

Born Of Embers (Phoenix Rising Book 1)

It is 741. After subduing the pagan religions in the east, halting the march of Islam in the west, and conquering the continent for the Merovingian kings, mayor of the palace Charles the Hammer has one final ambition—the throne. Only one thing stands in his way—he is dying. Charles cobbles together a plan to divide the kingdom among his three sons, betroth his daughter to a Lombard prince to secure his southern border, and keep the Church unified behind them through his friend Bishop Boniface. Despite his best efforts, the only thing to reign after Charles's death is chaos. His daughter has no intention of marrying anyone, let alone a Lombard prince. His two eldest sons question the rights of their younger pagan stepbrother, and the Church demands a steep price for their support. Son battles son, Christianity battles paganism, and Charles's daughter flees his court for an enemy's love. Based on a true story, Anvil of God is a whirlwind of love, honor, sacrifice, and betrayal that follows a bereaved family's relentless quest for power and destiny.

In the winter of 1873, a small band of prospectors lost their way in the frozen wilderness of the Colorado Rockies. Months later, when the snow finally melted, only one of them emerged. His name was Alfred G. Packer, though he would soon become infamous throughout the country under a different name: "the Man-Eater." After the butchered remains of his five traveling companions were discovered in a secluded valley by the Gunnison River, Packer vanished for nine years, becoming the West's most wanted man. What followed was a saga of evasion and retribution as the trial of the century worked to extricate fact from myth and Polly Pry, a once-famed pioneering journalist, took on the cause of Packer. Man-Eater is the definitive story of a legendary crime—a gripping tale of unspeakable suffering, the desperate struggle for survival, and the fight to uncover the truth.

"The Kolbrin Bible is a 2-part, 11-book secular anthology. The first six books are called the "Egyptian texts" and were penned by Egyptian academicians following the Hebrew Exodus. The last five books are called the "Celtic texts" and were penned by Celtic priests following the death of Jesus. Several accounts describe an object in orbit around our sun called the "Destroyer," which the Celtic authors call the "Frightener." According to recently translated Sumerian texts, this object (also known as Nibiru or Planet X) is in a 3600-year orbit around our sun, and The Kolbrin Bible warns us of its imminent return and of yet another Biblical tribulation." -- Amazon.com.

Born of Embers

Set during Ireland's devastating potato famine, a spellbinding novel of a young woman torn between love for her family and duty to her English husband. Patrick O'Malley names his newborn daughter Gracelin for the light of the sea that shines in her eyes. But when young Gracelin is only six years old, her mother's untimely death drains joy and laughter from the O'Malley clan. At fifteen, Gracelin saves her family from financial ruin by marrying Bram Donnelly, the son of a wealthy English landowner. But, even though Gracelin is Protestant, she is snubbed by English high society for marrying above her station. To temporarily appease her husband's cruel nature, she intends to provide him with an heir—but that, too, will end in sorrow. As famine sweeps Ireland, Gracelin openly defies her husband by feeding the desperate souls who come to their door. In secret, she also sides with the rebels who call themselves the Young Irelanders. Led by Morgan McDonagh and joined by Gracelin's beloved brother, Sean, the Irelanders are determined to fight and free their homeland from the yoke of English rule. A vivid chronicle of nineteenth-century Ireland, the first volume of Ann Moore's popular trilogy introduces a courageous young heroine and movingly portrays an indomitable people as they struggle to survive the infamous famine and the brutal civil war that arrived in its wake. Fans of gripping historical fiction will love this "epic saga that sweeps you into the life of a remarkable woman" (Romantic Times).

From the internationally bestselling author of Sarah comes the riveting story of the remarkable woman who walked beside Moses. Although she is a Cushite by birth—one of the people of the lands to the south—Zipporah grew up as the beloved daughter of Jethro, high priest and sage of the Midianites. But the color of Zipporah's skin sets her apart, making her an outsider to the men of her adopted tribe, who do not want her as a wife. Then one day while drawing water from a well, she meets a handsome young stranger. Like her, he is an outsider. A Hebrew raised in the house of the Egyptian Pharaoh, Moses is a fugitive, forced to flee his homeland. Zipporah realizes that this man will be the husband and partner she never thought she would have. Moses wants nothing more than a peaceful life with the Midianites, but Zipporah won't let Moses forget his past—or turn away from his true destiny. She refuses to marry him until he returns to Egypt to free his people. When God reveals himself to Moses in a burning bush, his words echo Zipporah's, and Moses returns to Egypt with his passionate and generous wife by his side. A woman ahead of her time, Zipporah leaps from the pages of this remarkable novel. Bold, independent, and a true survivor, she is a captivating heroine, and her world of

deserts, temples, and ancient wonders is a fitting backdrop to an epic tale.

Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents.

An “insightful cultural history of the mythical, self-immolating bird” from Ancient Egypt to contemporary pop culture by the author of *The Book of Gryphons* (Library Journal). The phoenix, which rises again and again from its own ashes, has been a symbol of resilience and renewal for thousands of years. But how did this mythical bird come to play a part in cultures around the world and throughout human history? Here, mythologist Joseph Nigg presents a comprehensive biography of this legendary creature. Beginning in ancient Egypt, Nigg’s sweeping narrative discusses the many myths and representations of the phoenix, including legends of the Chinese, where it was considered a sacred creature that presided over China’s destiny; classical Greece and Rome, where it appears in the writings of Herodotus and Ovid; medieval Christianity, in which it came to embody the resurrection; and in Europe during the Renaissance, when it was a popular emblem of royals. Nigg examines the various phoenix traditions, the beliefs and tales associated with them, their symbolic and

metaphoric use, and their appearance in religion, bestiaries, and even contemporary popular culture, in which the ageless bird of renewal is employed as a mascot and logo. “An exceptional work of scholarship.”—Publishers Weekly

An ambitious and mesmerizing novel from the bestselling author of Rules of Magic. *The Dovekeepers* is “striking...Hoffman grounds her expansive, intricately woven, and deepest new novel in biblical history, with a devotion and seriousness of purpose” (Entertainment Weekly). Nearly two thousand years ago, nine hundred Jews held out for months against armies of Romans on Masada, a mountain in the Judean desert. According to the ancient historian Josephus, two women and five children survived. Based on this tragic and iconic event, Hoffman’s novel is a spellbinding tale of four extraordinarily bold, resourceful, and sensuous women, each of whom has come to Masada by a different path. Yael’s mother died in childbirth, and her father, an expert assassin, never forgave her for that death. Revka, a village baker’s wife, watched the murder of her daughter by Roman soldiers; she brings to Masada her young grandsons, rendered mute by what they have witnessed. Aziza is a warrior’s daughter, raised as a boy, a fearless rider and expert marksman who finds passion with a fellow soldier. Shirah, born in Alexandria, is wise in the ways of ancient magic and medicine, a woman with uncanny insight and power. The lives of these four complex and fiercely independent women intersect in the desperate days of the siege. All are dovekeepers, and all are also keeping secrets—about who they are, where they come from, who fathered them, and whom they love.

A general’s daughter... Coming of age on the perilous frontier of revolutionary New York, Elizabeth Schuyler champions the fight for independence. And when she meets Alexander Hamilton, Washington’s penniless but passionate aide-de-camp, she’s captivated by the young officer’s charisma and brilliance. They fall in love, despite Hamilton’s bastard birth and the uncertainties of war. A founding father’s wife... But the union they create—in their marriage and the new nation—is far from perfect. From glittering inaugural balls to bloody street riots, the Hamiltons are at the center of it all—including the political treachery of America’s first sex scandal, which forces Eliza to struggle through heartbreak and betrayal to find forgiveness. The last surviving light of the Revolution... When a duel destroys Eliza’s hard-won peace, the grieving widow fights her husband’s enemies to preserve Alexander’s legacy. But long-buried secrets threaten everything Eliza believes about her marriage and her own legacy. Questioning her tireless devotion to the man and country that have broken her heart, she’s left with one last battle—to understand the flawed man she married and imperfect union he could never have created without her...

Herodotus's *Account of Egypt* is the second book of the *Histories*, which contains descriptions of the marvels of the south: the size of the land, the wonders of the Nile, the religious ceremonies which will be as fascinating to the modern reader as it was to the ancient. From the priests at Memphis, Heliopolis, and the Egyptian Thebes he learned what he reports of the size of the country, the wonders of the Nile, the ceremonies of Egyptian religion, their sacred animals, the Crocodile and the Phoenix, their funerals and embalming, lotus and papyrus eating, the great kings and queens, and of the pyramids. Keep in mind that to Herodotus and the ancient Greeks, Egypt essentially was Africa - primitive maps show an ocean on all sides of the mysterious land to the south; so to understand this place was to know much of the world.

This is the book that started it all! The basis for the smash hit Tony Award-winning Broadway musical, Gregory Maguire's breathtaking New York Times bestseller Wicked views the land of Oz, its inhabitants, its Wizard, and the Emerald City, through a darker and greener (not rosier) lens. Brilliantly inventive, Wicked offers us a radical new evaluation of one of the most feared and hated characters in all of literature: the much maligned Wicked Witch of the West who, as Maguire tells us, wasn't nearly as Wicked as we imagined.

Exploring the intersection of Rogers' educational philosophy and the rise of technical institutes in America, this biography offers a long-overdue account of the man behind MIT.

A fresh argument for rioting and looting as our most powerful tools for dismantling white supremacy Looting--a crowd of people publicly, openly, and directly seizing goods--is one of the more extreme actions that can take place in the midst of social unrest. Even self-identified radicals distance themselves from looters, fearing that violent tactics reflect badly on the broader movement. But Vicky Osterweil argues that stealing goods and destroying property are direct, pragmatic strategies of wealth redistribution and improving life for the working class--not to mention the brazen messages these methods send to the police and the state. All our beliefs about the innate righteousness of property and ownership, Osterweil explains, are built on the history of anti-Black, anti-Indigenous oppression. From slave revolts to labor strikes to the modern-day movements for climate change, Black lives, and police abolition, Osterweil makes a convincing case for rioting and looting as weapons that bludgeon the status quo while uplifting the poor and marginalized. In Defense of Looting is a history of violent protest sparking social change, a compelling reframing of revolutionary activism, and a practical vision for a dramatically restructured society.

The Financial Crisis Inquiry Report, published by the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state.
