Every organization has large amounts of data to store, use, and manage. For most, this quantity is increasing. However, over time, the value of this data changes. How can we map data to an appropriate storage media, so that it can be accessed in a timely manner when needed, retained for as long as required, and disposed

of when no longer  
needed? Information  
Lifecycle Management

(ILM) provides  
solutions. ILM is the  
process of managing  
information-from  
creation, through its  
useful life, to its  
eventual destruction-in a  
manner that aligns  
storage costs with the  
changing business value  
of information. We can

Acces PDF 80mb
