

Bad Female: Le Cattive Lo Fanno Meglio

Domestic devotion has become an increasingly important area of research in recent years, with the publication of a number of significant studies on the early modern period in particular. This Special Issue aims to build on these works and to expand their range, both geographically and chronologically. This collection focuses on lived religion and the devotional practices found in the domestic settings of late medieval and early modern Europe. More particularly, it investigates the degree to which the experience of personal or familial religious practice in the domestic realm intersected with the more public expression of faith in liturgical or communal settings. Its broad geographical range (spanning northern, southern, central and eastern Europe) includes practices related to Christianity, Judaism and Islam. This Special Issue will be of interest to historians, art historians, medievalists, early modernists, historians of religion, anthropologists and theologians, as well as those interested in the history of material religious culture. It also offers important insights into research areas such as gender studies, histories of the emotions and histories of the senses. Drawing upon Italy's distinct socio-cultural history as well as feminist and psychoanalytic approaches to film, Colleen Ryan-Scheutz explores the ways in which Pasolini's representations of women reveal his concerns about the corruption of modern society.

Claudio Monteverdi (1567-1643) was the first important composer of opera. This innovative study by one of the foremost experts on Monteverdi and seventeenth-century opera examines

the composer's celebrated final works—*Il ritorno d'Ulisse* (1640) and *L'incoronazione di Poppea* (1642)—from a new perspective. Ellen Rosand considers these works as not merely a pair but constituents of a trio, a Venetian trilogy that, Rosand argues, properly includes a third opera, *Le nozze d'Enea* (1641). Although its music has not survived, its chronological placement between the other two operas opens new prospects for better understanding all three, both in their specifically Venetian context and as the creations of an old master. A thorough review of manuscript and printed sources of *Ritorno* and *Poppea*, in conjunction with those of their erstwhile silent companion, offers new possibilities for resolving the questions of authenticity that have swirled around Monteverdi's last operas since their discovery in the late nineteenth century. *Le nozze d'Enea* also helps to explain the striking differences between the other two, casting new light on their contrasting moral ethos: the conflict between a world of emotional propriety and restraint and one of hedonistic abandon.

From Court to Forest is a critical and historical study of the beginnings of the modern literary fairy tale. Giambattista Basile's *Lo cunto de li cunti* written in Neapolitan dialect and published in 1634-36, comprises fifty fairy tales and was the first integral collection of literary fairy tales to appear in Western Europe. It contains some of the best known fairy-tales types, such as *Sleeping Beauty*, *Puss in Boots*, *Cinderella*, and others, many in their earliest versions. Although it became a central reference point for subsequent fairy tale writers, such as Perrault and the Grimms, as well as a treasure chest for folklorists, *Lo cunto de li cunti* has had relatively little attention devoted to it by literary scholars. *Lo cunto* constituted a culmination of the erudite interest in popular culture and folk traditions that permeated the Renaissance. But even if Basile drew from the oral tradition, he did not merely transcribe the popular materials he heard and gathered around Naples and in his travels. He transformed them into original tales distinguished by vertiginous rhetorical play, abundant representations of the rituals of everyday life and

the popular culture of the time, and a subtext of playful critique of courtly culture and the canonical literary tradition. This work fills a gap in fairy-tale and Italian literary studies through its rediscovery of one of the most important authors of the Italian Baroque and the genre of the literary fairy tale.

Carnefici o vittime? Delinquenti stereotipate oppure protagoniste letterarie di una violenza trasgressiva e anti-patriarcale? Sono solo alcuni dei punti di osservazione di questa indagine multidisciplinare sulla criminalità femminile. L'analisi empirica della delinquenza delle donne giudicate nei Tribunali di Milano e Ragusa si confronta con saperi extra-giuridici: dalla storia alla letteratura, dalla sociologia alla criminologia. Attraverso la ricchezza e la varietà dei punti di vista sulle motivazioni e sulla responsabilità delle donne autrici di reato, questo volume cerca di gettare un po' di luce su un fenomeno poco indagato.

This volume offers new approaches to considering Italy's traumatic experiences through a wide array of media, including film, documentaries, docufiction, websites, YouTube videos, advertisements, newspapers, and literature, that have not yet been fully analyzed. It looks at the trauma inflicted on Italians not, simply, as national or cultural traumas but, rather, as the creation/identification of subnational and transnational communities shaped by these trauma cases. The term "subnational", or "transnational", community is used mostly in reference to human beings, as they form those communities; however, they are also connected to a specific place, namely Italy. In addition, whereas "things" cannot become traumatized, this book also considers "living things," such as the environment and the nature, which may create further trauma(s) for people.

In recent years, Italian cinema has experienced a quiet revolution: the proliferation of films by women. But their thought-provoking work has not yet received the attention it deserves. Reframing Italy fills this gap. The book introduces readers to films and documentaries by recognized women directors such as Cristina Comencini, Wilma Labate, Alina Marazzi, Antonietta De Lillo, Marina Spada, and Francesca Comencini, as well as to filmmakers whose work has so far been undeservedly ignored. Through a thematically based analysis supported by case studies, Luciano and Scarparo argue that Italian women filmmakers, while not overtly feminist, are producing work that increasingly foregrounds female subjectivity from a variety of social, political, and cultural positions. This book, with its accompanying video interviews, explores the filmmakers' challenging relationship with a highly patriarchal cinema industry. The incisive readings of individual films demonstrate how women's rich cinematic production reframes the aesthetic of their cinematic fathers, re-positions relationships between mothers and daughters, functions as a space for remembering women's (hi)stories, and highlights pressing social issues such as immigration and workplace discrimination. This original and timely study makes an invaluable contribution to film studies and to the study of gender and culture in the early twenty-first century.

Picturing the Lame in Italian Art from Antiquity to the Modern Era

The presence of the orthopedically impaired body in art is so pervasive that, paradoxically, it has failed to attract the attention of most art historians. In *Picturing the Lame in Italian Art from Antiquity to the Modern Era*, Livio Pestilli investigates the changing meaning that images of individuals with limited mobility acquired through the centuries. This study evinces that in distinct opposition to the practice of classical artists, who manifested a lack of interest in the subject of lameness since it was considered 'a defect or a deformity' and deformity a 'want of measure, which is always unsightly,' their Early Christian counterparts depicted them profusely, because images of the miraculous healing of the lame became the reassuring sign of universal acceptance and the promise of a more equitable existence in this life or the next. In the Middle Ages, instead, when voluntary poverty came to be associated with the necessary condition of faithfulness to Christ, the indigent lame, along with others who were forced to beg for a living, became the image of the alter Christus. This view was to change in the Renaissance and Baroque periods, when, with the resurgence of classical and Pauline ideals that condemned the idle, representations of the orthopedically impaired became associated with swindlers, freeloaders and parasites. This fascinating story came basically to an end in the Eighteenth century when, with the revival of the Greek ideal of the Beautiful, the lame gradually left center stage to be relegated again to the margins of the visual arts.

Gritty and unflinching, yet also tender, fantastical, and funny, a trans woman's tale about finding a community on the margins. In Sarmiento Park, the green heart of Córdoba, a group of trans sex workers make their nightly rounds. When a cry comes from the dark, their leader, the 178-year-old Auntie Encarna, wades into the brambles to investigate and discovers a baby half dead from the cold. She quickly rallies the pack to save him, and they adopt the child into their fascinating surrogate family as they have so many other outcasts, including Camila. Sheltered in Auntie Encarna's fabled pink house, they find a partial escape from the everyday threats of disease and violence, at the hands of clients, cops, and boyfriends. Telling their stories—of a mute young woman who transforms into a bird, of a Headless Man who fled his country's wars—as well as her own journey from a toxic home in a small, poor town, Camila traces the life of this vibrant community throughout the 90s. Imbuing reality with the magic of a dark fairy tale, *Bad Girls* offers an intimate, nuanced portrait of trans coming-of-age that captures a universal sense of the strangeness of our bodies. It grips and entertains us while also challenging ideas about love, sexuality, gender, and identity.

La maschera dell'antieroe ripercorre l'evoluzione delle figure dell'universo supereroico – l'eroe, il villain, l'antieroe e l'eroina – indagando gli elementi chiave del genere e definendo gli aspetti filosofici che gli sono propri. Chiedersi chi sia il supereroe oggi non è una domanda circoscritta agli studi di cultura popolare, ma è un modo per comprendere meglio la società in cui viviamo; come nel mito antico ritroviamo archetipi familiari, similmente la moderna mitologia supereroica è uno specchio, più o meno deformato, del nostro mondo. Il riflesso che rimanda è quello di un Occidente in crisi, afflitto da catastrofi ecologiche, conflitti, scontri culturali, pandemie, nel quale verità e certezze vacillano. L'universo dei supereroi rispecchia tale crisi: i topoi dell'eroe puro e del mostro malvagio svaniscono e lasciano il posto a personaggi più ambigui e complessi. È l'era degli antieroi.

In Early Modern times, techniques of assembling, compiling and arranging pre-existing material were part of the established working methods in many arts. In the world of 18th-century opera, such practices ensured that operas could become a commercial success because the substitution or compilation of arias fitting the singer's abilities proved the best recipe for fulfilling the expectations of audiences. Known as »pasticcios« since the 18th-century, these operas have long been considered inferior patchwork. The volume collects essays that reconsider the pasticcio, contextualize it, define its preconditions, look at its material aspects and uncover its aesthetical principles.

The role of women in the Italian mafias has long been overlooked. Reduced to victim status and relegated to domestic life in a male-dominated society, women serve as the mafia's respectable facade: virtuous and docile. It is hard to picture these immaculate figures married to and raising brutal killers. But, as Milka Kahn and Anne V é ron reveal in this absorbing book, women have always been at the heart of Italy's criminal organizations, as the guarantors of mafia culture. While the men are behind bars or on the run, it is left to their wives and mothers to uphold and pass on the 'family values'. Once widowed, they push their sons to vendetta; they are increasingly becoming others become mafia chiefs in their own right. Yet many also decide to risk their lives and break with 'the Family', collaborating with the authorities and renouncing mafia society in search of a normal life. So who are these women? Are they pure Madonnas, or dangerous Godmothers? Women of Honor paints a complex and fascinating portrait through extremely rare interviews with the women themselves, who have overcome a culture of silence to share their extraordinary lives.
