

## Believe: Not Until You, Part 7 (Loving On The Edge Series)

I want my life to be read like a good story—a story that is eventful. I want my life to be so much more than just survival. I will not feel cheated on my deathbed and think, Is this all there is? I would hope you feel the same. I would also like to be the author of my own story. This is the exact opposite of being a victim, who must live a life authored by others. Statistics show that we grow older and older, but I question the content in many people's lives. It's not the years in your life that count; it's the life in your years! Many people live their lives based on old hypothesis which have been proven wrong. Through new neuroscience you will be guided to get an understanding on how the body and mind cooperates, so you can be able to fulfill your wishes and desires. Join me on a journey towards how you can create your own future.

Think Before You Think is about why you do what you do. It is about: • why you are happy in one moment, miserable the next and elated in another • why the rich get richer, sick get sicker and lucky get luckier. It is about: • understanding how you live in an artificially created reality • how to exit the matrix, your mind creates by thoughts and emotions • how to find clarity, confidence, and connection in your life and business. Think Before You Think explains why: • it's not WHAT you do • it's not HOW you do It's all about how you THINK and FEEL. 'It's not the things in your life, it's your thinking behind the things that shapes your destiny.' – Harish Gulati

**Knowledge is supreme and not the qualifications. The application of knowledge is more important than only knowledge itself. Otherwise, knowledge is like a lost treasure that has no value. The application can be multidimensional to achieve physical or intrinsic goals. We all use to hear Think-Big. Thinking big is important but thinking big can not bring success unless someone has very good knowledge and will-force to make it successful. Without these two qualities, only big thinking can put a person into bigger trouble than a bigger success. Needless to mention that vision is required to think big and knowledge is required to think deep. Though one of the articles in this book carries the same name as the book title but almost all articles are related to this thought which provokes and develop the deep thinking capability of a person. In this book, I have discussed many aspects of the qualities and knowledge one should have to perform well be he/she is in a job or an entrepreneur in the Sales and Marketing arena. Sales and Marketing is a hardcore area which directly earns money for the organisation as such the most favored positions in any organisation as well as the most challenging work for the organisation.**

Satan has placed highly trained and skilled taskmasters over you to afflict many with pain, low self-esteem, and a poverty mentality. A taskmaster is something or someone designed just for you, to keep you in bondage and an impoverished state of mind. The enemy wants to keep you immobile. You know what you want to do and what you need to do, but you can't function, because the enemy has left you paralyzed. Even though you want to move, and even though you have the strength to move, a voice inside your head keeps talking to you. It keeps saying the same thing over and over again. That voice is designed to keep the cycle of bad thoughts in your head. If we refuse to terminate the cycle and allow it to be passed down from generation to generation, you will keep producing stagnated, non-prospering offspring who will never progress in their spiritual walk. That's why it is so important to renew our minds with right thinking.

Think before You Think

Marriage is an institution that produces great challenges, and once you are in it, these challenges are inescapable. The impact of these challenges, negative or positive, can oftentimes be determined by the decisions made before marriage happens. In Think Again before You Say "I Do," author Leon Bogle discusses many of these issues that need to be addressed before entering into marriage. Bogle shares some of his personal experiences—ones that can help you avoid some of the pitfalls many have encountered because they didn't make the right decisions or have the necessary discussions before getting married. Written from a Christian perspective, with the Bible as its primary reference, this guide shows the importance of talking about everything from religion to finances, personal likes and dislikes, child rearing, and more. Think Again before You Say "I Do" communicates that meaningful discussions provide a road map for the future. When positive dialogue takes place and the individuals honor the agreements arrived at through those conversations, then the couple is more likely to experience the true joys of marriage.

If you live in a world of pessimism and negativity, that is exactly what you get. But if you live a life filled with hope and faith and think about wealth, prosperity, and luck guess what? You'll get those things instead. Vikki Ann Bless knows because she's seen these patterns in her own life. In this playbook to mastering life to get what you want, she shares how to: understand why you're facing unwanted events in life; eliminate unwanted annoyances that take up time; alleviate fears and frustrations that stress you out; and reframe the way you look at life to enjoy better outcomes. After reading the playbook, you'll be convinced that thinking about anger, hate, stress, worry, negativity, frustration, and other negative thoughts can have disastrous consequences. Sometimes, the repercussions may seem like accidents or bad luck, but it is often more complicated. Find out why you're facing so many problems, and change your luck once and for all with the insights and action steps in Think before You Think.

When was the last time you took a moment to pause and really think about your teaching? Think Before You Teach is purposefully full of questions: the openings of discussions to have, first with yourself and then, maybe later, with your colleagues. It doesn't promise all the answers. And it doesn't tell you what to teach. But it will ask you to think about why you want to teach and how you are going to teach. Arrive at school in the morning armed with a clear sense of why you are there and how you will have an impact on the hopes of your students. Regardless of government policies or school initiatives you remain the most important factor in the learning of your students. The students know it and they are looking to you for a lead. You are the key resource in the room; thinking about how to employ this resource is vital. Take a moment and give yourself that time and space to think. Teachers think about a lot on a daily basis: the curriculum, classroom practice, assessment, tests and exams, data, lesson planning etc. They think about Ofsted and policy and pressure. There are also the big things to think about. In a changing world what is our purpose as educators? Technology and the internet have changed the knowledge/skills debate. How do we equip digital natives for the future? What is your personal philosophy? To tackle these questions, teachers need hope, humour, imagination and motivation: Martin offers this in scores. For anybody thinking of entering the teaching profession, student teachers, teacher trainers, NQTs and teachers of all levels of experience. The book explores the various teacher training routes - School Direct, Teach First, PGCE - and the questions teachers should be asking about the path they have taken and their continuing professional development (CPD) needs. By raising questions about pedagogy, good practice, values and responsibilities, to name but a few, Martin encourages all teachers to become reflective practitioners and rediscover their passion.

She has him just where she wants him... Joelle Sommers is very good at her job as a PI and bail recovery agent, but she's definitely out of her element when she arrests sexy businessman Dean Colter in a case of mistaken identity. Because unlike her usual fugitives, Dean is cooperative, accommodating, and hot as sin . . . and not at all guilty as charged. But this bad boy isn't so innocent either, and she finds it increasingly hard to resist his seductive charm, and their mutual attraction. After years of working himself to the point of having no life outside the office, Dean Colter is in the mood for an adventure. But being kidnapped by a gorgeous bounty hunter—one he discovers is into bondage, to boot—isn't exactly what he had in mind. Still, it doesn't take long for him to realize that being a willing captive has its advantages. Jo might be the one with the handcuffs, but Dean's about to discover the key to unleashing the passionate,

uninhibited woman beneath the tough, stubborn facade. And when he does, all bets are off.
