**Presents information about popular dinosaurs as well as many lesser-known varieties as each of the six spreads features one large pop-up, and booklets of smaller pop-ups and text. The creators of the New York Times best-selling Encyclopedia Prehistorica series offer a mythic look at the mysteries of the past with an entire pantheon of remarkable pop-ups. (Age 5 and up) For all of recorded history, humans have sought to understand Earth’s mysteries in the realm of the divine -- and aspired to conduct themselves as heroes. Only gods, of course, could push the sun across the sky,forge entire continents, and impel mountains to touch the clouds. In this stunning volume, the incomparable team of Matthew Reinhart and Robert Sabuda take us to Ra-Atum’s land in Ancient Egypt; above the Grecian clouds to Zeus’s Mount Olympus; up to Norse god Odin’s frozen north; to the Far East, where the Jade Emperor sits in the heavens; into the wilds of Oceania, where Pele’s volcanic rage simmers below the earth; and to many more lands and times, all rich with sacred myths and legends.**

**The Kings of pop-up return with the magical new Encyclopedia Mythologica series! In the first of a thrilling new pop-up trilogy, the masterminds behind the phenomenal Encyclopedia Prehistorica explore the characters of magic and myth with glittering special effects. Fairies take to the air on fluttering wings, while pixies, gnomes, goblins and trolls career across the pages. Peer through the windows of the Elven Castle to see the magical interior and marvel at the enchanted tree and transforming flowers. Unicorns, griffins, merfolk and other fantastical beasts from all around the world are also covered in this breath-taking start to the series. Presents an introduction to prehistoric life, describing dinosaurs, plant life, and the evolutionary stages of early man, with images of fossil remains and discussions of the possible events that led to the extinction of many early life forms.**

You’ve never seen a dinosaur book like this before! The Ultimate Dinosaur Encyclopedia is a whole new type of encyclopedia, developed in conjunction with cutting-edge 3D-art and science. Using groundbreaking recent research, palaeontologist Chris Barker recreates the world of prehistoric giants with photorealistic images more lifelike than any you’ve seen before. Use the free AR app to view the pages, and you’ll see dinosaurs spring into life with stunning 3D. As well as learning about their appearance and behaviours, the app lets you see them as breathtaking life-size models. Selected pages even have video clips that seem to play right on the page. Short of hopping in a time machine, it’s the best way to get close to these amazing animals. The book explores every era of prehistoric life, beginning with the origins of life in the world’s oceans, moving to the first land-based vertebrates, and on to the reign of the dinosaurs and beyond. Based on only the most modern and authentic science, some familiar dinosaurs take on a whole new appearance. See these majestic creatures in their natural habitat, understand their parallels with modern animals, and learn everything about how they moved, ate, fought and hunted. A unique alphabet book offers twenty-six paper sculptures that celebrate the season of Christmas from A to Z.
