Date Rape (Issues That Concern You)

On average, children are around the age of twelve when they receive their first mobile device. We are ready and excited to welcome technology into our lives, but it doesn't come without controversy. Editor Jill Hamilton has arranged several fascinating essays that explain the issues relating to electronic device use in schools. Does YouTube belong in the classroom? Does the cell phone ban need rethinking? Should laptops for all be a standard? Do electronic devices enable bullying? These provocative questions are answered in this book.
Date rape is forced or coerced sex between partners, dates, friends, friends of friends or general acquaintances. According to experts, many date rape victims do not immediately realize they've been raped. They blame a “misunderstanding” or “mixed signals” for what happened to them. This absolutely essential volume of personal accounts and essays will make controversies regarding date rape much less fuzzy. It presents diversity of opinion on each topic, including both conservative and liberal points of view, in an even balance. Readers will learn what defines date rape, and how it impacts people, schools, and towns. Readers will evaluate areas and situations that may be likely scenes of date rape and other contributing factors. They will evaluate whether the way a woman dresses is a cause for concern, and whether tests for date rape drugs have advantages or disadvantages.
Teens who are victims of dating abuse are subject to long-term consequences such as alcoholism, eating disorders, promiscuity, thoughts of suicide, and violent behavior. Editor Jill Hamilton has carefully collected essays and personal accounts that will help readers understand issues relating to date rape. Readers will evaluate its causes, situations and behaviors that may be of concern, and how to prevent it from happening. This book features a listing of organization to aid readers in addressing the issue in their own lives.
EBONY is the flagship magazine of Johnson Publishing. Founded in 1945 by John H. Johnson, it still maintains the highest global circulation of any African American-focused magazine.

My dissertation is an examination of the controversial topic of date rape, established as an issue of grave concern by feminists in the seventies. In the ensuing two decades, date rape discourse and debates proliferated at a variety of sites, including established institutions like the university and in popular culture media such as daytime television talk shows and made-for-television movies. Using a materialist feminist methodological framework that draws on the work of Nancy Fraser, Lynne Segal and Maria Mies, Chapter One traces the coalescence of date rape as a concept to sixties and seventies "second wave" feminists. My argument begins this chapter as an interrogation of "rape theory" put forth by these feminists. The broad shift from collective materialist feminism to cultural feminism occurring at this time sets up a troublesome victim-centered concentration that can be seen through date rape's many instantiations. Chapter Two establishes the feminist intellectual and historical context out of which date rape emerges in the eighties, in part by looking at the organization of the rape crisis center, the Ms. articles that propelled the issue toward a wider audience, and the process of institutionalization in the academy. Chapter Three engages close readings of videos, produced at various universities, intended to instruct college students how to prevent date rape. Chapters Four and Five examine the television genres of the daytime talk show and the made-for-television movie, two venues which mobilize date and acquaintance rape discourse in the service of therapeutic issues and victims' rights, respectively. Through this broad but not exhaustive survey of rape discourse, I contend that date rape has been constructed as a classed issue, acknowledging only the victimage of middle-class young (and pretty) white women, and that the repetitive victim focus deflects attention away from potential perpetrators, thus reproducing a patriarchal structure that is well known: women are responsible when and where blame is to be assigned.
Adopting an interdisciplinary framework in recognition of the range of domestic and institutional settings in which elder abuse can occur, this book both explains the nature of this under-reported and little understood problem and addresses the vital question of how practitioners can best work towards its prevention. Locating elder abuse in a spectrum of family violence, the book gives a balanced account of relevant perspectives on it, drawn from the medical, legal, health and social welfare spheres.
In universities and colleges across the country, feminists are debating their histories and future legacies. Some older feminists accuse younger ones of being overly theoretical, insufficiently political, and ungrateful to previous generations. The younger ones consider their foremothers naive or elitist. GENERATIONS explores these conflicts and challenges between older and younger feminist scholars.
Essays debate the best ways to prevent date rape, discussing the role of the man and the woman in rape.

Transnational Perspectives
This edited collection asks how key New Zealand judgments might read if they were written by a feminist judge. Feminist judging is an emerging critical legal approach that works within the confines of common law legal method to challenge the myth of judicial neutrality and illustrate how the personal experiences and perspectives of judges may influence the reasoning and outcome of their decisions. Uniquely, this book includes a set of cases employing an approach based on mana wahine, the use of Maori values that recognise the complex realities of Maori women's lives. Through these feminist and mana wahine judgments, it opens possibilities of more inclusive judicial decision making for the future. 'This Project stops us in our tracks and asks us: how could things have been different? At key moments in our legal history, what difference would it have made if feminist judges had been at the tiller? By doing so, it raises a host of important questions. What does it take to be a feminist judge? Would we want our judges to be feminists and if so why? Is there a uniquely female perspective to judging?' Professor Claudia Geiringer, Faculty of Law, Victoria University of Wellington 'With this book, some of our leading jurists expose the biases and power structures that underpin legal rules and the interpretation of them. Some also give voice to mana wahine perspectives on and about the law that have become invisible over time, perpetuating the impacts of colonialism and patriarchy combined on Maori women. I hope this book will be a catalyst for our nation to better understand and then seek to ameliorate these impacts.' Dr Claire Charters, Associate Professor, Faculty of Law, University of Auckland 'The work is highly illuminating and is critical to the development of our legal system ... It is crucial, not only for legal education, so that students of the law open their minds to the different ways legal problems can be conceptualised and decided. It is also crucial if we are going to have a truly just legal system where all the different voices and perspectives are fairly heard.' Professor Mark Henaghan, Dean of the Faculty of Law, University of Otago 'I believe this project is particularly important, as few academics or researchers in New Zealand concentrate on judicial method. I am therefore hopeful that it will provoke thoughtful debate in a critical area for society.' The Honourable Justice Helen Winkelmann, New Zealand Court of Appeal
"As a good encyclopedia does, the Encyclopedia of Murder and Violent Crime brings together articles that offer diverse insights into the topic, while at the same time giving the reader a feel for its overall scope." --AGAINST THE GRAIN This comprehensive single-volume encyclopedia contains a wealth of material on killing and other violent behavior, as well as detailed information on a host of criminal cases from local decisions to Supreme Court rulings. The Encyclopedia of Murder and Violent Crime includes nearly 500 entries that range from Antisocial Personality Disorder and the Beltway Snipers to the infamous Zodiac Murders. Entries take several formats, including: substantial essays on criminal terms, pathologies, and criminal justice concise case studies of serial murderers, infamous crimes, and their investigations relatively brief definitions of relevant legal and criminological terms. The Encyclopedia is written by an impressive group of contributors, many leading experts in their fields of criminology, criminal justice, and more. Extra features such as a handy, easy-to-use Reader's Guide, a lavish art program of approximately 50 photographs, and several appendixes enhance and complete the volume. This valuable reference is designed for academic, school, public, and special/private libraries as well as criminal justice agencies.
This book examines the representation, impact, and issues relating to the control and regulation of sex in the media. It covers work that has been conducted around the world on the depiction of sex in the mainstream mass media, especially the audio-visual media of film, television, and video, and the alleged effects that such content may have upon media consumers. In addition to reviewing the research on the effects of media sex, the book also examines what is known about public opinion concerning sex in the media. A key theme running through the book is whether the evidence about media sex can be taken at face value. Are the methodologies used by researchers to investigate media sex problematic? Have they yielded data that can be questioned in terms of validity and reliability? Media Sex questions whether media sex poses a serious problem for most viewers of mainstream media. It acknowledges that there may be serious issues relating to the causation of public offense and the cultivation of anti-women attitudes and beliefs that need to be addressed in productions where more extreme forms of sexual conduct are combined with violent and sadistic behavior. With the unrelenting growth of media, media consumers demand and are given greater personal control over the reception of media content. The notion of freedom of speech conflicts with the view that media content needs to be centrally regulated and controlled. This conflict creates problems for regulatory organizations and the legislators in nation states in which freedom of the press is legally protected. The book examines the debate surrounding this conflict.
Gender, Sex, and Politics: In the Streets and Between the Sheets in the 21st Century includes twenty-seven chapters organized into five sections: Gender, Sexuality and Social Control; Pornography; Sex and Social Media; Dating, Desire, and the Politics of Hooking Up; and Issues in Sexual Pleasure and Safety. This anthology presents these topics using a point-counterpoint-different point framework. Its arguments and perspectives do not pit writers against each other in a binary pro/con debate format. Instead, a variety of views are juxtaposed to encourage critical thinking and robust conversation. This framework enables readers to assess the strengths and shortcomings of conflicting ideas. The chapters are organized in a way that will challenge cherished beliefs and hone both academic and personal insight. Gender, Sex, and Politics is ideal for sparking debates in intro to women’s and gender studies, sexuality, and gender courses.

This essential volume helps readers address their thoughts and questions in relation to smoking. It examines the effect of smoking on health, how advertising and movies contribute to adolescent smoking, and government policies regarding cigarette advertising and taxes. Essays are provided in a pro versus con format so that readers are given multiple perspectives on the issues. This allows them to activate their critical thinking skills while examining this important topic.
This timely volume shows how abuse impacts every segment of society—and how society is seeking effective ways to respond. • Offers an introductory essay that places the subject in context and provides a framework within which to study and understand abuse • Features entries from leading scholars who provide a contemporary approach to the issues • Covers a wide range of types of abuse, individuals and organizations affected by abuse, and people working to reduce and eliminate abuse • Includes summaries of laws that apply to various forms of abuse • Provides a "topic finder" to assist readers in locating information relative to particular types of abuse
According to the National Youth Violence Prevention Resource Center, the number of youth gangs throughout the U.S. tops 24,500. The number of teens and young adults involved in gang activity is higher than 772,500. Gangs offer these young people many things that their home, school, and work life do not. There are unfortunate, compelling reasons why they're in gangs, and why they cannot get out once they've become a member. Editor Peggy Daniels has compiled several fascinating essays that discuss the problems of gangs in America. Readers will explore such topics as where gangs are a problem, who joins gangs and why, and the effectiveness of various intervention methods. Give your readers the opportunity to form intelligent viewpoints on gangs, which is an essential tool against potential harm and violence.
For over 125 years, the Daily Tar Heel has chronicled life at the University of North Carolina at Chapel Hill and at times pushed and prodded the university community on issues of local, state, and national significance. Thousands of students have served on its staff, many of whom have gone on to prominent careers in journalism and other influential fields. Print News and Raise Hell engagingly narrates the story of the newspaper's development and the contributions of many of the people associated with it. Kenneth Joel Zogry shows how the paper has wrestled over the years with challenges to academic freedom, freedom of speech, and freedom of the press, while confronting issues such as the evolution of race, gender, and sexual equality on campus and long-standing concerns about the role of major athletics at an institution of higher learning. The story of the paper, the social media platform of its day, uncovers many dramatic but perhaps forgotten events at UNC since the late nineteenth century, and along with many photographs and cartoons not published for decades, opens a fascinating window into Tar Heel history. Examining how the campus and the paper have dealt with many challenging issues for more than a century, Zogry reveals the ways in which the history of the Daily Tar Heel is deeply intertwined with the past and present of the nation's oldest public university.

This book provides a lucid and highly acclaimed introduction to gender issues in crime and criminal justice, central to any understanding of crime and criminal justice policy and practice. This second edition has been updated to take full account of recent developments, particularly in the areas of policing, crime prevention, restorative justice and legislation relating to sexual offences and the nature and impact of crime on women – in particular the Sexual Offences Act 2003. Gender, Crime and Criminal Justice is divided into three main sections. The first considers different ways of theorising about gender and the relative impact of this on thinking about crime and criminal victimisation; the second considers some of the evidence in relation to people's gendered experiences of crime and criminal victimisation; the third considers how those working within the criminal justice system, and the policies that are put in place, work to sustain or change those experiences of crime and criminal victimisation in relation to gender.
This is a story of healing set in the context of a wealthy philanthropist who gathers a dedicated group of Christian faithful to resurrect a dying town by creating a high quality medical center. It is more than the challenges, labor and sacrifice required by this ambitious ten year project. We enter the lives of multiple citizens from this poor and medically underserved area. The rich ebb and flow of their hardships, disappointments, and redemptions is the real meat of the story. Humans, of course, are God's creations, so the reader also finds joy, along with the satisfaction of seeing a main character's hatred and quest for revenge quelled by compassion, reconciliation and love. 1 Corinthians 13:13. — Bill E. Barry MD
This must-have collection of essays discusses the issue of discrimination against women, African Americans, and Arab Americans in the United States. Readers will evaluate the practices of racial profiling and affirmative action. They will also explore such topics as gay marriage, ethnic team names, and race-based humor. Essayists include Marie Gryphon, Linda Chavez, Salim Muwakkil, and the U.S. Department of Justice.
If you were raped, recently or even years ago, you know that desperate feeling of wanting to get your life back together. If it feels like everything is broken and you're all alone, this book is a safe and reliable guide to recovery.

In the award-winning Just Sex? The Cultural Scaffolding of Rape, Nicola Gavey provides an extensive commentary on the existing literature on rape, analysing recent research to examine the psychological and cultural conditions of possibility for contemporary sexual violence. Just Sex? argues that feminist theory on sexual victimization has gone both too far and not far enough. It presents the reader with a challenging and original perspective on the issues of rape, sex and the body, incorporating new material on sexism, misogyny and digital culture, as well as debates over gendered analyses of sexual violence. The second edition has been updated and expanded to be extremely timely and relevant, with the most recent high-profile rape cases – the Stanford rape case and the Belfast rape case – being tried in the media and online. The rise of the Hollywood Harvey Weinstein scandal and the #MeToo movement makes this book incredibly useful and necessary to those who are working within the area of sexual violence. This will appeal to academic readers studying psychology, sociology, and criminology, as well as those looking into cultural influences on society. It will also be very useful to those working in the professional sector on prevention and with people who have been subjected to sexual violence.

First publisghed in 1998, this book Mark Cowling attempts to make sense of this massive discrepancy, much of which is now based on how 'date rape' is understood. After a review of the way rape is dealt with in Britain he examines the survey evidence. One major issue he identifies is that of the boundary between rape and normal sex. Arguing this cannot be sharply defined he uses philosophical techniques to look at the issues involved, particularly those of communicative sexuality and of the imbalance of power between men and women. The implications for philosophy, the law and psychological research are considered.
Dealing with the intrinsic elements of the security industry, these articles go beyond locks and alarms to explore a variety of security topics, such as violent employees, computer safety, terrorism, the future of policing, the right to privacy and privatization of correctional services.

SOCIOLOGY OF DEVIANT BEHAVIOR has been the market-leading deviance/criminology textbook for more than 40 years by combining timely research findings and updated data with solid sociological analysis. Designed to appeal to today's students, the fifteenth edition examines such relevant and timely topics as justified deviance (e.g., terrorism); corporate crime and mistakes, such as the General Motors ignition problem; the changing moral landscape regarding gay marriage and marijuana use; the importance of social media in facilitating deviant acts; political crime, including electoral crime; and cultural and social reactions to deviance. Learning aids-such as chapter outlines, bolded key terms, discussion questions, and a glossary-support students' study and review. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
This comprehensive text, written by experts in each topical area, provides research-based approaches designed for work with youth in the difficult transition from adolescence to adulthood. Developmental in its orientation, the text moves from population definition and identification, to causal factors and issues most often identified with placing youth at risk, to a prevention–intervention paradigm specifically created for teens. Illustrative case studies and enlightening sidebars enhance reader self-awareness, promote self-study and skill development, and aid in the comprehension of the concepts and applications of chapter material. Complimentary PowerPoint slides, test banks, and instructional activities are available for instructors’ use by request to ACA. *Requests for digital versions from the ACA can be found on wiley.com. *To request print copies, please visit the ACA website here. *Reproduction requests for material from books published by ACA should be directed to permissions@counseling.org

This timely anthology brings into sharp relief the extent of violence against women. Its range is global and far reaching in terms of the number of victims. There are deeply entrenched values that need to be rooted out and laid bare. This text offers a philosophical analysis of the problem, with important insights from the various contributors. Topics range from sexual assault to media violence, prostitution and pornography, domestic violence, and sexual harassment. Each of the four parts include essays which tackle these issues and provide us with tools for bringing about change. The philosophical approaches to the topic give readers insight into the harms of interpersonal violence and its impact on the lives of its victims. Analyzing Violence Against Women calls us to examine public policies and work for systemic change. In the process, we are reminded that the concerns of the discipline of Philosophy encompasses issues with a wider scope. Students will especially benefit from seeing how the various authors grapple with this pressing issue and clarify why we need to bring about change.

A trip to the zoo, when very young, is an important part of curriculum in America, but as we mature, we learn that zoos represent captivity, and often produce undesired, unhealthy results on the inhabitants. This volume asks students to think critically about Earth's animals, and how we treat them. Essays discuss zoos and the treatment of animals in captivity, covering the role of zoos in education and ensuring the survival of certain species, the problem of surplus animals, and how elephants react to captivity.
No other reference analyzes the origins, development, programs, publications, and political action of 180 major American organizations concerned with women's issues in such depth. Over 100 experts give an overview of how national women's groups of all kinds and representing varied and broad segments of society have had an impact on a wide array of public policy issues in Washington in recent years. An introduction provides a content analysis, general background, and historical sketch for the profiles, which are arranged alphabetically. An appendix describes six government agencies of primary importance in handling women's issues, as agenda setters and bridges. A second appendix consists of the questionnaire which was sent to each organization covered in the volume. The alphabetically arranged profiles cover organizations with all types of goals and concerns, different racial and ethnic identification, church and temple affiliations: civil, elderly, professional, and occupational associations; social and sorority groups; labor and business organizations; not-for-profit and for-profit groups; research centers; and both partisan and nonpartisan organizations. Students, teachers, professionals in governmental and nongovernmental agencies, researchers, and citizen activists will find that this handy sourcebook is a treasury of authoritative information about how private citizens work to affect national policy and legislation in essential ways.
Readers of Global Gender Research will learn to compare and contrast feminist concerns globally, gain familiarity with the breadth of gender research, and understand the national contexts that produced it. This volume provides an in-depth comparative picture of the current state of feminist sociological gender and women's studies research in four regions of the world—Africa, Asia, Latin America/the Caribbean, and Europe—as represented by many countries. The introductory essay to each region explains how social science research on women and/or gender issues has been shaped by economics, politics, and culture, and by trends that are simultaneously local, regional, and global. It familiarizes readers with the wide range of salient issues, research methods, writing styles, and leading authors from around the globe. Each regional section includes several chapters on gender research in specific countries that represent the region's diversity and cover the major theoretical and empirical trends that have emerged over time, as well as the relationship of key research questions to feminist activism and women’s or gender studies. Next, the editors illustrate this new wave of gender scholarship with translated/reprinted samples of research articles from additional countries in the region, that cover a wide range of important global topics—such as work, sexuality, masculinities, childcare and family issues, religion, violence, law and gender policies. Finally, this volume provides scholars with extensive bibliographies and a listing of web sites for women’s and gender research centers in 85 countries.
This book explores the burgeoning interest in alternative and innovative justice responses to sexual violence both within and outside the legal system. It explores the limits of criminal law for achieving 'rape justice' and highlights possibilities for expanding how we think about justice in the aftermath of sexual violence.

According to A.B.C. News, approximately 800,000 children every year come in contact with the foster care system. While the system is set up to take in children whose homelife is awful, in some cases Foster care offers no better conditions. Despite more than a decade of intended reform, the foster care system is overcrowded and rife with issues. This collection of essays teaches readers about the issues surrounding foster care. The essays represent a diversity of opinion on the topic, including both conservative and liberal points of view in an even balance. Readers will learn about the history of foster care, and what it's like to be a child in the system. Essay sources like The Economist tackle issues of foster care funding, stating it needs to be changed. This collection will truly provide your readers with an intelligent, balanced understanding.
Presenting multiple sides to dieting issues, this volume recognizes the intimate relationship between its subject and reader as it weaves together different points of view. Readers will explore the risks and behaviors associated with dieting. They will learn about gastric bypass surgery and medication. The Atkins diet is discussed, as well as practicing yoga as a diet alternative. The last essay offers a compelling argument that teenagers should not diet; there's other things they can do to be healthy besides restricting foods and nutrients that are helping them grow and develop.
Do kids ask each other out to the movies anymore? Do dating websites yield good relationships? Should student-teacher dating be illegal? Is America's hook-up culture sexist? This collection of personal accounts and essays helps readers navigate the controversies relating to dating. Readers will learn about teens and dating violence and date rape. Several other issues like these are debated by sources such as the American Psychological Association, Aaron Foley, Tina deVaron, Rebecca Kling, and Glenn T. Stanton.
A truly interdisciplinary approach, this text incorporates biological, psychological and sociological perspectives to the study of the family.
