A CATAclysmic DISASTER STRIKES YOUR AREA. How will you evacuate your family to safety? Do you have a vehicle you can count on? Can it double as a mobile retreat, or do you have a shelter prepared in advance? What's your plan for reaching the shelter? Bug Out Vehicles and Shelters gives you the vital answers and options for becoming a survivor instead of a refugee: VEHICLES • Prepping fast-escape vehicles • Using specially equipped vehicles for unique situations • Planning for backup vehicles if your main escape option fails • Utilizing bikes, canoes, kayaks, rowboats and other human-powered means of escape SHELTERS • Preparing temporary shelters • Locating and stocking longterm shelters • Using an RV, motorhome, camper trailer or converted utility vehicle • Living aboard boats, from motorboats to houseboats to blue-water sailboats Explaining the advantages and drawbacks of each vehicle and shelter option, this survival handbook zeroes in on the key considerations and essential equipment for planning all your bug-out needs.

Nominated as one of America's best-loved novels by PBS's The Great American Read Six days ago, astronaut Mark Watney became one of the first people to walk on Mars. Now, he's sure he'll be the first person to die there. After a dust storm nearly kills him and forces his crew to evacuate while thinking him dead, Mark finds himself stranded and completely alone with no way to even signal Earth that he's alive—and even if he could get word out, his supplies would be gone long before a rescue could arrive. Chances are, though, he won't have time to starve to death. The damaged machinery, unforgiving environment, or plain-old "human error" are much more likely to kill him first. But Mark isn't ready to give up yet. Drawing on his ingenuity, his engineering skills—and a relentless, dogged refusal to quit—he steadfastly confronts one seemingly insurmountable obstacle after the next. Will his resourcefulness be enough to overcome the impossible odds against him?
