Mystery turns to mortal danger as one young man's quest to clear his father's name ensnares him in a net of deceit, conspiracy, and intrigue in 1750s England. Caleb has spent his life roaming southern England with his Pa, little to their names but his father's signet ring and a puppet theater for popular, raunchy Punch and Judy shows — until the day Pa is convicted of a theft he didn't commit and sentenced to transportation to the colonies in America. From prison, Caleb's father sends him to the coast to find an aunt Caleb never knew he had. His aunt welcomes him into her home, but her neighbors see only Caleb's dark skin. Still, Caleb slowly falls into a strange rhythm in his new life . . . until one morning he finds a body washed up on the shore. The face is unrecognizable after its time at sea, but the signet ring is unmistakable: it can only be Caleb's father. Mystery piles on mystery as both church and state deny what Caleb knows. From award-winning British author Tanya Landman comes a heart-stopping story of race, class, family, and corruption so deep it can kill.

No subject in all of religion attracts as much controversy as the place of punishment we call hell. The idea that some people will suffer for ever breaks hearts, calls people to action and drives people away from faith. Yet for all our strong feelings about hell, most of us do not have a clear understanding of it. What, exactly, is hell—a real lake of fire and torture or something else? What is its purpose? Who ends up in hell, and can they ever escape? Drawing on the teachings of Scripture, his own experience and the thoughts of Christians who have come before, the author examines both traditional doctrines and alternate understandings of what hell really is and how it affects our lives

As the glittering skyline in Shanghai seemingly attests, China has quickly transformed itself from a place of stark poverty into a modern, urban, technologically savvy economic powerhouse. But as Scott Rozelle and Natalie Hell show in *Invisible China*, the truth is much more complicated and might be a serious cause for concern. China's growth has relied heavily on unskilled labor. Most of the workers who have fueled the country's rise come from rural villages and have never been to high school. While this national growth strategy has been effective for three decades, the unskilled wage rate is finally rising, inducing companies inside China to automate at an unprecedented rate and triggering an exodus of companies seeking cheaper labor in other countries. Ten years ago, almost every product for sale in an American Walmart was made in China. Today, that is no longer the case. With the changing demand for labor, China seems to have no good back-up plan. For all of its investment in physical infrastructure, for decades China failed to invest enough in its people. Recent progress may come too late. Drawing on extensive surveys on the ground in China, Rozelle and Hell reveal that while China may be the second-largest economy in the world, its labor force has one of the lowest levels of education of any comparable country. Over half of China's population—as well as a vast majority of its children—are from rural

areas. Their low levels of basic education may leave many unable to find work in the formal workplace as China ' s economy changes and manufacturing jobs move elsewhere. In Invisible China, Rozelle and Hell speak not only to an urgent humanitarian concern but also a potential economic crisis that could upend economies and foreign relations around the globe. If too many are left structurally unemployable, the implications both inside and outside of China could be serious. Understanding the situation in China today is essential if we are to avoid a potential crisis of international proportions. This book is an urgent and timely call to action that should be read by economists, policymakers, the business community, and general readers alike.

We live in age when the fear of hell no longer holds sway in society and even in the church the subject is so rarely mooted it seems almost taboo. The reason for that, it is argued, is fundamentally the consequence of evolution becoming the accepted explanation for the origin of our existence: by undermining the biblical explanation for Creation it has undermined the whole of the biblical witness. By arguing that evolution is demonstrably false and, to the contrary, drawing on science that presents compelling evidence that the natural world has a Creator, *Hell: Are You Serious?* argues that we therefore live in perilous times: since we have good reason to believe that the Bible is true and in particular that the teaching of Jesus is true, especially as it is borne

out in the lives and experience of those who put their trust in Him, we have to conclude that His warning of an eternal and final punishment for the unrighteous is a very real danger. Hell: Are You Serious? reaffirms the terrifying message of Jesus about hell and who goes there. Asking readers to be honest with themselves about what it is they believe and why they believe it, it makes an earnest appeal for them to consider the warnings of Christ afresh and believe.

***The Gates of Hell is the follow up to Michael Livingston's amazing The Shards of Heaven, a historical fantasy that reveals the hidden magic behind the history we know, and commences a war greater than any mere mortal battle. Alexandria has fallen, and with it the great kingdom of Egypt. Cleopatra is dead. Her children are paraded through the streets in chains wrought of their mother's golden treasures, and within a year all but one of them will be dead. Only her young daughter, Cleopatra Selene, survives to continue her quest for vengeance against Rome and its emperor, Augustus Caesar. To show his strength, Augustus Caesar will go to war against the Cantabrians in northern Spain, and it isn't long before he calls on Juba of Numidia, his adopted half-brother and the man whom Selene has been made to marry—but whom she has grown to love. The young couple journey to the Cantabrian frontier, where they learn that Caesar wants Juba so he can use the Trident of Poseidon to destroy his enemies. Perfidy and treachery abound. Juba's love of Selene will cost him dearly in the epic fight, and the choices made may change the very fabric of the known world. *Archibald had seen his father, the Rev. Robert L. Archibald, Jr., the son and grandson of Methodist preachers, as a moral authority, a moderate and a moderating force during the racial turbulence of the '60s, a loving and dependable parent, a forgiving and attentive minister, a man many Alabamians came to see as a saint. But was that enough? Even though Archibald grew up in Alabama in the heart of the civil rights movement, he could recall few words about racial rights or wrongs from his father's pulpit at a time the South seethed, and this began to haunt him. In this moving and powerful book, Archibald writes of his complex search, and of the conspiracy of silence his father faced in the South, in the Methodist Church and in the greater Christian church. Those who spoke too loudly were punished, or banished, or worse. Archibald's father was warned to guard his words on issues of race to protect his family, and he did. He spoke to his flock in the safety of parable, and trusted in the goodness of others, even when they earned none of it, rising through the ranks of the Methodist*
