Founded in 1903, Ford Motor Company has enormously impacted the history and development of America, and the world, in the 20th century. What began as a small operation in a converted Detroit wagon factory has become the second largest industrial manufacturing corporation in the world, with active operations on six continents. Unlike other automotive corporations, the Ford company has remained under the control and active management of its founding family for 100 years. Like the Kennedys, Vanderbilts, and Roosevelts, the Ford family has made an irreversible impact on American history and society. Through a collection of over 200 images, Ford Dynasty tells the story of one extraordinary American family, their company, and its accomplishments over the course of a century.
