For Heather Jones, inspiration can be anywhere. For her debut book, Quilt Local, she designed a collection of 20 quilts, each inspired by objects and places close to home—country roads, cityscapes, street signs—the landscape of her existence. Then, in a fascinating exercise in color theory and design play, she reworked each one in a second palette to show what a striking difference just a few basic changes can make. Pattern by pattern, Jones takes readers behind the scenes of her process, sharing photographs of her sources of inspiration, sketchbook pages, and the finished quilts. In addition, she offers an accessible lesson in color theory as it applies to quilting.

Quilting has a rich history in Maine and America and its popularity has surged in recent years as people return to traditional handcrafts. The history of quilting in Maine is a story of community and Maine State Museum curator Laurie LaBar coaxes stories out of objects and uses those stories to enlighten, entertain, and bring new voices to Maine history. The first book of its kind, Maine Quilts 250 Years of Comfort and Community is the accompanying volume to a major two-year exhibit at the Maine State Museum. Stories abound, and lesser known aspects of the state's history are brought to light, but the star attractions are the quilts themselves. Ranging from surviving Colonial era quilts to present day creations, more than 150 are presented in full color.

The fundamental shapes of geometry can be built into the grand sweeps of the Sydney Opera House or something as small as a snowflake. This title takes geometric concepts like polygons, platonic solids, and angles and demonstrates their myriad appearances in the world around us. From the Great Pyramid of Giza to sinking a bank shot in pool, geometry abounds.

Today's quilters have many demands on their time but still want to create beautiful quilts. By the Block shows the time-poor quilter how to make sophisticated, complex-looking quilts that are each based on an easy-to-assemble block that is used as a design tool. The 18 quilts in the book feature modern fabric choices and clever design, but all use standard quilting techniques that are in virtually every quilter's skill set. Author Siobhan Rogers has designed 18 quilts for the book, ranging from crib- to king-size quilts for beds as well as several large projects suitable for hanging. Four of the quilts have colourway variations that show the versatility of the basic design. The book is organized according to technique such as log cabins, half-square triangles, or curved piecing, but each project offers a new twist on the traditional methods of piecing and constructing quilts. Some of the blocks are over-sized, which help the quilter work efficiently, and the author offers additional time-saving tips. Several of the quilts use pre-cuts such as fat quarters, and some of the projects are perfect for using up fabric in the quilter's stash. Most of the quilt blocks used in the designs are constructed with easy-to-cut blocks requiring nothing more than a rotary cutter and a quilter's ruler; some quilts are created with simple templates that will be included in the book. | Simple, sophisticated quilts sewn by the block. Create a sampler quilt as unique as you are! Tula Pink gives you an inspiring quilt block collection with Tula Pink's City Sampler. Make a beautiful, modern quilt of your own design with the 100 original quilt blocks or try one of the 5 city-themed sampler quilts designed by Tula. A note from Tula: "You will notice...that the blocks are not named but simply numbered. This is intentional. I may have designed the blocks and given you the instructions on what to cut and where to stitch, but I have not infused the blocks with any meaning. This is your quilt. The fabrics that you choose, the colors that you use and why you are making it are what will give the quilt a purpose. Name your blocks, write in the margins, cross out the ones that you don't like, draw hearts around the ones that you love. In a perfect world, everyone's book would end up looking like a journal, coffee stains and all. The more adventurous ones might rename the book and write their own introduction. Tula Pink's City Sampler is a collaboration between you and me. I am the platform and you are the speaker, so stand on my shoulders and tell the future who you are and why you make."

It's quiltmaking made as simple as paint-by-numbers! With a new method called foundation piecing, you just follow a numerical sequence to stitch fabric onto a foundation. Even the smallest pieces meet precisely, quickly, and accurately. With 365 projects, you could make one every day of the year. They're organized month-by-month, so you could make a patriotic quilt with the July blocks; a Thanksgiving quilt in November; a Christmas quilt with the December blocks; or pretty floral quilts with each month's flowers. (There are also some whimsical designs such as the yellow submarine that marks the day the Beatles came to America.) Photos of quilts made with blocks for each month accompany the complete instructions for the entire foundation piecing process.
