide the total number of road traffic deaths has plateaued at 1.25 million per year, with the highest road traffic fatality rates in low-income countries. In the last three years, 17 countries have aligned at least one of their laws with best practice on seat-belts, drink-driving, speed, motorcycle helmets or child restraints. While there has been progress towards improving road safety legislation and in making vehicles safer, the report shows that the pace of change is too slow. Urgent action is needed to achieve the ambitious target for road safety reflected in the newly adopted 2030 Agenda for Sustainable Development: halving the global number of deaths and injuries from road traffic crashes by 2020. Made possible through funding from Bloomberg Philanthropies, this report is the third in the series, and provides a snapshot of the road safety situation globally, highlighting the gaps and the measures needed to best drive progress."--Publisher's description.

From the legendary Paul McCartney - an action-packed picture-book adventure celebrating the fun grandparents and grandchildren can have when their imaginations run wild. See the compass needle spin - let the magic fun begin! Grandude is a one-of-a-kind adventurer - a Mary Poppins for the modern day! With his magic compass he whisks his four grandkids off on whirlwind adventures, taking them all around the globe . . . Join them as they ride flying fish, dodge stampedes in the Wild West, and escape snowy avalanches! Brought to life in a riot of colour by talented children's illustrator Kathryn Durst, it's the perfect story for little explorers.

Years after a violent war destroyed much of the world, Kaspar has grown up in a society based on peace and harmony. But beyond the city walls, a vicious band of rebels are plotting to tear this peace apart. It is up to the Guardians - an elite peacekeeping force - to protect the city, without ever resorting to the brutal methods of their enemy. When Kaspar joins the Guardians, he has a chance encounter with a rebel - a beautiful girl named Rhea. Haunted from that moment on by strange visions and memories - memories that could only belong to Rhea - he realises he hasn't been told the truth about what the rebels really want, and what he's really fighting for.

The King of Style: Dressing Michael Jackson is a fascinating look at the intersection of music and fashion, as well as an homage to Michael Jackson's brilliant fusing of costume, personality, and performance to create his iconic image. Through his music, dance, and fashion, Michael Jackson created a mystique that was unique to him and recognized as such throughout the world. For five decades he mesmerized audiences—and for twenty-five of those years Michael Bush was there as Jackson's designer, stylist, and friend, accompanying the King of Pop on his journey to becoming the King of Style. While paying homage to the original Billie Jean, Beat It, and Thriller looks that put Jackson on the fashion map, The King of Style also traces their evolution over several decades. Jackson's penchant for the military silhouette is explored in detail, along with the trade secrets behind the sequined glove and the fencing uniform that he, Michael Bush, and Dennis Tompkins reinvented to make stage magic. It was Bush who dressed Jackson for the final time, before he was buried. Dozens of garments were left unfinished by his shocking death. The legacy of Michael Jackson lives on. An artist like none other, he transformed everything he touched—from the fabric of his clothes to his legions of fans around the world.

Between the 18th and 19th centuries, Britain experienced massive leaps in technological, scientific, and economical advancement

The Measuring the Information Society Report, which has been published annually since 2009, features key ICT data and benchmarking tools to measure the information society, including the ICT Development Index (IDI). The IDI 2016 captures the level of ICT developments in 171 economies worldwide and compares progress made since the year 2014. The MISR 2016 assesses IDI findings at the regional level and highlights countries that rank at the top of the IDI and those that have improved their position in the overall IDI rankings most dynamically since 2014. It will also use the findings of the IDI to analyze trends and developments in the digital divide. The report will present 2015 prices for about 160 countries and provide a detailed analysis of mobile-cellular, fixed-broadband and mobile-broadband prices over the period 2008-2015. It will highlight the role of ICTs in achieving the Sustainable Development Goals and present the newly agreed SDG indicator framework, including the ICT indicators. The report will also include a chapter looking into new metrics to measure mobile uptake, and a chapter presenting data analyzing Internet use and uptake.

This comprehensive guide serves to illuminate the rise and development of FinTech in Sweden, with the Internet as the key underlying driver. The multiple case studies examine topics such as: the adoption of online banking in Sweden; the identification and classification of different FinTech categories; process innovation developments within the traditional banking industry; and the Venture Capital (VC) landscape in Sweden, as shown through interviews with VC representatives, mainly from Sweden but also from the US and Germany, as well as offering insight into the companies that are currently operating in the FinTech arena in Sweden. The authors address questions such as: How will the regulatory landscape shape the future of FinTech companies? What are the factors that will likely drive the adoption of FinTech services in the future? What is the future role of banks in the context of FinTech and digitalization? What are the policies and government initiatives that aim to support the FinTech ecosystem in Sweden? Complex concepts and ideas are rendered in an easily digestible yet thought-provoking way. The book was initiated by the IS (the Internet Foundation in Sweden), an independent organization promoting the positive development of the Internet in the country. It is also responsible for the Internet's Swedish top-level domain .se, including the registration of domain names, and the administration and technical maintenance of the national domain name registry. The book illustrates how Sweden acts (or does not act) as a competitive player in the global FinTech arena, and is a vital addition to students and practitioners in the field.

Such was Chow Phya Sri Sury Wongse when I was first presented to him: a natural king among the dusky forms that surrounded him, the actual ruler of that semi- barbarous realm, and the prime contriver of its arbitrary policy. Black, but comely, robust, and vigorous, neck short and thick, nose large and nostrils wide, eyes inquisitive and penetrating, his was the massive brain proper to an intellect deliberate and systematic. Well found in the best idioms of his native tongue, he expressed strong, discriminative thoughts in words at once accurate and abundant. His only vanity was his English, with which he so interlarded his native speech, as often to impart the effect of levity to ideas that, in themselves, were grave, judicious, and impressive.

The behavioral scientist author of Just the Way You Are presents a provocative argument that the quality of one's life is directly related to the focus of one's attention, drawing on the latest findings in neuroscience and psychology to cover such topics as the human capacity for training concentration, the ways in which the creative mind thinks, and why people deliberate on the wrong factors when making big decisions.

A provocative call for delegitimizing fossil fuels rather than accommodating them, accompanied by case studies from Ecuador to Appalachia and from Germany to Norway.

The Last of the Last

The Dead Sea tells its own stories. Its salt crystals are like prisms. Through them you can see the world anew. Israeli artist Sigalit Landau creates this vision by using the world's saltiest sea as her laboratory. Everyday objects are "baptized" by immersing them in the Dead Sea for months. Completely covered in salt, they have a hypnotizing effect. The transience of objects is transposed into the poetic aura of crystalline permanence. In this form, issues of female identity and bodily experience, the shadows of the Holocaust, the tense political situation in Israel, as well as questions of justice, structural violence, and economic exploitation of nature are negotiated. Salt Years is both a catalogue of these works created at the Dead Sea and a visually stunning documentation of the artist's process. Exhibition: Museum der Moderne Salzburg, July 6 - November 17, 2019

Before his death at the age of 110 in May 2011, Claude Choules was the last man alive who had served in both world wars. Claude learned life's lessons during a rural childhood in England and later in the Royal Navy as a boy sailor, before graduating to become an explosives expert in the Australian navy. In his 80s, Claude began working on his memoirs with the help of his daughters, and The Last of the Last is a riveting account of his lifetime that vividly mirrors how the last century unfolded. Claude had the insight of an ordinary man thrust to the forefront of international furore. He was opposed to the glorification of war, but his charming anecdotes honour a generation called upon to serve not once but twice. This engaging, wryly humorous autobiography reflects the amiable nature of a truly unique man.

Get paid what you're worth, build secure relationships, and make your money last with this valuable guide from a Today show financial editor and bestselling author. Ask successful women what they want from their money and they'll tell you: independence, security, choices, a better world, and--oh yes--way less stress, not just for themselves but for their kids, partners, parents, and friends. Through a series of HerMoney Happy Hour discussions (when money is the topic, wine helps) and one-on-one conversations, Jean Chatzky gets women to open up about the one topic we still never talk about. Then she flips the script and charts a pathway to this joyful, purpose-filled life that today's women not only want but also, finally, have the resources to afford. Through Chatzky's candid three-part plan--formed through detailed reporting with the world's top economists, psychiatrists, behaviorists, financial planners, and attorneys, as well as her own two decades of experience in the field--readers will learn to: 1. Explore their relationships with money,2. Take control of their money, and 3. Use their money to create the life they want. Women With Money shows readers how to wrap their hands around tactical solutions to get paid what they deserve, become inspired to start businesses, invest for tomorrow, make their money last, and then use that money to foster secure relationships, raise independent and confident children, send those kids to college, care for their aging parents, leave a legacy, and--best of all--bring them joy!

Thirteen-year-old Bonnie has a feeling of foreboding on the very day that her six-year-old brother Matt and their dog Pookie are abducted, and she becomes involved in a major search effort as well as a frightening adventure. Reprint.

Explores the ideas, interests and institutions that shape the development of media systems, particularly in countries engaged in, and emerging from, violent conflict.

This document examines the global and regional evolution of Foreign Direct Investment (FDI) and offers recommendations so these flows can contribute to the region's productive development processes.

This book proposes essential methods, models, and case studies for Sustainable Logistics and Production in Industry 4.0. In addition to identifying and discussing various challenges and future prospects, it also features numerous case studies and quantitative research from different sectors. The authors (which include academics and managers) present insightful tips on the technical, organizational and social aspects of implementing Sustainable Logistics and Production in Industry 4.0. In today's world, changes are coming faster and more unpredictably. Production is becoming more automated, computerized and complex. In short, Industry 4.0 is creating many new opportunities, but at the same time several new challenges. This book offers a valuable resource for all academics and practitioners who want to deepen their knowledge of Sustainable Logistics and Production in Industry 4.0.

An innocent in the city! "By the time I'd arrived at my new flat in London, I'd met a tall, dark stranger, discovered he was my new next-door neighbor--and I'd shown him my knickers! Not bad for a city girl in training! Just between you and me, it was completely unintentional--my suitcase exploded on the pavement...." Philly is young, free and single--and definitely not looking for Mr. Right! But can she help it that the most gorgeous man alive happens to live next door? Convinced he'll never look twice at someone like her, Philly needs a little encouragement from her new flatmates. And a lot of encouragement from this gorgeous stranger, who's surely destined to become her husband!

There's never a wrong time to eat bacon, and this new cookbook proves it, offering mouth-watering recipes for any hour of the day, from Pork Belly Hash with Kale and Sweet Potatoes to Apple Pie with Bacon Strudel. Bacon isn't just an infatuation—it's a way of life. Even as pork prices rise and the economy fluctuates, consumption of bacon remains steady. The American Meat Institute reports that bacon has an almost cultlike following; the Facebook page About Bacon has more than 10 million Likes. Its sublime savory taste has been endorsed by scientists as well: Bacon boasts umami, the seductive “fifth taste” that heightens and rises beyond sweet, sour, bitter, and salty. Bacon isn't just an infatuation—it's a way of life. In Bacon 24/7, author Theresa Gilliam and photographer E Jane Armstrong have teamed up to create a fun and current cookbook to feed the need for bacon. They include recipes for every hour, from dawn through dark, as well as info on topics such as how to cure and smoke your own bacon. Drool-worthy photographs highlight dishes such as Pasta Carbonara, Pork Belly Hash with Kale and Sweet Potatoes, and Apple Pie with Bacon Strudel. Any evening that begins with a Bacon-Infused Manhattan holds the promise of being an unforgettable night.

"Both the challenges and opportunities facing organizations of all sizes today are greater than ever. Illegal immigration across the U.S.-Mexico border has reached emergency levels. There is less room than ever for error today in the formulation and implementation of a strategic plan. This textbook provides a systematic effective approach for developing a clear strategic plan. Changes made in this twelfth edition are aimed squarely at illustrating the effect of this new world order on strategic-management theory and practice. ... This twelfth edition provides updated coverage of strategic-management concepts, theory, research, and techniques in the chapters."--Preface.

"I am most grateful for two things: that I was born in North Korea, and that I escaped from North Korea." - Yeonmi Park "One of the most harrowing stories I have ever heard - and one of the most inspiring." - The Bookseller "Park's remarkable and inspiring story shines a light on a country whose inhabitants live in misery beyond comprehension. Park's important memoir showcases the strength of the human spirit and one young woman's incredible determination to never be hungry again."

—Publishers Weekly In In Order to Live, Yeonmi Park shines a light not just into the darkest corners of life in North Korea, describing the deprivation and deception she endured and which millions of North Korean people continue to endure to this day, but also onto her own most painful and difficult memories. She tells with bravery and dignity for the first time the story of how she and her mother were betrayed and sold into sexual slavery in China and forced to suffer terrible psychological and physical hardship before they finally made their way to Seoul, South Korea—and to freedom. Park confronts her past with a startling resilience. In spite of everything, she has never stopped being proud of where she is from, and never stopped striving for a better life. Indeed, today she is a human rights activist working determinedly to bring attention to the oppression taking place in her home country. Park's testimony is heartbreaking and unimaginable, but never without hope. This is the human spirit at its most indomitable.

From Jennifer Li Shotz, the #1 New York Times bestselling author of Max, comes the second action-packed installment of the Hero series. This time, the retired search-and-rescue dog is called to action during a hurricane. When a dangerous hurricane strikes town and Jack and his puppy, Scout, go missing, retired search-and-rescue dog Hero is the only one who can track them down. Hero and his human, Ben, set off into the woods, but when the storm surges out of control, the group

is suddenly trapped with no way out. Now it's up to Hero to get everyone home safe and sound. Together, Hero and Ben fight for their lives—but can Hero battle his way past alligators, mudslides, and raging floods? Join Hero for another epic adventure and discover what a dog will do to save his best friend. Can't get enough superhero dog stories? Check out Jennifer Li Shotz's other middle grade books: *Hero Hero: Rescue Mission Max: Best Friend*. *Hero. Marine (#1 NYT Bestseller)*

A behind-the-scenes look at Lexus's surprising twenty-year success story—in a revised new edition In the 1980s, German brands BMW and Mercedes-Benz dominated the luxury car market and had little reason to fear competition from Japan. But in 1989, Toyota entered the market with the Lexus LS 400, a car that could compete with the Germans in every category but price—it was US\$30,000 cheaper. Within two years, Lexus had overtaken Mercedes-Benz in the United States and made a stunning success of Toyota's brave foray into the global luxury market. Lexus: The Relentless Pursuit reveals why Toyota decided to take on the German automakers and how the new brand won praise and success for its unparalleled quality, unforgettable advertising, and unprecedented customer service. From the first boardroom planning session to Lexus's entry into the mega-luxury supercar market, this is the complete and compelling story of one of the world's most admired brands. Includes a new Foreword by legendary designer Erwin Lui, an Afterword with updates since the first edition, and a new Coda by leading Japanese automotive journalist Hisao Inoue Covers the racetrack triumph—and tragedy—behind the new US\$375,000 Lexus LFA supercar Offers important business lessons for brand managers and executives For car enthusiasts, business leaders, and anyone interested in branding and marketing. Lexus: The Relentless Pursuit offers an amazing story of excellence and innovation in the automotive industry.

Religious wars, global terrorism, pandemics, and genocide have all helped to usher in the Anxiety Age. Who better to lead the way out than popular psychic Sylvia Browne? In *End of Days*, Browne tackles the most daunting of subjects with her trademark clarity, wisdom, and serenity, answering such difficult questions as: What's coming in the next fifty years? What do the great prophecies of Nostradamus and the Book of Revelation mean? If the world is really going to end, what will unfold in our final hours? For anyone who's ever wondered where we're headed, and what—if anything—we can do to prevent a catastrophe of biblical proportions, *End of Days* is a riveting and insightful must-read.

The automotive industry appears close to substantial change engendered by "self-driving" technologies. This technology offers the possibility of significant benefits to social welfare—saving lives; reducing crashes, congestion, fuel consumption, and pollution; increasing mobility for the disabled; and ultimately improving land use. This report is intended as a guide for state and federal policymakers on the many issues that this technology raises.

A masterwork of suspense from the #1 New York Times bestselling author. Tina Evans can think of no better time for a fresh start. It's been a year of unbelievable heartache since her son Danny's death. Now the Vegas show that she directed is about to premiere, so she vows to put her grief behind her. Only there is a message for Tina, scrawled on the chalkboard in Danny's room. Two words that will send Tina on a terrifying journey...NOT DEAD.

A STORY OF UNSUNG BRAVERY AT A DEFINING MOMENT IN BRITAIN'S HISTORY 'Superb' Stephen Fry 'Thrillingly told' Dan Jones 'Fascinating' Neil MacGregor 'Astonishing' Peter Frankopan We like to think we know the story of how Britain went to war with Germany in 1939, but there is one chapter that has never been told. In the early 1930s, a group of young, queer British MPs visited Berlin on a series of trips that would change the course of the Second World War. Having witnessed the Nazis' brutality first-hand, these men were some of the first to warn Britain about Hitler, repeatedly speaking out against their government's policy of appeasing him. Prime Minister Neville Chamberlain hated them. Branding them 'the glamour boys' to insinuate something untoward about them, he had their phones tapped and threatened them with deselection and exposure. At a time when even the suggestion of homosexuality could land you in prison, the bravery these men were forced to show in their personal lives gave them extraordinary courage in public. Undaunted, they refused to be silenced and when war came, they enlisted. Four of them died in action. And without them, Britain would never have faced down the Nazis. A Guardian Book of Autumn 2020

The inspirational business story of Huawei: how to grow from start up to world leader in two decades With over 170,000 employees in more than 170 countries and regions, serving more than one-third of the world's population, how does entrepreneur Ren Zhengfei manage a telcoms giant called Huawei? What is the secret to Huawei's global success? In 1987, a 44-year-old man founded a telecom equipment-trading firm in Shenzhen, China, with start-up capital of \$5,000. In 29 years, it grew to become the largest telcoms company in the world. This book goes behind the scenes to explore the story of what Ren Zhengfei did differently, how the company he started reached the top spot, and why Huawei is known as a "collective" and not a private company: Learn how this Chinese start up business became an international success Understand the business strategy, leadership skills and management philosophy of Huawei's entrepreneurial founder Get tips, inspiration and motivation for your own business start-up. 14 years of meticulous research and 136 senior management and employee interviews reveal how Huawei's international business success lies in its ability to transform the intellectual elite into a band of soldiers with the same set of values and resolve, while at the same time preventing a culture of subservience. This fascinating story provides a unique glimpse into the machinations of one of the world's most powerful companies. "The company serves as an example for many Chinese entrepreneurs striving to go global, and also presents valuable lessons for Western companies striving to integrate Eastern and Western values and ways of looking at business." - Co-author David De Cremer, KPMG Professor of Management Studies at Cambridge Judge Business School

This book contains the refereed proceedings of the 13th International Conference on Knowledge Management in Organizations, KMO 2018, held in Žilina, Slovakia, in August 2018. The theme of the conference was "Emerging Research for Knowledge Management in Organizations." The 59 papers accepted for KMO 2018 were selected from 141 submissions and are organized in topical sections on: Knowledge management models and analysis; knowledge sharing; knowledge transfer and learning; knowledge and service innovation; knowledge creation; knowledge and organization; information systems and information science; knowledge and technology management; data mining and intelligent science; business and customer relationship management; big data and IoT; and new trends in IT.
