

Fall Of Giants: Enhanced Edition (The Century Trilogy Book 1)

The Heinemann Plays series offers contemporary drama and classic plays in durable classroom editions. Many have large casts and an equal mix of boy and girl parts. This play is a dramatization of Daniel Keyes’s story about a retarded adult who desperately wants to be able to read and write.

How do we overcome those battles in our lives that we always seem to be fighting? Learn to overcome the “giants” in your life—the fears and insecurities that keep you from reaching your full potential. It’s likely you have a threatening giant in your life: an adversary or stronghold that’s diminishing your ability to live a full and free life. Frozen in the grip of rejection, fear, anger, or addiction, we lose sight of the promise God has for our lives. Demoralized and defeated, we settle for far less than his best. In Goliath Must Fall, pastor Louie Giglio uncovers a newfound twist in the classic story of David and Goliath. It is not God’s plan for you to live with a giant standing in the middle of your life, demoralizing you day after day. Our freedom and God’s glory are forever interwoven into one story. God does want us to live free. He wants us to recognize that He’s already killed the giant. In Goliath Must Fall, discover: Hope and encouragement that God has a better plan for you—a plan for you to live in victory Powerful insights from the Biblical story of David How to silence your giants once and for all The key to living free from our giants is not better slingshot accuracy but keeping our eyes on the one and only giant-slayer—Jesus. Once you understand the source of your giants, you can ensure that whatever your affliction is, it can, will, and must fall with the power of Jesus. Put your hope in God and watch Goliath fall. New York Times Bestseller The new must-read epic from master storyteller Ken Follett: more than a thriller, it’s an action-packed, globe-spanning drama set in the present day. “A compelling story, and only too realistic.” —Lawrence H. Summers, former U.S. Treasury Secretary “Every catastrophe begins with a little problem that doesn’t get fixed.” So says Pauline Green, president of the United States, in Follett’s nerve-racking drama of international tension. A shrinking oasis in the Sahara Desert; a stolen US Army drone; an uninhabited Japanese island; and one country’s secret stash of deadly chemical poisons: all these play roles in a relentlessly escalating crisis. Struggling to prevent the outbreak of world war are a young woman intelligence officer; a spy working undercover with jihadists; a brilliant Chinese spymaster; and Pauline herself, beleaguered by a populist rival for the next president election. Never is an extraordinary novel, full of heroines and villains, false prophets and elite warriors, jaded politicians and opportunistic revolutionaries. It brims with cautionary wisdom for our times, and delivers a visceral, heart-pounding read that transports readers to the brink of the unimaginable.

A page-turning debut in the tradition of Michael Crichton, World War Z, and The Martian, Sleeping Giants is a thriller fueled by an earthshaking mystery—and a fight to control a gargantuan power. A girl named Rose is riding her new bike near her home in Deadwood, South Dakota, when she falls through the earth. She wakes up at the bottom of a square hole, its walls glowing with intricate carvings. But the firemen who come to save her peer down upon something even stranger: a little girl in the palm of a giant metal hand. Seventeen years later, the mystery of the bizarre artifact remains unsolved—its origins, architects, and purpose unknown. Its carbon dating defies belief; military reports are redacted; theories are floated, then rejected. But some can never stop searching for answers. Rose Franklin is now a highly trained physicist leading a top secret team to crack the hand’s code. And along with her colleagues, she is being interviewed by a nameless interrogator whose power and purview are as enigmatic as the provenance of the relic. What’s clear is that Rose and her compatriots are on the edge of unraveling history’s most perplexing discovery—and figuring out what it portends for humanity. But once the pieces of the puzzle are in place, will the result prove to be an instrument of lasting peace or a weapon of mass destruction? Praise for Sleeping Giants “As high-concept as it is, Sleeping Giants is a thriller through and through. . . . One of the most promising series kickoffs in recent memory, [and] a smart demonstration of how science fiction can honor its traditions and reverse-engineer them at the same time.”—NPR “Neuvel weaves a complex tapestry with ancient machinery buried in the Earth, shadow governments, and geopolitical conflicts. But the most surprising thing about the book may just be how compelling the central characters are in the midst of these larger-than-life concepts. . . . I can’t stop thinking about it.”—Chicago Review of Books “A remarkable debut . . . Reminiscent of Max Brooks’s World War Z, the story’s format effectively builds suspense.”—Library Journal (debut of the month) “This stellar debut novel . . . masterfully blends together elements of sci-fi, political thriller and apocalyptic fiction. . . . A page-turner of the highest order.”—Kirkus Reviews (starred review) Don’t miss any of The Themis Files by Sylvain Neuvel: SLEEPING GIANTS | WAKING GODS | ONLY HUMAN

Seventeen-year-old Penelope (Pen) has lost everything—her home, her parents, and her ten-year-old brother. Like a female Odysseus in search of home, she navigates a dark world full of strange creatures, gathers companions and loses them, finds love and loses it, and faces her mortal enemy. In her signature style, Francesca Lia Block has created a world that is beautiful in its destruction and as frightening as it is lovely. At the helm of Love in the Time of Global Warming is Pen, a strong heroine who holds hope and love in her hands and refuses to be defeated.

The Rise and Fall of Mount Majestic

A Novel

How Active Citizens and Effective States Can Change the World

First of a thrilling fantasy adventure series set on the Dark World, where society is ranked according to its colour clan and the most precious commodity is light. In all the world there is only one place that ever sees the sun. A seven-towered castle built upon a mountain high above the desolate ice lands below. Tal is getting ready for the Day of Ascension - a day when all the 13-year-old Chosen from the Castle of Seven Towers enter the spirit world of Aenir. Then his father disappears with the family's Primary Sunstone. Without it, Tal cannot enter Aenir and bind himself to a Spiritshadow - a guardian being, both protector and friend. Tal tries to steal a Sunstone, but during his act of thievery is thrown off the Castle of Seven Towers by a powerful Spiritshadow Keeper. He falls down to the iceworld below, where he is captured by Icecars. To save his life, he must team up with Milla - a Shield-Maiden-in-training - and offer his aid to the nomads. Which complicates his task immeasurably...

The brilliant 1969 Hugo Award-winning novel from John Brunner, Stand on Zanzibar, now included with a foreword by Bruce Sterling Norman Niblock House is a rising executive at General Technics, one of a few all-powerful corporations. His work is leading General Technics to the forefront of global domination, both in the marketplace and politically--it's about to take over a country in Africa. Donald Hogan is his roommate, a seemingly sheepish bookworm. But Hogan is a spy, and he's about to discover a breakthrough in genetic engineering that will change the world...and kill him. These two men's lives weave through one of science fiction's most praised novels. Written in a way that echoes John Dos Passos' U.S.A. Trilogy, Stand on Zanzibar is a cross-section of a world overpopulated by the billions. Where society is squeezed into hive-living madness by god-like mega computers, mass-marketed psychedelic drugs, and mundane uses of genetic engineering. Though written in 1968, it speaks of now, and is frighteningly prescient and intensely powerful. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

You Will Learn Python 3! Zed Shaw has perfected the world's best system for learning Python 3. Follow it and you will succeed!just like the millions of beginners Zed has taught to date! You bring the discipline, commitment, and persistence; the author supplies everything else. In Learn Python 3 the Hard Way, you'll learn Python by working through 52 brilliantly crafted exercises. Read them. Type their code precisely. (No copying and pasting!) Fix your mistakes. Watch the programs run. As you do, you'll learn how a computer works; what good programs look like; and how to read, write, and think about code. Zed then teaches you even more in 5+ hours of video where he shows you how to break, fix, and debug your code!live, as he's doing the exercises. Install a complete Python environment Organize and write code Fix and break code Basic mathematics Variables Strings and text Interact with users Work with files Looping and logic Data structures using lists and dictionaries Program design Object-oriented programming Inheritance and composition Modules, classes, and objects Python packaging Automated testing Basic game development Basic web development It'll be hard at first. But soon, you'll just get it!and that will feel great! This course will reward you for every minute you put into it. Soon, you'll know one of the world's most powerful, popular programming languages. You'll be a Python programmer. This Book Is Perfect For Total beginners with zero programming experience Junior developers who know one or two languages Returning professionals who haven't written code in years Seasoned professionals looking for a fast, simple, crash course in Python 3

In this wonderful page-turner, veteran sports journalist Mike Vaccaro brings to life a bygone era in cinematic and intimate detailand re-creates the magic and suspense of the world's first classic series. Despite a major presidential election, the near-assassination of Teddy Roosevelt, and the most sensational trial of the young century, baseball dominated front-page headlines in October 1912. The Boston Red Sox and the New York Giants of that year!two of the finest ball clubs that had ever been assembled!went head-to-head in a thrilling eight-game battle that ultimately elevated the World Series from a regional October novelty to a national obsession.

Talon Valdez knew when he transformed into an enhanced human, his life and his dreams were finished. Reviled, mistrusted, and often locked away, the enhanced were viewed as monsters, despised by the public, and never trusted to serve in the military or any law enforcement agency.Years later he gets a chance to set up a task force of enhanced to serve in the FBI, but with one proviso: each enhanced must partner with a regular human.Finn Mayer dreamed of joining the FBI from the time he was fourteen and made every possible sacrifice to make it happen, including living with his selfish mother and bullying, homophobic brother and never having a boyfriend. But his undiagnosed dyslexia stopped his aspirations dead in their tracks. His last chance is to partner with Talon, an enhanced with deadly abilities who doesn't trust regular humans with their secrets and wants Finn to fail.Four weeks to prove himself to the team. Four weeks for the team to prove itself to the public. And when another group threatens their success-and their lives-four weeks for them to survive.**re-release 2020. Giants Do Fall

The Hugo Award-Winning Novel

Paper Money

From a Pulitzer Prize-winning investigative reporter at The New York Times comes the troubling story of the rise of the processed food industry -- and how it used salt, sugar, and fat to addict us. Salt Sugar Fat is a journey into the highly secretive world of the processed food giants, and the story of how they have deployed these three essential ingredients, over the past five decades, to dominate the North American diet. This is an eye-opening book that demonstrates how the makers of these foods have chosen, time and again, to double down on their efforts to increase consumption and profits, gambling that consumers and regulators would never figure them out. With meticulous original reporting, access to confidential files and memos, and numerous sources from deep inside the industry, it shows how these companies have pushed ahead, despite their own misgivings (never aired publicly). Salt Sugar Fat is the story of how we got here, and it will hold the food giants accountable for the social costs that keep climbing even as some of the industry's own say, "Enough already."

The Fourth Release in an Epic Bible Adventure Series for Kids The last thing fourth-grader Wren Evans remembers (before the world as she knew it disappeared) is getting off the school bus to discover her house engulfed in flames. What happens next can't be explained as Wren finds herself in a beautiful valley with a shepherd named David!in ancient Israel! Imagine. . .The Giant's Fall is the fourth release in an exciting epic adventure series for kids ages 8 to 12 written by schoolteacher Matt Kocceich. The Imagine series brings the Bible to life for today's kids as they ponder what it would be like to live through a monumental biblical event. Don't miss Book 1 in the Imagine Series--The Great Flood. . .Book 2--The Ten Plagues. . .or Book 3--The Fall of Jericho!

When eleven-year-old Gregor falls through a grate in the laundry room of his apartment building, he hurtles into the dark Underland, where spiders, rats and giant cockroaches coexist uneasily with humans. This world is on the brink of war, and Gregor's arrival is no accident. Gregor has a vital role to play in the Underland's uncertain future.

Ten-year-old Persimmony Smudge lives a boring life on the Island in the Middle of Everything, but she longs for adventure. And she soon gets it when she overhears a life-altering secret and suddenly finds herself in the middle of an amazing journey. It turns out that Mount Majestic, the rising and falling mountain in the center of the island, is not really a mountain - it's the belly of a sleeping giant! It's up to Persimmony and her friend Worvil to convince the island's quarreling inhabitants that a giant is sleeping in their midst and must not be awakened. The question is, will she be able to do it?

The classic story of a Norwegian pioneer family's struggles with the land and the elements of the Dakota Territory as they try to make a new life in America.

Are you tired of being bullied? Are you tired of intimidation from a menacing giant? Are you tired of being stuck, not able to proceed in your destiny? Great, this devotional is for you. Steve & Karla Greer have written this 20-day devotional in hopes that it will inspire you to believe that God has given you power to overcome the giants in your life. In this life, you will face many giants, but we pray that when you read this devotional, you will realize who you are in Christ Jesus. We have faced many giants in our lives, and we have had to learn how to trust God more and more to overcome the strongholds these giants had on our lives. You can also triumph over the enemy, bully, or giant in your life. Use this five-stone prayer, praise, worship, and the Word, along with faith. Remember, you are a champion in Christ Jesus. "...compulsively readable historical fiction...[a] powerful novel about unusual women facing sometimes insurmountable odds with grace, grit, love and tenacity." - Kristin Hannah, The Washington Post Named one of best books of the year by Marie Claire and Bookbub "If you enjoyed "The Tattooist of Auschwitz," read "The Huntress," by Kate Quinn." The Washington Post From the author of the New York Times and USA Today bestselling novel, THE ALICE NETWORK, comes another fascinating historical novel about a battle-haunted English journalist and a Russian female bomber pilot who join forces to track the Huntress, a Nazi war criminal gone to ground in America. In the aftermath of war, the hunter becomes the hunted... Bold and fearless, Nina Markova always dreamed of flying. When the Nazis attack the Soviet Union, she risks everything to join the legendary Night Witches, an all-female night bomber regiment wreaking havoc on the invading Germans. When she is stranded behind enemy lines, Nina becomes the prey of a lethal Nazi murderess known as the Huntress, and only Nina's bravery and cunning will keep her alive. Transformed by the horrors he witnessed from Omaha Beach to the Nuremberg Trials, British war correspondent Ian Graham has become a Nazi hunter. Yet one target eludes him: a vicious predator known as the Huntress. To find her, the fierce, disciplined investigator joins forces with the only witness to escape the Huntress alive: the brazen, cocksure Nina. But a shared secret could derail their mission unless Ian and Nina force themselves to confront it. Growing up in post-war Boston, seventeen-year-old Jordan McBride is determined to become a photographer. When her long-widowed father unexpectedly comes home with a new fiancée, Jordan is thrilled. But there is something disconcerting about the soft-spoken German widow. Certain that danger is lurking, Jordan begins to delve into her new stepmother's past—only to discover that there are mysteries buried deep in her family . . . secrets that may threaten all Jordan holds dear. In this immersive, heart-wrenching story, Kate Quinn illuminates the consequences of war on individual lives, and the price we pay to seek justice and truth.

By world-renowned musician, environmentalist, and humanitarian Dave Matthews, an exciting and poignant fantasy set in wondrous natural environments about a girl who must summon the courage to face her own mistakes before she can help save her peaceful community from a gigantic threat. Kirra, a curious, agile, and outgoing girl, lives in an idyllic community hidden inside a dormant volcano. She and her father are the only two people allowed to venture beyond its walls. Kirra is in training to become a Storyteller like him, and together they travel from village to village spreading fearsome tales designed to keep outsiders away from their secret nest. One day, after hearing rumors of strangers called the "Takers," Kirra leaves the volcano by herself, hoping to discover her own story. But she unknowingly leads the Takers back to her doorstep, and they rob her of everything she has ever held dear. A devastated Kirra is found by a boy named Luwan and adopted into his family, which lives among others high in the trees of a dense forest. Now quiet and withdrawn, Kirra hides her dark past from everyone and never wants to leave the safety of her tree dwelling. Luwan, on the other hand, loves to explore. One day it leads to trouble: He is captured while spying on a group of strangers. The Takers have returned. To save the Tree Folk, Kirra must face her inner demons and summon all her storytelling to weave the most important tale of her life. This compelling novel about overcoming loss, embracing community, and living in harmony with nature is highlighted with a full-color insert of concept artwork, making it perfect for family sharing. In this utterly immersive volume, Mike Wallace captures the swings of prosperity and downturn, from the 1898 skyscraper-driven boom to the Bankers' Panic of 1907, the labor upheaval, and violent repression during and after the First World War. Here is New York on a whole new scale, moving from national to global prominence -- an urban dynamo driven by restless ambition, boundless energy, immigrant dreams, and Wall Street greed. Within the first two decades of the twentieth century, a newly consolidated New York grew exponentially. The city exploded into the air, with skyscrapers jostling for prominence, and dove deep into the bedrock where massive underground networks of subways, water pipes, and electrical conduits sprawled beneath the city to serve a surging population of New Yorkers from all walks of life. New York was transformed in these two decades as the world's second-largest city and now its financial capital, thriving and sustained by the city's seemingly unlimited potential. Wallace's new book matches its predecessor in pure page-turning appeal and takes America's greatest city to new heights.

#1 New York Times Bestseller Oprah's Book Club Selection The "extraordinary . . . monumental masterpiece" (Booklist) that changed the course of Ken Follett's already phenomenal career—and begins where its prequel, The Evening and the Morning, ended. "Follett risks all and comes out a clear winner," extolled Publishers Weekly on the release of The Pillars of the Earth. A departure for the bestselling thriller writer, the historical epic stunned readers and critics alike with its ambitious scope and gripping humanity. Today, it stands as a testament to Follett's unassailable command of the written word and to his universal appeal. The Pillars of the Earth tells the story of Philip, prior of Kingsbridge, a devout and resourceful monk driven to build the greatest Gothic cathedral the world has known . . . of Tom, the mason who becomes his architect—a man divided in his soul . . . of the beautiful, elusive Lady Aliena, haunted by a secret shame . . . and of a struggle between good and evil that will turn church against state and brother against brother. A spellbinding epic tale of ambition, anarchy, and absolute power set against the sprawling medieval canvas of twelfth-century England, this is Ken Follett's historical masterpiece.

Action. Comedy. Romance. And that one weird guy. After an attack by the Coalition leaves THIRDS Team Leader Sloane Brodie critically injured, agent Dexter J. Daley swears to make Beck Hogan pay for what he's done. But Dex's plans for re short-lived. With Ash still on leave with his own injuries, Sloane in the hospital, and Destructive Delta in the Coalition's crosshairs, Lieutenant Sparks isn't taking any chances. Dex's team is pulled from the case, with the investigation handed to Sebastian Hobbs. Dex refuses to stand by while another team goes after Hogan, and decides to put his old HPF detective skills to work to find Hogan before Theta Destructive, no matter the cost. With a lengthy and painful recovery ahead, thing Sloane needs is his partner out scouring the city, especially when the lies-however well intentioned-begin to spiral out of control. Sloane is all too familiar with the desire to retaliate, but some things are more important, like the man who stand beside him. As Dex starts down a dark path, it's up to Sloane to show him what's at stake, and finally put a name to what's in his heart.

Ken Follett’s extraordinary historical epic, the Century Trilogy, reaches its sweeping, passionate conclusion. In Fall of Giants and Winter of the World, Ken Follett followed the fortunes of five international families—American, German, Russian, and Welsh—as they made their way through the twentieth century. Now they come to one of the most tumultuous eras of all: the 1960s through the 1980s, from civil rights, assassinations, mass political movements, and Vietnam to the Berlin Missile Crisis, presidential impeachment, revolution—and rock and roll. East German teacher Rebecca Hoffmann discovers she’s been spied on by the Stasi for years and commits an impulsive act that will affect her family for the rest of the century. Robert Jakes, the child of a mixed-race couple, bypasses a corporate law career to join Robert F. Kennedy’s Justice Department and finds himself in the middle of not only the seminal events of the civil rights battle but a much more personal battle. Cameron Dewar, the grandson of a senator, jumps at the chance to do some official and unofficial espionage for a cause he believes in, only to discover that the world is a much more dangerous place than he’d imagined. . . . Dimka Dvorkin, a Russian immigrant, Nikita Khrushchev, becomes an agent both for good and for ill as the United States and the Soviet Union race to the brink of nuclear war, while his twin sister, Tanya, carves out a role that will take her from Moscow to Cuba to Prague to London and back to her family history.

Ken Follett’s magnificent historical epic begins as five interrelated families move through the momentous dramas of the First World War, the Russian Revolution, and the struggle for women’s suffrage. A thirteen-year-old Welsh boy enters

the mining pits. . . . An American law student rejected in love finds a surprising new career in Woodrow Wilson's White House. . . . A housekeeper for the aristocratic Fitzherberts takes a fateful step above her station, while Lady Maud Fitz crosses deep into forbidden territory when she falls in love with a German spy. . . . And two orphaned Russian brothers embark on radically different paths when their plan to emigrate to America falls afoul of war, conscription, and revolt and danger of a coal mine to the glittering chandeliers of a palace, from the corridors of power to the bedrooms of the mighty, Fall of Giants takes us into the inextricably entangled fates of five families—and into a century that we though will never seem the same again. . . .

The thrilling novel from the No.1 Internationally bestselling author Ken Follett. An epic, addictive historical masterpiece that begins in 997 CE and is set against the background of the medieval church and one man’s ambition to make his ab learning.

Do you know how to think about the future? All our decisions are about the future, whether it’s tomorrow, next year or the next decade, yet our choices are often undermined by desires, expectations and common mental mistakes – making worrying about things we can’t control, missing signals because we’re distracted by the noise. But if you can learn how to think, you can learn how to look ahead. Isaac Newton said: ‘If I have seen further than others, it is by standing on the giants.’ In Thinking the Future, Clem Sunter and Mitch Ilbury teach us the futurist’s art of decision-making by reimagining seminal concepts from some of history’s greatest thinkers. They encourage foxy, flexible mindsets and reject the pop misleading self-help tenet that you can decide your fate through the relentless pursuit of a single goal. An uncertain world demands a more dynamic approach. The point is not to forecast one outcome but to plot multiple scenarios of what. Using scenario-planning techniques, we can all harness the power to work towards the future we want, avoid the ones we don’t, and prepare ourselves for the possible risks and opportunities no matter what transpires.

How America's high standard of living came to be and why future growth is under threat In the century after the Civil War, an economic revolution improved the American standard of living in ways previously unimaginable. Electric lighting, indoor plumbing, motor vehicles, air travel, and television transformed households and workplaces. But has that era of unprecedented growth come to an end? Weaving together a vivid narrative, historical anecdotes, and economic analysis, The Rise and Fall of American Growth challenges the view that economic growth will continue unabated, and demonstrates that the life-altering scale of innovations between 1870 and 1970 cannot be repeated. Robert Gordon contends that the nation's productivity growth will be further held back by the headwinds of rising inequality, stagnating education, an aging population, and the rising debt of college students and the federal government, and that we must find new solutions. A critical voice in the most pressing debates of our time, The Rise and Fall of American Growth is at once a tribute to a century of radical change and a harbinger of tougher times to come.

“Beautifully elegiac and intricately plotted, this is Nordic noir at its best.”—People Winner of the Glass Key Award for Best Nordic Crime Novel • Best Swedish Crime Novel of the Year • Shortlisted for the Best Swedish Book of the Year Award • One of People Magazine’s Best Books of Fall A missing girl, a hidden body, a decades-long cover-up, and old sins cast in new light: the classic procedural meets Scandinavian atmosphere in this rich, character-driven mystery, awarded Best Swedish Crime Novel of the Year, that heralds the American debut of a supremely skilled international writer. It’s been more than twenty years since Olof Hagström left home. Returning to his family’s house, he knows instantly that something is amiss. The front door key, hidden under a familiar stone, is still there. Inside, there’s a panicked dog, a terrible stench, water pooling on the floor: the father Olaf has not seen or spoken to in decades is dead in the bathroom shower. For police detective Eira Sjódin, the investigation of this suspicious death resurrects long-forgotten nightmares. She was only nine when Olof Hagström, then fourteen, was found guilty of raping and murdering a local girl. The case left a mark on the town’s collective memory—a wound that never quite healed—and tinged Eira’s childhood with fear. Too young to be sentenced, Olof was sent to a youth home and exiled from his family. He was never seen in the town again. Until now. An intricate crime narrative in which past and present gracefully blend, We Know You Remember is a relentlessly suspenseful and beautifully written novel about guilt and memory in which nothing is what it seems, and unexpected twists upend everything you think you know.

From Wall Street Journal bestselling author Giana Darling comes an enemies to lovers, forbidden romance between an ice cold lawyer and her infamous mafioso client who is on trial for murder... I am the villain of my own story... Jilted by my fiancé. A disappointment to my family. Haunted by my childhood traumas. I felt so much all my life that I resolved to feeling nothing at all. Until I met my match. As the most infamous mafioso of the 21st century, Dante Salvatore was madly passionate, unequivocally bad, and entirely too dangerous to know. He was everything I abhorred, yet I found myself representing him in the biggest criminal trial of the decade. I was so focused on winning and achieving the success I deserved that I didn't notice the gorgeous black-eyed man's effect on me until it was too late. My icy heart had been held too close to his flame and now I wouldn't let Dante go down without fighting with everything I had in me. Even if the cost of a new life with him meant the loss of my old life and everything I thought I held dear. *Book One in the Anti-Heroes in Love Duet.*

"This book is truly epic. . . . The reader will probably wish there was a thousand more pages." —The Huffington Post Picking up where Fall of Giants, the first novel in the extraordinary Century Trilogy, left off, Winter of the World follows its five interrelated families—American, German, Russian, English, and Welsh—through a time of enormous social, political, and economic turmoil, beginning with the rise of the Third Reich, through the great dramas of World War II, and into the beginning of the long Cold War. Carla von Ulrich, born of German and English parents, finds her life engulfed by the Nazi tide until daring to commit a deed of great courage and heartbreak American brothers Woody and Chuck Dewar, each with a secret, take separate paths to momentous events, one in Washington, the other in the bloody jungles of the Pacific English student Lloyd Williams discovers in the crucible of the Spanish Civil War that he must fight Communism just as hard as Fascism Daisy Peshkov, a driven social climber, cares only for popularity and the fast set until war transforms her life, while her cousin Volodya carves out a position in Soviet intelligence that will affect not only this war but also the war to come.

New perspectives from the shoulders of giants

Thinking the Future

Peopled by larger-than-life heroes and villains, charged with towering questions of good and evil, Atlas Shrugged is Ayn Rand's magnum opus: a philosophical revolution told in the form of an action thriller—nominated as one of America's best-loved novels by PBS's The Great American Read. Who is John Galt? When he says that he will stop the motor of the world, is he a destroyer or a liberator? Why does he have to fight his battles not against his enemies but against those who need him most? Why does he fight his hardest battle against the woman he loves? You will know the answer to these questions when you discover the reason behind the baffling events that play havoc with the lives of the amazing men and women in this book. You will discover why a productive genius becomes a worthless playboy...why a great steel industrialist is working for his own destruction...why a composer gives up his career on the night of his triumph...why a beautiful woman who runs a transcontinental railroad falls in love with the man she has sworn to kill. Atlas Shrugged, a modern classic and Rand's most extensive statement of Objectivism—her groundbreaking philosophy—offers the reader the spectacle of human greatness, depicted with all the poetry and power of one of the twentieth century's leading artists.

An explosive novel of high finance and underworld villainy from Ken Follett, the grand master of international action and suspense. Crime, high finances, and journalism are interconnected in this early thriller by the author of On Wings of Eagles and Lie Down With Lions. In one suspenseful, action-packed day, fortunes change hands as an ambitious young reporter scrambles to crack the story. A suicidal junior minister, an avaricious tycoon, and a seasoned criminal with his team of tough guys all play their parts in a scheme that moves "paper money" around at a dizzying pace.

Winner of the Pulitzer Prize in Fiction Shortlisted for the Man Booker Prize New York Times Bestseller A New York Times Notable Book and a Washington Post, Time, Oprah Magazine, Newsweek, Chicago Tribune, and Kirkus Reviews Best Book of 2018 "The best novel ever written about trees, and really just one of the best novels, period." —Ann Patchett The Overstory, winner of the 2019 Pulitzer Prize in Fiction, is a sweeping, impassioned work of activism and resistance that is also a stunning evocation of—and paean to—the natural world. From the roots to the crown and back to the seeds, Richard Powers's twelfth novel unfolds in concentric rings of interlocking fables that range from antebellum New York to the late twentieth-century Timber Wars of the Pacific Northwest and beyond. There is a world alongside ours—vast, slow, interconnected, resourceful, magnificently inventive, and almost invisible to us. This is the story of a handful of people who learn how to see that world and who are drawn up into its unfolding catastrophe.

Offers a look at the causes and effects of poverty and inequality, as well as the possible solutions. This title features research, human stories, statistics, and compelling arguments. It discusses about the world we live in and how we can make it a better place.

This Hugo Award finalist, “justifiably regarded as a classic” (SFReviews.net), is the tale of an epic space voyage where time dilation goes horribly wrong. Aboard the spacecraft Leonora Christine, fifty crewmembers, half men and half women, have embarked on a journey of discovery like no other to a planet thirty light-years away. Since their ship is not capable of traveling faster than light, the crew will be subject to the effects of time dilation and relativity. They will age five years on board the ship before reaching their destination, but thirty-three years will pass on Earth. Experienced scientists and researchers, they have come to terms with the time conditions of their space travel. Until . . . the Leonora Christine passes through an uncharted nebula, which damages the engine, making it impossible to decelerate the ship on the second half of their trip. To survive, the crewmembers have no choice but to bypass their destination and continue to accelerate toward the speed of light. But how will they keep hope alive and maintain order as they hurtle deeper into space with time passing more and more rapidly, and their ultimate fate unknown? With its combination of mind-blowing hard science and compelling human drama, Tau Zero is “the ultimate hard science novel” (Mike Resnick).

How the Food Giants Hooked Us

The Clifton Chronicles, Books 1-4

A tender, humorous and compelling tale of Viking adventure by multi-award-winning author Neil Gaiman.

From the award-winning explorer, “an entertaining summary of what we know about the elephant, and a call to change our behavior to ensure its survival” (Daily Mail). The Last Giants satisfies British explorer Levison Wood’s lifelong desire to learn more about the majestic African elephant. These giants trek through some of Africa’s most magnificent landscapes as they go in search of life-giving waters and pastures. El Nino’s droughts and an insatiable ivory trade have cut African elephant numbers by a third in the last decade alone, and if elephants disappear entirely, Africa’s entire ecosystem could collapse. But Botswana has become a safe haven, where one-sixth of the world’s elephants now reside. Each year their numbers grow and an incredible migration takes place, which Wood witnesses and records. He teams up with local trackers to gain insight into how this iconic species survives, camps out in the wild, meets the people and tribes living on the migration’s path, and joins the park rangers whose job it is to protect these land goliaths, equipped with his “good eye for detail and better ear for dialogue” (The Wall Street Journal). “Adventurer Wood followed elephants on a 650-mile migration across Botswana for a British television program. This fascinating companion volume to that series examines the past, present, and future of the African elephant.” —Library Journal (starred review) “A smart, inviting portrait of elephants from a keen-eyed observer.” —Kirkus Reviews “A rewarding look at the habits and habitats of the African elephant . . . Comprehensively yet accessibly conveying Wood’s lifelong fascination with African elephants, his discussion will appeal to anyone keen on learning more about them.” —Publishers Weekly

How could General Electric--perhaps America's most iconic corporation--suffer such a swift and sudden fall from grace? This is the definitive history of General Electric's epic decline, as told by the two Wall Street Journal reporters who covered its fall. Since its founding in 1892, GE has been more than just a corporation. For generations, it was job security, a solidly safe investment, and an elite business education for top managers. GE electrified America, powering everything from lightbulbs to turbines, and became fully integrated into the American societal mindset as few companies ever had. And after two decades of leadership under legendary CEO Jack Welch, GE entered the twenty-first century as America's most valuable corporation. Yet, fewer than two decades later, the GE of old was gone. Lights Out examines how Welch's handpicked successor, Jeff Immelt, tried to fix flaws in Welch's profit machine, while stumbling headlong into mistakes of his own. In the end, GE's traditional win-at-all-costs driven culture seemed to lose its direction, which ultimately caused the company's decline on both a personal and organizational scale. Lights Out details how one of America's all-time great companies has been reduced to a cautionary tale for our times.

Explore the power of the underdog in Malcolm Gladwell's dazzling examination of success, motivation, and the role of adversity in shaping our lives, from the bestselling author of The Bomber Mafia. Three thousand years ago on a battlefield in ancient Palestine, a shepherd boy felled a mighty warrior with nothing more than a stone and a sling, and ever since then the names of David and Goliath have stood for battles between underdogs and giants. David's victory was improbable and miraculous. He shouldn't have won. Or should he have? In David and Goliath, Malcolm Gladwell challenges how we think about obstacles and disadvantages, offering a new interpretation of what it means to be discriminated against, or cope with a disability, or lose a parent, or attend a mediocre school, or suffer from any number of other apparent setbacks. Gladwell begins with the real story of what happened between the giant and the shepherd boy those many years ago. From there, David and Goliath examines Northern Ireland's Troubles, the minds of cancer researchers and civil rights leaders, murder and the high costs of revenge, and the dynamics of successful and unsuccessful classrooms—all to demonstrate how much of what is beautiful and important in the world arises from what looks like suffering and adversity. In the tradition of Gladwell's previous bestsellers—The Tipping Point, Blink, Outliers and What the Dog Saw—David and Goliath draws upon history, psychology, and powerful storytelling to reshape the way we think of the world around us.

The Red-Haired GiantsAtlantis in North America “And the Gods ruled from Akakor. They ruled over men and earth with ships faster than birds' flight, ships that reached their goal without sails or oars and by night as well as by day. They had magic stones to look into the distance so that they could see cities, rivers, hills and lakes. Whatever happened on earth or in the sky was reflected in the stones. They had great knowledge and could suspend the heaviest stones, fling lightning or melt rocks.” Prior to the upcoming cataclysms, the ancient gods left earth for safer places. According to Tatanca Nara, “After the former Masters left in the year 'Zero', a global catastrophe occurred. Before leaving, they gave the sacred knowledge to their earthbound offspring to protect until their return. These people were known as the “Sacred Record Keepers”. The pre-diluvium patriarchs took shelter in underground cities, underground tunnel systems and the high mountains above flood level. When the star visitors returned from the heavens, these grateful patriarchs gave them their loyalty and defied them as gods. In her book, The Secret Doctrine, H. P. Blavatsky links Noah to Enoch, describing the family of Noah as bearing the appellations of the giant Titans and Atlanteans. In ancient times the world was seen as two parts with one part mirroring the other. The lands of the east, where the sun rose, were known as the Upper World. Their inhabitants were known as the Talans. The lands of the west, where the sun set, were called the Lower or Under World. North America, known as Atala or Atalan was ruled by the Nagas, a class of semi divine beings. The Mahabharata describes them as a handsome race who could either take on the form of human or serpentine. They were not only a civilized people, but a maritime power. Indian myths and legends mention that many deities (exalted men) visited the western land of Atalan. One of these dignitaries was Vishnu who went there to help the survivors rehabilitate themselves from the ravages of a flood that nearly destroyed Atlantis. The Toltec and Aztecs called Vishnu 'Kukulcan or Quetzalcoatl'; the Mayans called him Kukulcan, and the Inca called him Guculmatz. Evidence strongly supports that races of Atlantean giants lived in North America and were the advent of the smaller races of modern men and women. As thousands of earthen burial mounds attest, constant war against one another caused their numbers to diminish and the smaller, but more numerous races eventually subjugated them."The Red-Haired Giants: Atlantis in North America" tells the story of the red-haired giants fall from grace and their eventual extermination.

#1 New York Times and international bestselling author Jeffrey Archer's Clifton Chronicles series has taken the world by storm, with 2.5 million copies in print in English. This multi-generational, multi-volume saga of fate, fortune, and redemption follows the Clifton and Barrington families on a breathtaking journey from 1920 all the way through the present. Here together for the first time in an eBook bundle are the first four Clifton Chronicles novels: Only Time Will Tell The first book in the Clifton Chronicles begins in 1920 with the words, "I was told that my father was killed in the war," launching the story of Harry Clifton, the hero of Archer's epic tale, and taking him as far as the beginning of WWII. The Sins of the Father On the run from a terrible family secret, Harry Clifton joins the Merchant Navy on the eve of WWII and must escape both the consequences of assuming another soldier's identity and the horrors of war. Best Kept Secret Now that Harry and the love of his life are free to marry, the powerful Clifton Chronicles moves into the 1950s and the boyhood of Harry's son Sebastian. Be Careful What You Wish For As the popular Clifton Chronicles advances to the 1960s, Harry's nemesis Don Pedro Martinez will stop at nothing to get his revenge on Harry on his family.
