*This book is for art market researchers at all levels. A brief overview of the global art market and its major stakeholders precedes an analysis of the various sales venues (auction, commercial gallery, etc.). Library research skills are reviewed, and advanced methods are explored in a chapter devoted to basic market research. Because the monetary value of artwork cannot be established without reference to the aesthetic qualities and art historical significance of our subject works, two substantial chapters detail the processes involved in researching and documenting the fine and decorative arts, respectively, and provide annotated bibliographies. Methods for assigning values for art objects are explored, and sources of price data, both in print and online, are identified and described in detail. In recent years, art historical scholarship increasingly has addressed issues related to the history of art and its markets: a chapter on resources for the historian of the art market offers a wide range of sources. Finally, provenance and art law are discussed, with particular reference to their relevance to dealers, collectors, artists and other art market stakeholders.*

*This title is the perfect read for every collector, and covers a vast range of topics from what really drives the market today to how to spot the 'next big thing', to how to display your collection.*

Thanks to Antiques Roadshow, the highest rated, long running prime-time series on PBS, with millions of viewers a week, we are a nation seeking fortune in our attics. And thanks to Antiques Roadshow Primer, with 572,000 copies in print, we are highly antiques-literate. But there's another audience out there, too, showing up ever more frequently on Antiques Roadshow--those obsessive, bitten-by-the-bug collectors. Bring on the "Maltese Falcon" posters! Celebrating the collectible--that 20th-century object that brings with it less monetary value than passion, nostalgia, quirky appeal, and just plain pleasure--ANTIQUES ROADSHOW COLLECTIBLES focuses on 12 major areas that inspire both the thrill of the chase and the thrill of discovery: furniture, photographs, posters and illustration art, costume jewelry and wristwatches, dolls, toys, advertising memorabilia, sports, glass and pottery, and more. A guide to value rather than price, it is packed with a wealth of information that will help turn any interested flea market fiend into a first-class collector. From the innovative design of Bertioia chairs to the high-quality crafting of costume jewelry to the surprising variety of PEZ dispensers, here are 416 pages brimming with information. Bound into the book is a 32-page full-color section, while hundreds of black-and-white photographs illustrate every chapter. There are Antiques Roadshow discoveries, tips from experts and appraisers, the steps to becoming a focused collector--even how to use pieces without compromising their value. After all, isn't it more fun to eat off the Fiesta ware?

Remember The Wombles, Star Wars, the Sex Pistols, Abba!s "Waterloo," David Cassidy, and Evel Knievel!s daredevil motorbike stunts? All these familiar and popular icons of the 1970s spawned toys and merchandise, many of which have become the hottest collectables on the market. This fascinating, informative, and illustrated guide to the decade's now-trendy memorabilia covers it all, with the most up-to-date prices available. It's both highly practical and a full walk down memory lane.

Today the name Gene Kloss, NA, is synonymous with copperplate etchings and when this book was first published by Sunstone Press in the early 1980s, it quickly became a collector's item. No wonder because her limited edition prints are now becoming priceless on the art market. This 20th anniversary edition, the sole complete source of information on this outstanding artist, contains 81 black and white reproductions on 192 pages and includes a text by noted author Phillips Kloss. When Gene and her poet-husband Phillips Kloss first arrived in Taos, New Mexico, her first etching press, a sixty-pound machine, was installed at their camp in Taos Canyon by cementing it to a large rock. That press was eventually replaced by a 1,084 pound Sturges etching press purchased from a defunct greeting card company. With the years and the continual dedication came honors, national and international. The Smithsonian, the National Gallery, The Corcoran Gallery of Fine Art, the Library of Congress, the Metropolitan Museum of Art, as well as many others, house the work of Gene Kloss in their permanent collections. From her spare life on the eastern edge of Taos with neither water nor electricity, but plenty of firewood, kerosene and inspiration, Gene Kloss informed the art world of the special beauty inherent in southwestern US images: the churches, the Indian faces, the mountains and valleys, the dances and intricate rhythms of life in a part of the United States that remains essentially unchanged to this day. ART NEWS called Gene Kloss, "...one of our most sensitive and sympathetic interpreters of the Southwest."

Taking a decade-by-decade approach, this lavishly illustrated guide to 20th-century collectibles delivers useful information in a lively and entertaining style. Each chapter provides detailed insight into a particular decade and includes two central areas of collecting from that era, whether it is ceramic bathing beauties from the 1920s, vintage clothes from the 1940s, cars from the 1950s, or Memphis design from the 1980s. Covering popular periods such as art nouveau, industrial, art deco, retro, and modern, this is an ideal companion for both serious collectors and those who want a glimpse into the world of 20th-century design.
