Proving that Austin taste buds were thirsty for something more dynamic than a Lonestar, the end of the twentieth century and beginning of the twenty-first saw a huge

Goose Island opened as a family-owned Chicago brewpub in the late 1980s, and it soon became one of the most inventive breweries in the world. In the golden age of light, bland and cheap beers, John Hall and his son Greg brought European flavors to America. With distribution in two dozen states, two brewpubs and status as one of the 20 biggest breweries in the United States, Goose Island became an American success story and was a champion of craft beer. Then, on March 28, 2011, the Halls sold the brewery to Anheuser-Busch InBev, maker of Budweiser, the least craft-like beer imaginable. The sale forced the industry to reckon with craft beer's mainstream appeal and a popularity few envisioned.

On the night of April 17, 1945, Allied planes dropped 111 bombs on the Burghers' Brewery in Pilsen, Czechoslovakia, destroying much of the birthplace of pilsner, the world's most popular beer style and the best-selling alcoholic beverage of all time. Acitelli, author of the craft beer history The Audacity of Hops and the James Beard finalist American Wine, also pops the top on new insights into the pilsner style and into beer in general through a character-driven narrative that shows how pilsner influenced everything from modern-day advertising and marketing to today's craft beer movement.

This charming collection of 300 pubs explores what makes each one ooze atmosphere, be it food, people, architecture, location or décor, and looks at the quirks of local history as well as different trends and types of pub. Full of pen portraits of punters or publicans, legends, yarns and myths, this entertaining book
