Whether you are planning a passion budget, figuring out how to finally purchase that big-ticket item, or thinking about taking your first dip into investing, Conor will show you the way.

A no-holds-barred guide to prosperity by a host of Big Spender describes his disadvantaged youth and experience with bankruptcy, sharing his philosophies about personal accountability that enabled him to become a multi-millionaire.

Does fear and insecurity keep you from looking at your bank account? Is your financial anxiety holding you captive? You don't have to stress about money anymore. YOU can take back control. As a newly divorced single mom making \$24,000 per year and facing down \$77,000 in debt, Kumiko Love worried constantly about money. She saw what other moms had--vacations, birthday parties, a house full of furniture--and felt ashamed that she and her son lived in a small apartment and ate dinner on the floor. Worse, when her feelings began to exhaust her, she binge-shopped, reasoning that she'd feel better after a trip to the mall. On the day she needed to pay for a McDonald's ice cream cone without her credit card, she had an epiphany: Money is not the problem. Self-Doubt is the problem. Shame is the problem. Guilt is the problem. Society's expectations for her are the problem. She is the solution. Once she reversed the negative thinking patterns pushing her toward decisions that didn't serve her values or goals, her financial plan wrote itself. Now, she's not only living debt-free in her dream home, which she paid for in cash, but she has spread her teachings around the world and helped countless women envision better lives for themselves and their families. Now, building on the lessons she's taught millions as the founder of The Budget Mom, she shares a step by step plan for taking control back over your financial life--regardless of your level of income or your credit card balance. Through stories from navigating divorce to helping clients thrive through recessions, depression, eviction, layoffs and so much more, you will learn foundational practices such as: How to use your emotions to your financial advantage, instead of letting them control you How to create a budget based on your real life, not a life of self-denial How to create a motivating debt pay-off plan that makes you excited about your future, instead of fearing it My Money My Way will give you the tools to align your emotional health with your financial health--to let go of deprivation and embrace desire. Love's paradigm-shifting system will teach you how to honor your unique personal values, driving emotions, and particular needs so that you can stop worrying about money and start living a financially fulfilled life.

All real estate agents share one thing in common: we're all striving to get to the NEXT LEVEL of personal and professional success. We want to take our lives, our businesses, and our selves to the next level. What if you could get there, faster than you ever thought possible, by simply changing how you start your day? The Miracle Morning for Real Estate Agents beautifully blends strategy and inspiration in an enlightening parable from the bestselling authors of The Miracle Morning, (7L) The Seven Levels of Communication, and The New Rise in Real Estate. This book takes you on a journey into the lives of real estate agent Rick Masters and mortgage professional Michelle Phillips. Rick and Michelle face new challenges as the demands of their industry have left them stressed, overweight, and unfulfilled. Something has to change. They attend an event and meet other agents who have transformed their lives. Although Michelle is optimistic, Rick is skeptical. Little does Rick know, there really is a not-so-obvious secret that will transform your life in just 30 days. Discover it for yourself as you join Rick and Michelle on their life-changing journey. You'll learn how 30 days from today YOUR life and business can be everything you've always dreamed. It's your time to rise and shine!

Nine Steps to Financial Freedom

An illustrated, practical guide to navigating your financial life, no matter your financial situation "a potent mix of deeply practical and wonderfully empathetic" --Erin Lowry, author of Broke Millennial "one of the most approachable financial books I've ever read." --Refinery 29 We are all weird about money. Whether you have a lot or a little, your feelings and beliefs about money have been shaped by a combination of silence (or even shame) around talking about money, personal experiences, family and societal expectations, and a whole big complex system rigged against many of us from the start. Begin with that baseline premise and it's no surprise so many of us find it so difficult to save enough money (but way too easy to get trapped in ballooning credit card debt), emotionally draining to deal with student loans, and nearly impossible to understand the esoteric world of investing. Unlike most personal finance books that focus on skills and behaviors, FINANCE FOR THE PEOPLE asks you to examine your beliefs and experiences around money--blending extremely practical exercises with mindfulness, and including more than 50 illustrations and diagrams to make the concepts accessible (and even fun). With deep insider expertise from years spent in many different corners of the financial industry, Paco de Leon is a friendly, approachable, and wise guide who invites readers to change their relationship with money. With her holistic approach you'll learn how to: • root out your unconscious beliefs about money • untangle the mental and emotional burden of student loans to pay them off • use a gratitude practice to help you think differently about spending • break out of the debt cycle and begin building wealth This book is for anyone who feels unseen, ignored, or bored to death by the way personal finances are approached and taught, and is ready to go on a journey of self-discovery and step into their financial power.

The United States has two separate banking systems today--one serving the well-to-do and another exploiting everyone else. How the Other Half Banks contributes to the growing conversation on American inequality by highlighting one of its prime causes: unequal credit. Mehrsa Baradaran examines how a significant portion of the population, deserted by banks, is forced to wander through a Wild West of payday lenders and check-cashing services to cover emergency expenses and pay for necessities--all thanks to deregulation that began in the 1970s and continues decades later. "Baradaran argues persuasively that the banking industry, fattened on public subsidies (including too-big-to-fail bailouts), owes low-income families a better deal..How the Other Half Banks is well researched and clearly written...The bankers who fully understand the system are heavily invested in it. Books like this are written for the rest of us." --Nancy Folbre, New York Times Book Review "How the Other Half Banks tells an important story, one in which we have allowed the profit motives of banks to trump the public interest." --Lisa J. Servon, American Prospect

Debtors have been mocked, scolded and lied to for decades. We have been told that it is perfectly normal to go into debt to get medical care, to go to school, or even to pay for our own incarceration. We've been told there is no way to change an economy that pushes the majority of people into debt while a small minority hoard wealth and power. The coronavirus pandemic has revealed that mass indebtedness and extreme inequality are a political choice. In the early days of the crisis, elected officials drew up plans to spend trillions of dollars. The only question was: where would the money go and who would benefit from the bailout? The truth is that there has never been a lack of money for things like housing, education and health care. Millions of people never needed to be forced into debt for those things in the first place. Armed with this knowledge, a militant debtors movement has the potential to rewrite the contract and assure that no one has to mortgage their future to survive. Debtors of the World Must Unite. As isolated individuals, debtors have little influence. But as a bloc, we can leverage our debts and devise new tactics to challenge the corporate creditor class and help win reparative, universal public goods. Individually, our debts overwhelm us. But together, our debts can make us powerful.

☐Humorous and forthright...[Gaby] Dunn makes facing money issues seem not only palatable but possibly even fun....Dunn's book delivers.☐Publishers Weekly The beloved writer-comedian expands on her popular podcast with an engaging and empowering financial literacy book for Millennials and Gen Z. In the first episode of her [Bad With Money] podcast, Gaby Dunn asked patrons at a coffee shop two questions: First, what's your favorite sex position? Everyone was game to answer, even the barista. Then, she asked how much money was in their bank accounts. People were aghast. [That] is a very personal question,] they insisted. And therein lies the problem. Dunn argues that our inability to speak honestly about money is our #1 barrier to understanding it, leading us to feel alone, ashamed and anxious, which in turns makes us feel even more overwhelmed by it. In Bad With Money, she reveals the legitimate, systemic reasons behind our feeling of helplessness when it comes to personal finance, demystifying the many signposts on the road to getting our financial sh\*t together, like how to choose an insurance plan or buy a car, sign up for a credit card or take out student loans. She speaks directly to her audience, offering advice on how to make that #freelancefy work for you, navigate money while you date, and budget without becoming a Nobel-winning economist overnight. Even a topic as notoriously dry as money becomes hilarious and engaging in the hands of Dunn, who weaves her own stories with the perspectives of various comedians, artists, students, and more, arguing that even without selling our bodies to science or suffering the indignity of snobby thrift shop buyers, we can all start taking control of our financial futures.

☐The newbie investor will not find a better guide to personal finance.☐Burton Malkiel, author of A RANDOM WALK DOWN WALL STREET TV analysts and money managers would have you believe your finances are enormously complicated, and if you don't follow their guidance, you'll end up in the poorhouse. They're wrong. When University of Chicago professor Harold Pollack interviewed Helaine Olen, an award-winning financial journalist and the author of the bestselling Pound Foolish, he made an offhand suggestion: everything you need to know about managing your money could fit on an index card. To prove his point, he grabbed a 4" x 6" card, scribbled down a list of rules, and posted a picture of the card online. The post went viral. Now, Pollack teams up with Olen to explain why the ten simple rules of the index card outperform more complicated financial strategies. Inside is an easy-to-follow action plan that works in good times and bad, giving you the tools, knowledge, and confidence to seize control of your financial life.

A guide to investing basics by the author of Broke Millennial, for anyone who feels like they aren't ready (or rich enough) to get into the market Millennials want to learn how to start investing. The problem is that most have no idea where to begin. There's a significant lack of information out there catering to the concerns of new millennial investors, such as: \* Should I invest while paying down student loans? \* How do I invest in a socially responsible way? \* What about robo-advisors and apps--are any of them any good? \* Where can I look online for investment advice? In this second book in the Broke Millennial series, Erin Lowry answers those questions and delivers all of the investment basics in one easy-to-digest package. Tackling topics ranging from common terminology to how to handle your anxiety to retirement savings and even how to actually buy and sell a stock, this hands-on guide will help any investment newbie become a confident player in the market on their way to building wealth.

Bobbi Rebell, award-winning TV anchor and personal finance columnist at Thomson Reuters, taps into her exclusive network of business leaders to share with you stories of the financial lessons they learned early in their lives that helped them become successful. She then uses these stories as jumping off points to offer specific, actionable advice on how you can become a financial grownup just like them. Financial role models such as Author Tony Robbins, Entrepreneur Ivanka Trump, Shark Tank's Kevin O'Leary, Mad Money's Jim Cramer, Designer Cynthia Rowley, Macy's CEO Terry Lundgren, Zillow's CEO Spencer Rascoff, PwC's CEO Bob Moritz, and twenty others share their stories with you. The book walks you through some of the biggest money decisions you'll make regarding real estate, investing, debt management, careers, friends and money, family finances, and even health and wellness. You're guided by proven examples and given the information you need to make choices that are right for you. How to Be a Financial Grownup will especially appeal to you if you're interested in new ideas to better manage your finances, especially if you're going through life changes where you have to pay more attention to your financial well-being.

Get your finances in order with smart budgeting and money mindfulness You Only Live Once is the guide to achieving your best life through smart money moves. Before you even begin making a budget, you need to think about why. Where do you see yourself financially in ten years? Five years? This time next year? What does money do for you? Once you know your destination, you can begin charting your course. Step-by-step guidance walks you through the budgeting process, and shows you how to plan your financial path to point toward your goals. You'll learn how to prioritize spending, how to save efficiently, and how to take advantage of simple tools you didn't know you had. Next comes the most important part: taking control. You need to really look at how you perceive and use money day-to-day. Chances are, changing a few habits could give you some breathing room and help you reach your goals sooner. You work hard for your money, yet there never seems to be enough. You don't need to live like a pauper, but you need to be truly aware of just where your money is going, and why. Financial awareness is the key to a financially secure future, and this book unpacks it all to help you get where you want to go. Accept past decisions and articulate your financial goals Align your lifestyle with your budget Explore your relationship with money Re-evaluate financial habits and behaviors You know you need a budget, but you never seem to get around to doing it. Or maybe you did, but you can never seem to stick to it. Smart planning is a major factor in financial security, and it involves just as much introspection as math. You Only Live Once is more than a budgeting guide—it's a guide to revamping your financial behaviors to achieve the life you want.

Addresses personal finance issues that are of relevance to today's world of high debt and disproportionate lifestyles, addressing such topics as credit cards, student loans, credit scores, insurance, and mortgages.

New York Times Bestseller “We all want to raise children with good values—children who are the opposite of spoiled—yet we often neglect to talk to our children about money. . . . From handling the tooth fairy, to tips on allowance, chores, charity, checking accounts, and part-time jobs, this engaging and important book is a must-read for parents.” — Gretchen Rubin, author of The Happiness Project In the spirit of Wendy Mogel's The Blessing of a Skinned Knee and Po Bronson and Ashley Merryman's Nuture Shock, New York Times “Your Money” columnist Ron Lieber delivers a taboo-shattering manifesto that explains how talking openly to children about money can help parents raise modest, patient, grounded young adults who are financially wise beyond their years For Ron Lieber, a personal finance columnist and father, good parenting means talking about money with our kids. Children are hyper-aware of money, and they have scores of questions about its nuances. But when parents shy away from the topic, they lose a tremendous opportunity—not just to model the basic financial behaviors that are increasingly important for young adults but also to imprint lessons about what the family truly values. Written in a warm, accessible voice, grounded in real-world experience and stories from families with a range of incomes, The Opposite of Spoiled is both a practical guidebook and a values-based philosophy. The foundation of the book is a detailed blueprint for the best ways to handle the basics: the tooth fairy, allowance, chores, charity, saving, birthdays, holidays, cell phones, checking accounts, clothing, cars, part-time jobs, and college tuition. It identifies a set of traits and virtues that embody the opposite of spoiled, and shares how to embrace the topic of money to help parents raise kids who are more generous and less materialistic. But The Opposite of Spoiled is also a promise to our kids that we will make them better with money than we are. It is for all of the parents who know that honest conversations about money with their curious children can help them become more patient and prudent, but who don't know how and when to start.

Are you tied to a nine-to-five workweek? Would you like to "retire" from wage-paying work within ten years? Are you in your 20s or 30s and would like to be financially free?the sort of free that ensures you spend the best part of your day and week, and the best years of your life, doing what you want? Building wealth is always possible, even while working full-time, earning a median income, and making up for a negative net worth. Accumulating a lifetime of wealth in a short period of time involves working harder and smarter than the average person, and Scott Trench--investor, entrepreneur, and CEO of BiggerPockets.com--demonstrates how to do just that. Even starting with zero savings, he demonstrates how to work your way to five figures, then to six figures, and finally to the ultimate goal of financial freedom. Wealth isn't just about a nest egg, setting aside money for a "rainy day" or accumulating an emergency fund. True wealth is about building out a Financial Runway?creating enough readily accessible wealth that you can survive without work for a year. Then five years. Then for life. Readers will learn how to: Save more income--50+ percent of it, while still having fun Double or triple your income in three to five years Track your financial progress in order to achieve the greatest results Build frugal and efficient habits to make the most of your lifestyle Secure "real" assets and avoid "false" ones that destroy wealth

From America's most trusted financial advisor comes a comprehensive guide to a new and utterly sane financial choice. In Die Broke, you'll learn that life is a game where the loser gives his money to Uncle Sam at the end. There are four steps to the process: Quit Today No, don't tell your boss to shove it...at least not out loud. But in your head accept that from this day on you're a free agent whose number one workplace priority is your personal bottom line. Pay Cash You should be as conscious of spending as you are of saving. Credit should be a rarely used tool for those few times (buying homes and cars) when paying cash is impossible. Don't Retire Your work life should be a journey up and down hills, rather than a climb up a sheer cliff that ends with a jump into the abyss. Die Broke It sounds terrifying, the one intolerable outcome to your financial life. And yet, in truth, dying broke might be your best option for a life without fear: fear of failure and privation now, fear of impoverishment in the long run.
