bed and lock the door. Unfortunately, Margaret's mother has taken it upon herself to declare Margaret compromised—whether or not Margaret wants to resort to such tactics to snare a husband. Jasper Tierney, the Duke of Jevington, is surprised to encounter a half-clothed woman sprawled upon his bed. He is even more shocked to discover her identity. Margaret Carberry is renowned as an incorrigible wallflower, not a seductress, no matter how appealing her bare flesh is against his bedding. When Margaret declares she won't go along with her mother's scheme and will find a husband on her own, Jasper vows to assist her, lest Margaret's mother concoct another method to arrange a compromising situation. Jasper is certain of one thing: he has no desire to marry. As Jasper works to match Margaret to a fellow duke, the prospect of a forced marriage with her lacks its earlier loathsomeness. Perhaps he missed his chance for true bliss."--Back cover.

courage, and solutions to lead humanity forward. "A powerful read that fills one with, dare I say . . . hope?"—The New York Times NAMED ONE OF THE BEST BOOKS OF THE YEAR BY SMITHSONIAN MAGAZINE There is a renaissance blooming in the climate movement: leadership that is more characteristically feminine and more faithfully feminist, rooted in compassion, connection, creativity, and collaboration. While it's clear that women and girls are vital voices and agents of change for this planet, they are too often missing from the proverbial table. More than a problem of bias, it's a dynamic that sets us up for failure. To change everything, we need everyone. All We Can Save illuminates the expertise and insights of dozens of diverse women leading on climate in the United States—scientists, journalists, farmers, lawyers, teachers, activists, innovators, wonks, and designers, across generations, geographies, and race—and aims to advance a more representative, nuanced, and solution-oriented public conversation on the climate crisis. These women offer a spectrum of ideas and insights for how we can rapidly, radically reshape society. Intermixing essays with poetry and art, this book is both a balm and a guide for knowing and holding what has been done to the world, while bolstering our resolve never to give up on one another or our collective future. We must summon truth, courage, and solutions to turn away from the brink and toward life-giving possibility. Curated

origins of the universe to its ultimate destiny, *The Edge of the Sky* tells the story of the most important discoveries and mysteries in modern cosmology—with a twist. The book's lexicon is limited to the thousand most common words in the English language, excluding physics, energy, galaxy, or even universe. Through the eyes of a fictional scientist (Student-People) hunting for dark matter with one of the biggest telescopes (Big-Seers) on Earth (Home-World), cosmologist Roberto Trotta explores the most important ideas about our universe (All-there-is) in language simple enough for anyone to understand. A unique blend of literary experimentation and science popularization, this delightful book is a perfect gift for any aspiring astronomer. *The Edge of the Sky* tells the story of the universe on a human scale, and the result is out of this world.

sequential traverses through the necessary stops which had its soft corners and milestones. As he journeys through time and memories, Kannan revisits moments from his childhood to his grandson's birth as he reflects on the instances when either love or fate embraced him, sending him in a new direction. In recollections that include precious time spent with his beloved son, sister, and many others, Kannan's heart blooms with happiness as his life comes full circle and he realizes the power behind a simple hug. All You Need is a Hug is a collection of excerpts from one man's experiences as he travels back into his past and invites his memories to wash over him and reveal the true meaning of love and life.

The Audio Expert is a comprehensive reference that covers all aspects of audio, with many practical, as well as theoretical, explanations. Providing in-depth descriptions of how audio really works, using common sense plain-English explanations and mechanical analogies with minimal math, the book is written for people who want to understand audio at the deepest, most technical level, without needing an engineering degree. It's presented in an easy-to-read, conversational tone, and includes more than 400 figures and photos augmenting the text. The Audio Expert takes the intermediate to advanced recording engineer or audiophile and makes you an expert. The book goes far beyond merely explaining how

audio "works." It brings together the concepts of audio, aural perception, musical instrument physics, acoustics, and basic electronics, showing how they're intimately related. Describing in great detail many of the practices and techniques used by recording and mixing engineers, the topics include video production and computers. Rather than merely showing how to use audio devices such as equalizers and compressors, Ethan Winer explains how they work internally, and how they are spec'd and tested. Most explanations are platform-agnostic, applying equally to Windows and Mac operating systems, and to most software and hardware. TheAudioExpertbook.com, the companion website, has audio and video examples to better present complex topics such as vibration and resonance. There are also videos demonstrating editing techniques and audio processing, as well as interviews with skilled musicians demonstrating their instruments and playing techniques.

Drawing on his unique, up-to-the-minute experience as one of the most trusted advisors in the business, Passman offers advice concerning: - The Copyright Royalty Board's latest decisions regarding online transmissions. - The developing new customs concerning new technologies such as streaming on demand, ringtones, and digital downloads. Passman also gives guidance on other fundamental issues such as how to: - Select and hire a winning team of advisors--personal and business managers, agents, and attorneys--and structure their commissions, percentages, and fees in a way that will protect you and maximize these relationships. - Master the big picture and the finer points of record deals. - Navigate the ins and outs of songwriting, music publishing, and copyright law. - Maximize concert touring and merchandising deals. scrambling to sort out what is going to happen next, and Passman is right in the thick of these changes. Here is a book for anyone interested in a music career: a comprehensive and crucial guide to making it in one of the world's most dynamic industries.

All You Need to Know About the Music Business by veteran music lawyer Don Passman—dubbed “the industry bible” by the Los Angeles Times—is now updated to address the biggest transformation of the music industry yet: streaming. For more than twenty-five years, All You Need to Know About the Music Business has been universally regarded as the definitive guide to the music industry. Now in its tenth edition, Donald Passman leads novices and experts alike through what has been the most profound change in the music business since the days of wax cylinders and piano rolls. For the first time in history, music is no longer monetized by selling something—it’s monetized by how many times listeners stream a song. And that completely

changes the ecosystem of the business, as Passman explains in detail. Since the advent of file-sharing technology in the late 1990s to the creation of the iPod, the music industry has been teetering on the brink of a major transformation—and with the newest switch to streaming music, this change has finally come to pass. Passman’s comprehensive guide offers timely, authoritative information from how to select and hire a winning team of advisors and structure their commissions and fees; navigate the ins and outs of record deals, songwriting, publishing, and copyrights; maximize concert, touring, and merchandising deals; and how the game is played in a streaming world. “If you want to be in music, you have to read this book,” says Adam Levine, lead singer and guitarist of Maroon 5. With its proven track record, this updated edition of All You Need to Know About the Music Business is more essential than ever for musicians, songwriters, lawyers, agents, promoters, publishers, executives, and managers—anyone trying to navigate the rapid transformation of the industry. Traversing four decades and three continents, this story of the

From the New York Times bestselling author of *Through a Dog's Eyes*—the inspiration for the PBS documentary—a paradigm-shifting approach to living with and loving our dogs There are few people who understand dogs better than Jennifer Arnold. Twenty-five years after she founded Canine Assistants, a nationally recognized nonprofit that raises and provides service dogs for people with disabilities, Arnold had an epiphany. She'd always approached the education of dogs with kindness and compassion—eschewing the faux science of fear and domination-based training methods. And she'd always understood dogs to be uniquely, uncannily attuned to their human companions; in fact she depended on it—she knew that the bond that developed between a person and their service dog was the single greatest predictor of that partnership's success and, conversely, failure to bond brought about anxiety and

distress in dogs. But it wasn't until recent scientific findings confirmed her hands-on experience with dogs' intuitive social skills that she was willing to put this bold idea to the test: Dogs who bond with us completely and unconditionally will seek to please us and, with minimal cues, can learn to make remarkably sophisticated decisions about their own behavior. Sure, dogs can be taught commands such as "sit," "stay," and "heel," but even the kindest reward and punishment models were merely manipulating dogs' behavior, rather than unleashing their unique social genius and innate ability to navigate the world. In this groundbreaking, persuasive, and heartfelt book, Arnold shows us how every dog—no matter their age—can thrive through Bond-Based Choice Teaching. Her proprietary method has been hailed by leading canine behavioral scientists and is being adopted by notable dog trainers, advocates, humane societies, and puppies behind bars programs across the country. For this liberating, revolutionary method to succeed, Arnold says, love really is all you need. Advance praise for *Love Is All You Need* "Jennifer Arnold, who has trained service dogs for the past twenty years for people with physical disabilities, offers a window into the world of 'man's best friend.' Arnold, who believes that dogs are attuned to their owner's needs and emotions, shares tips she thinks every dog owner should know."—ABC News "[Arnold] takes pride in facilitating the powerful relationship between every service dog and its owner—a bond that is as much about companionship and comfort as it is about health and safety."—Everyday Health "Within the world of dogs and canine behavior there are only a handful of people who truly 'move the needle' when it comes to innovation, novel approaches, and intuitive thinking—Jennifer Arnold is one of those rare few.

A NATIONAL BESTSELLER This beloved memoir "is an extraordinary, honest, nuanced and compassionate look at adoption, race in America and families in general" (Jasmine Guillory, *Code Switch*, NPR) What does it mean to lose your roots—within your culture, within your family—and what happens when you find them? Nicole Chung was born severely premature, placed for adoption by her Korean parents, and raised by a white family in a sheltered Oregon town. From childhood, she heard the story of her adoption as a comforting, prepackaged myth. She believed that her biological parents had made the ultimate sacrifice in the hope of giving her a better life, that forever feeling slightly out of place was her fate as a transracial adoptee. But as Nicole grew up—facing prejudice her adoptive family couldn't see, finding her identity as an Asian American and as a writer, becoming ever more curious about where she came from—she wondered if the story she'd been told was the whole truth. With warmth, candor, and startling insight, Nicole Chung tells of her search for the people who gave her up, which coincided with the birth of her own child. *All You Can Ever Know* is a profound, moving chronicle of surprising connections and the repercussions of unearthing painful family secrets—vital reading for anyone who has ever struggled to figure out where they

A set of tools for mastering the one skill standing between us and success: the ability to ask for the things we need to succeed. Imagine you're on a deadline for a big project, and feeling overwhelmed. Or you're looking for a job, but can't seem to get your foot in the door. Or you're dying for tickets to a sold out concert, and all your leads have gone cold. What do these problems have in common? They can all be solved simply by reaching out to a colleague, friend, or wider network and making an ask. Studies show that asking for help makes us better and less frustrated at our jobs. It helps us find new opportunities and new talent. It unlocks new ideas and solutions, and enhances team performance. And it helps us get the things we need outside the workplace as well. And yet, we rarely give ourselves permission to ask. Luckily, the research shows that asking—and getting—what we need is much easier than we tend to think. Here, Wayne Baker shares a set of strategies—used at companies like Google, GM, and IDEO—that individuals, teams, and leaders can use to make asking for help a personal and organizational habit, including:

- A quiz to identify your asking-giving style
- SMART criteria for who, when, and how to ask
- “Plug-and-play ” routines that make requests a standard component of meetings
- Mini-games that incentivize asking within teams
- The Reciprocity Ring, a guided activity that allows people to tap into the giving power of a network

Picking up where the bestselling book Give and Take left off, All You Have to Do Is Ask shows us how to ignite the cycle of giving and receiving by asking for the things we need. Advance praise for All You Have to Do Is Ask “Asking for help and support has been a key to my success. Wayne Baker expertly shares how everyone can

do it.”—Shellye Archambeau, former CEO, MetricStream, and board director, Verizon and Nordstrom “Wayne Baker shares the formula for driving personal, organizational, and social change by tapping the power of our teams and networks for help. This insightful book is a must-read for anyone seeking practical and proven solutions to make our workplaces and world a better place.”—Noel Tichy, professor, University of Michigan, and author of Judgment and Control Your Destiny or Someone Else Will

In a world filled with cynicism, few stand tall, carving their own path to success with courage, determination and grit. All You Need Is Josh brings to you stories of such unique individuals across India – of the aspiring astrophysicist who wanted to walk on the moon; the first person with a disability to top the civil services examinations; the domestic help who is now a published author; the army officer who amputated his own leg; the transgender woman who was expelled from her house; the Dalit child bride who now runs a business worth Rs1,000 crores, and many more. Filled with anecdotes and life-changing missives, these stories will remind you that it does not matter the circumstances into which one is born – what matters most is having the josh to overcome all odds and chase your dreams.

Most eco-friendly books start with terror-inducing lists of the carcinogenic chemicals you are liberally slathering all over every single surface in your house, painting most people as as unwitting eco-villains, happily Lysol-ing your way straight to hell. Well, readers can just relax and unpack the (plastic) bags – no guilt trips today! At this point I think we all know that cleaning with bleach is bad and pop cans should go into the recycling – we’re beyond that, yes? All You Need is Less is about realistically adopting

an eco-friendly lifestyle without either losing your mind from the soul-destroying guilt of using a plastic bag because you forgot your reusable ones in the trunk of your car (again), or becoming a preachy know-it all whom everyone loathes from the tips of her organically-shampooed hair to the toes of her naturally sourced recycled sandals. It's all gotten kind of complicated, hasn't it? These days you're not "green" enough unless you quit your day job and devote your entire life to attaining an entirely carbon neutral lifestyle or throw out all of your possessions and replace them with their new "green" alternatives. This whole eco-friendly thing seems to have devolved into a horrific cycle of guilt, shaming and one-upping, and as a result people are becoming exhausted and getting annoyed and, oh my god, we are living in a world where one of my grocery bags says "This reusable bag makes me better than you." It doesn't have to be this way. It is possible to take easy baby-steps towards a more earth-friendly lifestyle without stress, guilt, or judgy eco-shaming. Top eco blogger Madeleine Somerville is here with really original ideas on how to save money and the planet. Her ideas are even fun! Somerville has emerged as the voice of reason on urban homesteading that is stress-free, sanity-based and above all do-able. From the book: Stop Using Disgusting Dryer Sheets Do y'all know that most dryer sheets coat use animal fats to coat your clothes with that 'fresh' fragrance? Yeah. It's disgusting. Switch to wool dryer balls, they're simple to make (plus a fun craft project for kids) and they work like a hot damn. Use Jars Instead of Travel Mugs 1. You have old food jars hanging around anyway, why not make use of them? If they break or get lost, at least they were used one more time before reaching their final destination. I always get lots of compliments on my coffee jar.

incredible journey through India to bring Eastern spirituality to the Western world. Even before she arrived at the ashram of Maharishi Mahesh Yogi, founder of Transcendental Meditation, in Rishikesh, India, a city at the foothills of the Himalayas along the banks of the Ganges River, in 1962, Nancy Cooke de Herrera lived a lifetime of adventure. During the 1950s, she traveled the globe as a goodwill ambassador of the US State Department, giving lectures on American fashion, culture, and customs. But when her beloved husband, Luis, died, de Herrera sought a life of greater meaning. The Maharishi became her guru, mentor, and friend, and in return she served as his publicist, spreading his message of peace and love wherever she went. In this remarkable autobiography, with a foreword by Deepak Chopra, de Herrera recounts not only her international escapades but also her inner journey to spiritual enlightenment. Trained by the Maharishi, she returned home and taught meditation to troubled youth, HIV/AIDS patients, and celebrities such as Madonna, Sheryl Crow, and Greta Garbo. Her publicity efforts led to the explosion of interest in meditation, yoga, and Eastern spirituality in America. Rich in endearing anecdotes about life at the ashram with famous visitors, including the Beatles, Mia Farrow, and Mike Love, and pieces of timeless wisdom, *All You Need Is Love* reveals a life lived with compassion, open-mindedness, and the belief that one person can change the world.
