The acclaimed New York Times and USA TODAY bestselling novel of small-town evil that “is genuinely chilling and something brand-new and exciting” (Stephen King) and “unforgettable” (Harlan Coben). In the summer of 1988, the mutilated bodies of several missing girls begin to turn up in a small Maryland town. The grisly evidence leads police to the terrifying assumption that a serial killer is on the loose in the quiet suburb. But soon a rumor begins to spread that the evil stalking local teens is not entirely human. Law enforcement, as well as members of the FBI, are certain that the killer is a living, breathing madman—and he’s playing games with them. For a once peaceful community trapped in the depths of paranoia and suspicion, it feels like a nightmare that will never end. Recent college graduate Richard Chizmar returns to his hometown just as a curfew is enacted and a neighborhood watch is formed. Inspired by the terrifying events, Richard writes a personal account of the serial killer’s reign of terror, unaware that these events will continue to haunt him for years to come. A clever, terrifying, and heartrending work of metafiction, Chasing the Boogeyman is the ultimate marriage between horror fiction and true crime. Chizmar’s “dazzling work of fresh imagination and psychological insight” (Caroline Kepnes, New York Times bestselling author of You) is on full display in this truly unique novel that will haunt you long after you turn the final page.

FACES OF TED BUNDY: MY PRISON INTERVIEWS WITH BUNDY by Dr. Paul Dawson (New edition of MASKS OF TED BUNDY) presents the shocking confessions and sensational interview comments of the all-American psycho, Ted Bundy. He was the all-American boy murdering all-American girls. Bundy, a chilling enigma, was one of the most dangerous sex predator-deviants and serial-sex killers in the American history of crime. Dr. Dawson brings a clinical psychologist’s perspective to the Ted Bundy interviews which he completed in 1988 and are now available for the first time after 25 years. Dr. Dawson conducted a series of interviews with Ted Bundy, poster boy for serial-sex killers, in 1988 while he was on Death Row in the Florida State Prison at Starke, Florida. Bundy, a psychopath without a conscience, was executed in January, 1989. Dr. Dawson provides a rare, exclusive, exciting and fascinating investigation and assessment inside the dangerous, paradoxical mind of this notorious serial-sex killer. Bundy’s sordid mystique, the horror of his homicidal night-stalker, serial-sex killer rampage is explored in depth. Bundy, a conundrum, finally answers questions about his mysterious crimes he’s suppressed for many years. Some psychological theories are presented to shine valid, logical light on Bundy’s repulsive, depraved, ghastly crimes of assault-abduction, torture-rape, mutilation, murder-necrophilia, dismemberment and cannibalism - at times he ate their flesh. Dr. Dawson earned a Ph.D. in psychology from The New School for Social Research, Graduate Faculty, New York City. As the Nazi war machine caused death and destruction throughout Europe, one man in the Fatherland began his own reign of terror. This is the true story of the pursuit and capture of a serial killer in the heart of the Third Reich. For all appearances, Paul Ogorzow was a model German. An employed family man, party member, and sergeant in the infamous Brownshirts, he worked his way up from the Berlin railroad from a manual laborer laying track to assistant signalman. But he also had a secret need to harass and frighten women. Then he was given a gift from the Nazi high command. Due to Allied bombing raids, a total blackout was instituted throughout Berlin, including on the commuter trains—trains often used by women riding home alone from the factories. Paul was given a job as a night watchman on the Berlin subway. He was given a key to a small apartment building, and with a helpless flock of victims to choose from, Ogorzow’s depredations grew more and more horrific. He escalated from simply frightening women to physically attacking them, eventually raping and murdering them. Beginning in September 1940, he started casually tossing their bodies off the moving train. Though the Nazi party tried to censor news of the attacks, Paul lived in a state of constant fear. It was up to Wilhelm Lüdtkke, head of the Berlin police’s serious crimes division, to hunt down the madman in their midst. For the first time, the gripping full story of Ogorzow’s killing spree and Lüdtkke’s relentless pursuit is told in dramatic detail.

Talking with Serial Killers: Sleeping with Psychopaths

“A tour de force of storytelling.” —Louise Penny, #1 New York Times bestselling author of the Chief Inspector Gamache series “Jobb’s excellent storytelling makes the book a pleasure to read.” —The New York Times Book Review “When a doctor does go wrong he is the first of criminals,” Sherlock Holmes observed during one of his most baffling investigations. “He has nerve and he has knowledge.” In the span of fifteen years, Dr. Thomas Neill Cream murdered as many as ten people in the United States, Britain, and Canada, a death toll with almost no precedent. Poison was

his weapon of choice. Largely forgotten today, this villain was as brazen as the notorious Jack the Ripper. Structured around the doctor’s London murder trial in 1892, when he was finally brought to justice, The Case of the Murderous Dr. Cream exposes the blind trust given to medical practitioners, as well as the flawed detection methods, bungled investigations, corrupt officials, and stifling morality of Victorian society that allowed Dr. Cream to prey on vulnerable and desperate women, many of whom had turned to him for medical help. Dean Jobb transports readers to the late nineteenth century as Scotland Yard traces Dr. Cream’s life through Canada and Chicago and finally to London, where new investigative tools called forensics were just coming into use, even as most police departments still scoffed at using science to solve crimes. But then, most investigators could hardly imagine that serial killers existed—the term was unknown. As the Chicago Tribune wrote, Dr. Cream’s crimes marked the emergence of a new breed of killer: one who operated without motive or remorse, who “murdered simply for the sake of murder.” For fans of Erik Larson’s The Devil in the White City, all things Sherlock Holmes, or the podcast My Favorite Murder, The Case of the Murderous Dr. Cream is an unforgettable true crime story from a master of the genre.

This book examines the issue of racial variation in crime rates in the United States and in many other countries using a variety of data sources. It examines the latest genetic data asserting the reality of the concept of race, and various lines of evidence from population genetics, evolutionary biology, and anthropology pertinent to the role of racial differences in behavior, with an emphasis on explaining black crime relative to white and Asian crime. In addition to run-of-the-mill street crimes, racial differences in crimes such as mass, spree, and serial killing, hate crime, white-collar crime, and organized crime are examined.

The definitive story of the Dennis Nilsen case featured in Netflix's Memories of a Murder: The Nilsen Tapes, and the book behind ITV's Des, starring David Tennant ***WINNER OF THE GOLD DAGGER AWARD FOR CRIME NON-FICTION and THE NUMBER ONE SUNDAY TIMES BESTSELLER*** _____ Dennis Nilsen, who died in May 2018, admitted to killing at least 15 people before his arrest in 1983. This ground-breaking criminal study of his killings was written with Nilsen’s full cooperation, resulting in a fascinating - and horrifying - portrait of the man who worshipped death. In February 1983, residents of Muswell Hill had been plagued by blocked drains. When a plumber was called to investigate, he discovered a large blockage of biological material. To his horror, it appeared to be formed of human flesh and bones. The next day, local resident Dennis Nilsen was arrested. 'Are we talking about one body or two?' a detective asked. Nilsen replied 'Fifteen or sixteen, since 1978. I'll tell you everything.' Within days he had confessed to fifteen gruesome murders over a period of four years. His victims, mostly young gay men at a time when society cared little for them, had been overlooked. Killing for Company is a unique study of a murderer's mind, essential reading for true crime aficionados. _____ 'You really have to read this extraordinary book to get a full flavour of the weirdness of Nilsen and his crimes' SUNDAY TIMES 'A seminal look into the criminal mind' DAILY MAIL 'Brian Masters has given us a full, well-ordered, dispassionate account of Nilsen's life and crimes' THE TIMES 'Without any doubt one of the most remarkable, complete and most humanely informative accounts of a murderer's mind ever achieved... the book is far superior to any previous English book of its kind and deserves to serve as a model for all future attempts in this genre' NEW SOCIETY 'The book is a perceptive and at times coldly brutal assessment of Nilsen's psychology' MIRROR 'A comprehensive and compelling account' FINANCIAL TIMES 'Probably the best thing of its kind since In Cold Blood . . . a classic study in criminal mentality' YORKSHIRE POST 'Killing For Company must stand as one of the most remarkable and accurate accounts ever written of the singular relationship between a mass murderer and a society . . . a bloody masterpiece.' BERYL BAINBRIDGE 'A truly awesome tale, brilliantly told' LITERARY REVIEW 'A meticulous study of the dark intricacies of the human mind' THE BOOKBAG 'Brian Masters can rest assured that the job he undertook with such obvious doubts was one worth doing' SPECTATOR 'Masters has written an extraordinary book, and his achievement has been the ability to recount horrific details without descending to the lurid sensationalism of the instant books and Fleet Street reports' POLICE 'A compelling and remarkable book ... through Masters' fine writing the reader suspends his nausea for the crimes, and concentrates with Nilsen on his motives and himself' THE LISTENER

A Chilling Serial Killer Thriller

A New York Times bestseller, The Midnight Assassin is a sweeping narrative history of a terrifying serial killer--America's first--who stalked Austin, Texas in 1885. In the late 1800s, the city of Austin, Texas was on the cusp of emerging from an isolated western outpost into a truly cosmopolitan metropolis. But beginning in December 1884, Austin was terrorized by someone equally as vicious and, in some ways, far more diabolical than London's infamous Jack the Ripper. For almost exactly one year, the Midnight Assassin crisscrossed the entire city, striking on moonlit nights, using axes, knives, and long steel rods to rip apart women from every race and class. At the time the concept of a serial killer was unthinkable, but the murders continued, the killer became more brazen, and the citizens' panic reached a fever pitch. Before it was all over, at least a dozen men would be arrested in connection with the murders, and the crimes would expose what a newspaper described as "the most extensive and profound scandal ever known in Austin." And yes, when Jack the Ripper began his attacks in 1888, London police investigators did wonder if the killer from Austin had crossed the ocean to terrorize their own city. With vivid historical detail and novelistic flair, Texas Monthly journalist Skip Hollandsworth brings this terrifying saga to life.

He kept parts of others for over a year in the freezer of his trailer home. Learn the shocking truth in Shadows of Evil—a chilling account of madness, depravity, and murder...

Maud is an irascible 88-year-old Swedish woman with no family, no friends, and... no qualms about a little murder. This funny, irreverent story collection by Helene Tursten, author of the Irene Huss investigations, features two-never-before translated stories that will keep you laughing all the way to the retirement home. Ever since her darling father's untimely death when she was only eighteen, Maud has lived in the family's spacious apartment in downtown Gothenburg rent-free, thanks to a minor clause in a hastily negotiated contract. That was how Maud learned that good things can come from tragedy. Now in her late eighties, Maud contents herself with traveling the world and surfing the net from the comfort of her father's ancient armchair. It's a solitary existence, and she likes it that way. Over the course of her adventures--or misadventures--this little bold lady will handle a crisis with a local celebrity who has her eyes on Maud's apartment, foil the engagement of her long-ago lover, and dispose of some pesky neighbors. But when the local authorities are called to investigate a dead body found in Maud's apartment, will Maud finally become a suspect?

An Edgar Award finalist for Best Fact Crime, this ¶impressive¶open-eyed investigative inquiry wrapped within a cultural history of rural America¶ (The Wall Street Journal) shows legendary statistician and baseball writer Bill James applying his analytical acumen to crack an unsolved century-old mystery surrounding one of the deadliest serial killers in American history. Between 1898 and 1912, families across the country were bludgeoned in their sleep with the blunt side of an axe. Some of these cases¶like the infamous Villisca, Iowa, murders¶received national attention. But most incidents went almost unnoticed outside the communities in which they occurred. Few people believed the crimes were related. And fewer still would realize that all of these families lived within walking distance to a train station. When celebrated true crime expert Bill James first learned about these horrors, he began to investigate others that might fit the same pattern. Applying the same know-how he brings to his legendary baseball analysis, he empirically determined which crimes were committed by the same person. Then after sifting through thousands of local newspapers, court transcripts, and public records, he and his daughter Rachel made an astonishing discovery: they learned the true identity of this monstrous criminal and uncovered one of the deadliest serial killers in America. ¶A suspenseful historical account¶ (Publishers Weekly, starred review), The Man from the Train paints a vivid, psychologically perceptive portrait of America at the dawn of the twentieth century, when crime was regarded as a local problem, and opportunistic private detectives exploited a dysfunctional judicial system. James shows how these cultural factors enabled such an unspeakable series of crimes to occur, and his groundbreaking approach to true crime will convince skeptics, amaze aficionados, and change the way we view criminal history. ¶A beautifully written and extraordinarily researched narrative¶¶This is no pure whodunit, but rather a how-many-did-he-do¶ (Buffalo News).

A Novel

The Serial Killer's Wife

Everyone in the small town of Central City, Texas loves Lou Ford. A deputy sheriff, Lou's known to the small-time criminals, the real-estate entrepreneurs, and all of his coworkers -- the low-lifes, the big-timers, and everyone in-between -- as the nicest guy around. He may not be the brightest or the most interesting man in town, but nevertheless, he's the kind of officer you're happy to have keeping your streets safe. The sort of man you might even wish your daughter would end up with someday. But behind the platitudes and glad-handing lurks a monster the likes of which few have seen. An urge that has already claimed multiple lives, and cost Lou his brother Mike, a self-sacrificing construction worker fell to his death on the job in what was anything but an accident. A murder that Lou is determined to avenge -- and if innocent people have to die in the process, well, that's perfectly all right with him. In The Killer Inside Me, Thompson goes where few novelists have dared to go, giving us a pitch-black glimpse into the mind of the American Serial Killer years before Charles Manson, John Wayne Gacy, and Brett Easton Ellis's American Psycho, in the novel that will forever be known as the master performance of one of the greatest crime novelists of all time.

Three unconnected crimes are about to be linked in the most chilling way imaginable. The abduction of a teenage girl, heading towards a bus stop. A woman shot, point-blank during a brutal robbery. A young man tortured, his body found wrapped in barbed wire. With nothing to indicate that the three are connected, NYPD detective Tom Harper and psychologist Denise Levene must look beyond the surface to find a killer's true motivation. And they believe that they have found a murderer conditioned to hate and willing to go to any lengths to make his victims suffer. The killer has nothing to lose. Harper and Levene have one chance to catch him. Sometimes hate is just the beginning . . .

New York Times Bestseller: From the journalists who covered the story, the shocking crimes of Gary Ridgway, America’s most prolific serial murderer. In the 1980s and 1990s, forty-nine women in the Seattle area were brutally murdered, their bodies dumped along the Green River and Pacific Highway South in Washington State. Despite an exhaustive investigation—even serial killer Ted Bundy was consulted to assist with psychological profiling—the sadistic killer continued to elude authorities for nearly twenty years. Then, in 2001, after mounting suspicion and with DNA evidence finally in hand, King County police charged a fifty-two-year-old truck painter, Gary Ridgway, with the murders. His confession and the horrific details of his crimes only added fuel to the notoriety of the Green River Killer. Journalists Carlton Smith and Tomas Guillen covered the murders for the Seattle Times from day one, receiving a Pulitzer Prize nomination for their work. They wrote the first edition of this book before the police had their man. Revised after Ridgway’s conviction and featuring chilling photographs from the case, The Search for the Green River Killer is the ultimate authoritative account of the Pacific Northwest killing spree that held a nation spellbound—and continues to horrify and fascinate, spawning dramatizations and documentaries of a demented killer who seemed unstoppable for decades.

***MASKS OF TED BUNDY: MY PRISON INTERVIEWS WITH THE ALL-AMERICAN PSYCHO TED BUNDY** by Dr. Paul Dawson presents the shocking confessions and sensational interview comments of the all-American psycho, Ted Bundy. He was the all-American boy murdering all-American girls. Bundy, a chilling enigma, was one of the most dangerous sex predator-deviants and serial-sex killers in the American history of crime. Dr. Dawson brings a forensic-clinical psychologist's perspective to the Ted Bundy interviews which he completed in 1988 and are now available for the first time after 30 years. Dr. Dawson conducted a series of interviews with Ted Bundy, poster boy for serial-sex killers, in 1988 while he was on Death Row in the Florida State Prison at Starke, Florida. Bundy, a psychopath without a conscience, was executed in January, 1989. Dr. Dawson provides a rare, exclusive, exciting and fascinating investigation and assessment inside the dangerous, paradoxical mind of this notorious serial-sex killer. Bundy's sordid mystique, the horror of his homicidal night-stalker, serial-sex killer rampage is explored in depth. Dr. Dawson, in these interviews, reveals Bundy's darkest secrets, elicits rape-murder confessions from Bundy and confronts the murderer of over 30 to possibly over 100 young women and girls by probing his mind, examining and challenging Bundy's rationalizations. Bundy, a conundrum, finally answers questions about his mysterious crimes he's suppressed for many years. Some psychological theories are presented to shine valid, logical light on Bundy's repulsive, depraved, ghastly crimes of assault-abduction, torture-rape, mutilation, murder-necrophilia, dismemberment and cannibalism - at times he ate their flesh. Dr. Dawson earned a Ph.D. in psychology from The New School for Social Research, Graduate Faculty in New York City; has been a psychologist in clinics, schools, mental hospitals; was chief psychologist of a state prison system; has been in private practice & consulting in New York; he has written over 60 books including: ANGELINA JOLIE PSYCHOANALYZED; BIPOLAR ZOO; BIPOLAR JUNGLE; BORDERLINE PERSONALITY DISORDER; BPD RECOVERY; CHARACTER INTELLIGENCE (CI); CAMPUS KILLER'S SECRET OBSESSION; CHARLES MANSON'S GIRLS; FOUR SERIAL KILLERS; GRACE KELLY SESSIONS; HOW TO GET SOBER; JACKIE O SESSIONS; JACKIE ONASSIS IN THERAPY; JFK JR MURDERED; JODI ARIAS; JOHNNY DEPP DIAGNOSED; MANSON INTERVIEWS RAW; MARILYN MONROE DIAGNOSED; MASKS OF A LADY KILLER; MASKS OF PREDATORS; MASKS OF SEX PREDATORS; MASKS OF TED BUNDY; MY PRINCESS DIANA THERAPY SESSIONS; MY TED BUNDY INTERVIEWS RAW!; NARCOTERRORIST PSYCHOPATHS; PRINCESS DIANA DIAGNOSED; PSYCHOLOGY OF HIDDEN INFLUENCE; PSYCHOLOGY OF MEN WHO ABUSE WOMEN; PSYCHOPATHS; ROCK STARS DIAGNOSED; ROYAL SESSIONS; ROYAL SESSIONS 2; ROYAL SESSIONS 3; SERIAL KILLERS; SERIAL KILLERS 2; SERIAL KILLERS 3; SEX CRIMES; SEX, LOVE & SMART DATING; SKULL SCRAPERS: A CAMILLE LAURENT THRILLER (series of thriller novels); SPIES & ASSASSINS; SPIRITUAL THERAPY; TED BUNDY'S DEATH ROW CONFESSIONS; TERRORIST IMPERATIVE; THE MASKS OF KARLA HOMOLKA.*

Bestselling writer and criminologist Christopher Berry-Dee turns his attention to a new kind of victim: the wives or partners of serial murderers who remained unaware of exactly who they had fallen for until after their other half's arrest or, in some cases, conviction, for multiple murders. Sonia Sutcliffe first discovered that her husband, Peter, was leading a secret existence as 'the Yorkshire Ripper' only when he was arrested. The wife of the 'Hillside Strangler' only learned of her husband's crimes when state police smashed down her door in search of him. On finding out the truth, these innocents often experience a strange kind of guilt for not having recognised the killer in their home, as well as having to face the grim reality of betrayal and deceit. Christopher Berry-Dee speaks directly to killers and their oblivious loved ones to get inside the minds of the men and women who fall for murderers.
