Land the deals you want and develop your instincts with million-dollar negotiation techniques After selling over \$3 Billion in real estate, including the most expensive one-bedroom house in history, Josh Altman, co-star of the hit show Million-Dollar Listing Los Angeles, wants to teach you the real estate sales and negotiation tactics that have made him one of America's top agents. Buying or

selling a house, whether for a client or yourself, is one of the most important (and most stressful) deals anyone can make, demanding emotional intelligence and a solid set of negotiating skills. But by mastering the same techniques that sell multi-million-dollar homes in Bel Air and Beverly Hills, you can attract buyers and close deals on any property. Josh breaks down the art of real estate into three simple parts. First, he'll help you get business in the door during the Opening. Then he takes you step-by-step through the Work: everything between the first handshake and the last. And finally, the Close, the last step that ensures all your hard work pays off as you seal the deal. Learn how to open with a prospect, work the deal, close, open, and repeat Build and market your reputation, creating more sales opportunities Develop the traits of a closer in you and your team Drive the deal forward and get the best price for your property by creating desire, scarcity, and demand Successful real estate sales are driven by the same principles, whether they happen in the Hollywood Hills or just down the street. Josh wants to put those principles, and the techniques for applying them, in your hands. Learn them and discover what you can achieve. This book was born with the intent of preserving part of the

traditional recipes belonging to the Mediterranean diet, linked to Southern Italy: an undoubtedly popular cuisine, a nutritional model that has demonstrated to the world its beneficial effects on health and longevity. Particularly, we will focus on the geographical area of Cilento, near the border between Campania and Basilicata regions: a fairy and unspoilt landscape characterized by small villages lurking in the hills, often surrounded by forests, secular trees, mountains, streams and rivers... This is Lucania, the ancient land of Lucani. The origins of the name remain mysterious today: according to some historical studies, it seems that the meaning can be derived from the combination of Latin words ""Lucus"" (""Holy Woods"") and ""Lux"" (""Light""). ""The Lost Recipes"" are now finally rediscovered and made available to everyone in this book, with the hope that you too can become ""Guardians of Tradition"" over time.

There's something in the earth deep below Elise Kavanagh's territory. A shadow is falling upon local demons to devour their flesh and harvest their souls. And it's coming for Elise next. The Union has an easy way out. They want to send Elise into hiding again with her former partner, James Faulkner. All she has to do is surrender the territory and trust that they can protect the ethereal ruins, the dark gate, and the city she's come to know as home. Greater powers have other plans for Elise and her fabled power as Godslayer—plans that mean surrendering her life and blood to the most powerful demon alive. But if she descends, there's no turning back. Once she gazes into the abyss, it will gaze back into her...and Elise will be damned forever.

A young man with nothing left to lose makes a bargain with death—only to welsh on the bet. Lawrence Lariar was one the most popular cartoonists of the twentieth century. But from the 1940s through the 1960s, he also crafted a line of lean and mean detective and mystery novels under his own name as well as the pseudonyms Michael Stark, Adam Knight, Michael Lawrence, and Marston La France. Lariar now gets his due as a leading artist in hardboiled crime fiction. Tom Coyne's hardscrabble childhood and criminal career have left him with no friends, no family, and no prospects for the future. All he has now is a death wish. A criminal acquaintance from his past offers to make it come true—with a perk Tom can't refuse. He'll give Coyne ten thousand bucks to go out with a bang on booze and pricey dolls on the beaches of Miami. Just one small trade off: an unexpected "accident" when Coyne's time is up, and his benefactor will collect on his life insurance. What could go wrong? For starters, her name is Sue. The sweetest, most openhearted girl Coyne has ever met. Dammit if she hasn't given him a reason to live. And with the hot breath of a hired killer on his neck, a reason to run.

A Reader in Medical Anthropology: Theoretical Trajectories, Emergent Realities brings together articles from the key theoretical approaches in the field of medical anthropology as well as related science and technology studies. The editors' comprehensive introductions evaluate the historical lineages of these approaches and their value in

addressing critical problems associated with contemporary forms of illness experience and health care. Presents a key selection of both classic and new agenda-setting articles in medical anthropology Provides analytic and historical contextual introductions by leading figures in medical anthropology, medical sociology, and science and technology studies Critically reviews the contribution of medical anthropology to a new global health movement that is reshaping international health agendas

Today's electrocardiographs have become advanced and increasingly ergonomic devices, designed for use on the move, with touch screens and easy data export and sharing. Machines designed to speed up work in the clinic and manage more and more patients, equipped with computerized algorithms and software capable of generating an interpreted report in a few seconds. The automation that is gaining ground is not born to replace the human experience of the healthcare staff, but on the contrary it provides a complementary and useful help in the daily work routine.

This book is a multipurpose text that can be used in any class with a focus on comparative legal systems for corporations, taught in the U.S. or abroad. It contains cases, statutes, analysis and readings, the majority of which are from foreign jurisdictions. It also has extensive notes and questions. The focus is primarily on the U.S.,

U.K., major European continental civil law systems (France, Germany, Italy) and European Union law, and Japan; with references to other jurisdictions such as China, India and Brazil. In addition to law schools, the book may also appeal to non-law school professors of business administration, economics, and political science. In setting out to produce a casebook to meet the needs of students in different legal systems and on both introductory and advanced courses, make a contribution to scholarly debates and address practical and policy concerns, the authors set themselves ambitious goals, which they have amply achieved. This methodologically rigorous, insightful and stimulating book is rich in technical content but details are never allowed to obscure the main questions. The distinguished authors wear their scholarship lightly and the book is written in an admirably clear and accessible style. This book is a major addition to the growing literature on comparative corporate law and it is destined to shape the way we think about and teach the subject. Eilís Ferran, Professor of Company and Securities Law, Faculty of Law, University of Cambridge

Corporate law rules vary considerably around the world, and there is much that students of corporate law can learn from a comparative analysis of how different systems deal with similar problems. This casebook, co-authored by a group of experts with a rich set of perspectives, is thus a valuable and welcome addition to the

literature. Lucian A. Bebchuk, Professor of Law, Economics and Finance, Director, Program on Corporate Governance, Harvard Law School This excellent book is a welcome addition to the still relatively sparse comparative corporate law literature. It is a wonderful teaching resource and a useful reference for the scholar. Tan Cheng Han, Professor of Law and Chairman, Centre for Law & Business, Faculty of Law, National University of Singapore [Comparative Corporate Law by Ventrizzo and others] is both comprehensive and readily understandable. I think it will be a significant addition to both the literature and teaching material on comparative corporate governance. Martin Lipton, Founding Partner, Wachtell, Lipton, Rosen & Katz In-house counsels of firms operating internationally will find the book a practical and useful tool. Your own corporate issues aren't so unique after all, learning how others have approached theirs, across the world, is both instructive and refreshing, a must read! Antonino Cusimano, General Counsel and Secretary to the Board of Directors, Telecom Italia The materials collected and translated in English are precious and fascinating for a broad and international audience. The richness of the book is not, however, only in the materials carefully selected and sewn together, but also in the stitches that fasten them: The introductions, notes and questions, economic insights and empirical data that connect the materials allow readers to consider

the causes and consequences of different legal rules in different systems, and compare different regulatory strategies. Viviane Muller Prado, Professor of Corporate Law, Escola de Direito, Fundação Getulio Vargas, Sao Paulo, Brazil This book proves not only that corporate law is global, but also that a global approach is essential in order to understand the laws of different countries and how they interact. The book, innovative in both methodology and contents, will be indispensable for anyone who studies and practices corporate law
