*In Dying in Full Detail Jennifer Malkowski explores digital media's impact on one of documentary film's greatest taboos: the recording of death. Despite technological advances that allow for the easy creation and distribution of death footage, digital media often fail to live up to their promise to reveal the world in greater fidelity. Malkowski analyzes a wide range of death footage, from feature films about the terminally ill (Dying, Silverlake Life, Sick), to surreptitiously recorded suicides (The Bridge), to #BlackLivesMatter YouTube videos and their precursors. Contextualizing these recordings in the long history of attempts to capture the moment of death in American culture, Malkowski shows how digital media are unable to deliver death "in full detail," as its metaphysical truth remains beyond representation. Digital technology's capacity to record death does, however, provide the opportunity to politicize individual deaths through their representation. Exploring the relationships among technology, temporality, and the ethical and aesthetic debates about capturing death on video, Malkowski illuminates the key roles documentary death has played in twenty-first-century visual culture.*

*In this moving and compassionate classic—now updated with new material from the authors—hospice nurses Maggie Callanan and Patricia Kelley share their intimate experiences with patients at the end of life, drawn from more than twenty years' experience tending the terminally ill. Through their stories we come to appreciate the near-miraculous ways in which the dying communicate their needs, reveal their feelings, and even choreograph their own final moments; we also discover the gifts—of wisdom, faith, and love—that the dying leave for the living to share.*

*Filled with practical advice on responding to the requests of the dying and helping them prepare emotionally and spiritually for death, Final Gifts shows how we can help the dying person live fully to the very end.*

*In a personal memoir, the author describes her relationships with the two men closest to her—her father and his brother, Joseph, a charismatic pastor with whom she lived after her parents emigrated from Haiti to the United States.*

More than thirty years ago, an entire generation sought a new way of life, looking for fulfillment and meaning in a way no one had before. Leaving his teaching job at Harvard, Ram Dass embodied the role of spiritual seeker, showing others how to find peace within themselves in one of the greatest spiritual classics of the twentieth century, the two-million-copy bestseller Be Here Now. As many of that generation enter the autumn of their years, the big questions of peace and of purpose have returned demanding answers. And once again, Ram Dass blazes a new trail, inviting all to join him on the next stage of the journey.

#1 NEW YORK TIMES BESTSELLER America's top-rated cable news host offers his first book in over ten years: a look at America's fight against those who would reverse our tradition of freedom. America is great for a reason. Built on principles of freedom, rugged individualism, and self-sufficiency, no country has ever accumulated more power and wealth, abused it less, or used that power more to advance the human condition. And yet, as America blossomed, leftwing radicalism and resentment festered beneath the surface, threatening to undermine democracy in the form of social justice warriors, the deep state, and compromised institutions like academia and the mainstream media. With the Democratic victory in 2020, we are now at risk for a big step toward full-blown socialism along with the economic dysfunction and social strife that are its hallmarks. With radical Democrats demanding the Green New Deal, socialized medicine, abortion on demand, open borders, abolishing the Electoral College, packing the Supreme Court, and an end to free speech, our great nation will be fundamentally transformed beyond recognition. Ronald Reagan once said, "Freedom is but one generation away from extinction," and his words have never rung truer. In Live Free or Die, Sean demonstrates why now is an All Hands on Deck moment to save the Republic.

It was a mild May morning in Charleston, South Carolina, in 1862, the second year of the Civil War, when a 23-year-old enslaved man named Robert Smalls boldly seized a Confederate steamer. With his wife and two young children hidden on board, Smalls and a small crew ran a gauntlet of heavily armed fortifications in Charleston Harbour and delivered the valuable vessel and the massive guns it carried to nearby Union forces. Smalls' courageous and ingenious act freed him and his family from slavery and immediately made him a Union hero. It also challenged much of the country's view of what African Americans were willing to do for their freedom. In 'Be Free or Die,' Cate Lineberry tells the remarkable story of Smalls' escape and his many accomplishments during the war, including becoming the first black captain of an Army vessel
