The importance of

chloride ions in cell physiology has not been fully recognized until recently, in spite of the fact that chloride (Cl^-), together with bicarbonate, is the most abundant free anion in animal cells, and performs or determines fundamental biological functions in

Xtremepapers
all tissues. For many years it was thought that Cl^- was distributed in thermodynamic equilibrium across the plasma membrane of most cells. Research carried out during the last couple of decades has led to a dramatic change in this simplistic view. We now know that

File Type PDF
4024 4029 Y15 Sy
Papers

Xtremepapers
most animal cells,
neurons included,
exhibit a non-
equilibrium
distribution of Cl-
across their plasma
membranes. Over the
last 10 to 15 years,
with the growth of
molecular biology and
the advent of new
optical methods, an
enormous amount of
exciting new

information has become available on the molecular structure and function of Cl⁻ channels and carriers. In nerve cells, Cl⁻ channels and carriers play key functional roles in GABA- and glycine-mediated synaptic inhibition, neuronal growth and development,

File Type PDF
4024 4029 Y15 Sy
Papers

purpose of God, by which Pharaoh was ordained to magnify, by his obstinacy, the redemption of God's people, Israel. For if any one should say, that Pharaoh's being "raised up" signified his being raised from above to the summit of kingly honour; that indeed is some part, but not the whole, of the matter.

For the LXX. Greek interpreters have here used the same expression as that by which they render the verb Hiphil, derived from the radical Kum "to arise." Moreover, God is said to "raise up" that, which He causes, by an outstretched arm, as it were, to accomplish the end He has ordained.

The Scripture here principally looks at the beginning, or first-cause, of that which it is recording; that it may ascribe the whole to God alone. In this same manner, God is also said to "raise up " prophets, and ministers of salvation; that no man might claim any of these things to himself, on the ground of his

own industry. Therefore, the meaning of Moses has been faithfully expressed by the term, "raised up," if you will but so receive it; nor did Paul receive it otherwise. And most certainly, the expression "raised up" comprehends, not less distinctly than summarily, what he had touched upon, both
