A Thirsting Land (Kitty Rainbow Trilogy, Book 3): A Passionate Saga Of Torment In Post War Britain

In years of industrial change and the cataclysm of the Great War, the lives of two young people intertwine... In *Riches of the Earth*, Wendy Robertson writes a moving saga of two young people, whose happiness is blighted by family, tragedy and war. Perfect for fans of *Katie Flynn* and *Dilly Court*. 'A powerful writer inspired by history, her much loved home region and her experience of working-class life at its poorest and most difficult' - *Mail on Sunday* 1895, County Durham. The Laydon Joneses are new to Selby Street and appear to be just another Welsh family come to work the local mines. But Carodoc Laydon Jones, dour and unforgiving, is a force to be reckoned with, be it down the pit, at chapel or in his own house where he rules with an iron fist. His daughter Susannah has inherited his strength but is determined not to take on his bitterness. This is part of the reason she is deeply intrigued by Jonty Clelland, a young pacifist schoolmaster, who is everything her father is not. But just when it seems that the attraction between them might finally blossom into love, an unthinkable tragedy occurs... What readers are saying about *Riches of the Earth*: 'Superb characterisation adds to the

Three months outbound from Earth and the starship Desio approaches its planetary destination, her crew eager to commence a mission of scientific discovery. Kyle Lorenzo, however, has a personal reason for being on board--an inner conflict that will ultimately propel him to explore not only of the furthest reaches of an enigmatic ocean world but the nebulous recesses of his inner psyche. During the long and isolating interstellar journey a physical relationship develops between Kyle and the ship's physician, Kelly Takara. That part is easy.

the emotional commitment desired by Kelly is harder. So, too, is trying to penetrate the mind of Larry Melhaus, the mission's brilliant and reclusive physicist - a failure to communicate made exponentially more troublesome when the scientist's disturbing behavior begins to threaten the crew. While Kyle struggles to comprehend himself and Melhaus, the ship's crew, led by their strong-willed commander, Bruce Thompson, attempt to fathom a planet where none of the precepts of science seem to apply. A world where every preconceived notion of what constitutes life must be re-examined and challenged. Two journeys: One inward, one outward. Culminating at the same destination.

LAND caused controversy and uproar when it was first published and is still topical and challenging today. Twenty-five years ago, the first manned mission to Mars was lost, all hands presumed dead. But someone survived... Born on the doomed spaceship and raised by the Martians who saved his life, Valentine Michael Smith has never seen a human being until the day a second expedition to Mars discovers him. Upon his return to Earth, a young nurse named Jill Boardman sneaks into Smith's hospital room and shares a glass of water with him, a simple act for her but a sacred ritual on Mars. Now, connected by an incredible bond, Smith, Jill and a writer named Jubal must fight to protect a right we all take for granted: the right to love.

1946: For the widowed young mother Kay Fitzpatrick the return from the all-enveloping heat of wartime Alexandria to the chill of post-war England is both an alien experience and a homecoming. For Laurenz and Patrizia Gold, Jewish refugees scarred by their flight from Nazi-occupied Austria, the bleak repatriation camp outside Priorton represents a chance to establish new roots. While lonely Kay struggles to find an identity of her own in a town full
