

911 Carrera 4 Buyers Guide

The Porsche 911 may have been in production for over 40 years, but the modern water-cooled generation share little more than a philosophy with the first examples. Known worldwide by their Porsche internal type number, the 996 models represented a fresh start and offered a new standard in sports car performance and driving satisfaction. This new second edition packs in more specification data. We introduce all the 996 model types, describing the technical specifications, vehicle identification data, performance, colors and options. Using color photography of the cars and many actual problem areas, we introduce each model and what to look for when choosing and buying a used example.

"This volume ... looks in detail at all of the Datsun sports cars that proudly carried the Fairlady name--the SP/SR roadsters, the 240Z, 260Z and 280Z, and the S130 series, commonly known as the 280ZX in export markets."--Folded portion of front cover.

Ten years have passed since the original edition of this book was published, but Alfa Romeo enthusiasts everywhere are more active today than ever in preserving, modifying and racing these excellent cars. Throughout this time, the author in true Alfista fashion, never stopped looking for and trying new techniques to increase the power, overall performance and reliability of Alfas and their engines. This book is the result of much research, and also first-hand experience gained through many Alfa rear wheel drive model projects, from the 105 series to the last of the 75 models. There is a lot of completely new information regarding TwinSpark Cylinder head mods, big-brake mods, LSD adjustment procedure, electrical system improvements, plus many flow-bench diagrams, dyno plots, and much more.

The 1994-98 911 models, known universally by their Porsche internal type number - 993 - have achieved an almost cult status among enthusiasts of the marque. The 993 is the last of the air-cooled 911s and in the eyes of many represented a peak in the model's engineering development and build quality. With a full range of performance versions that included the iconic RS and Turbo, the 993 is the 911 no self-respecting sports car fan can afford to miss. This Ultimate Buyers' Guide introduces all the production 993 model types, describing the technical specifications, identification data, performance, colors and options. Using color photography of the cars and many actual problem areas, we discuss what to look for when choosing and buying a used example.

The Porsche 911 Buyer's Guide takes a year-by-year approach to what a prospective buyer should look for when evaluating a used 911. For each year, from 1965 to the present, the author examines the problematic areas of each model, what to ask the seller, and much more.

Honed on the racetrack, but practical and reliable enough to use every day, the 911 legend lives on with the introduction of the 997 series. At launch in late 2004, there were just two 997 models available – the Carrera and the Carrera S. Nevertheless, in typically Porsche style the range soon expanded to include cabriolets, wide-body four-wheel drive models, awesome turbocharged grand tourers and race-bred GT3s! This all-new Ultimate Buyers' Guide introduces all the production 997 types, describing the technical specifications, identification data, performance, colors and options. Using color photography of the cars and many actual problem areas, we discuss what to look for when choosing and buying a used example. its forms.

The first in a series of five books which chronicle in definitive depth the history of the evergreen 911, from the earliest design studies to the water-cooled cars of today. This volume covers original design, the 901 prototype, the early 911s (including 912s) and the 2.2 litre cars.

Detailed study of a remarkable little car that, when it appeared in 1969, was considered a mish-mash of ideas, and not a 'proper' Porsche. It's also the story of the 'little' guys ... the privateers and dealer teams who did most of the development that turned the 914 into great little racer.
