In four new novellas, Christina Henry returns to the world of Alice and Red Queen, where magic runs as freely as secrets and blood. Lovely Creature In the New City lives a girl with a secret: Elizabeth can do magic. But someone knows her secret—someone who has a secret of his own. That secret is a butterfly that lives in a jar, a butterfly that was supposed to be gone forever, a butterfly that used to be called the Jabberwock... Girl in Amber Alice and Hatcher are just looking for a place to rest. Alice has been dreaming of a cottage by a lake and a field of wildflowers, but while walking blind in a snowstorm she stumbles into a house that only seems empty and abandoned... When I First Came to Town Hatcher wasn't always Hatcher. Once, he was a boy called Nicholas, and Nicholas fancied himself the best fighter in the Old City. No matter who fought him he always won. Then his boss tells him he's going to battle the fearsome Grinder, a man who never leaves his opponents alive... The Mercy Seat There is a place hidden in the mountains, where all the people hate and fear magic and Magicians. It is the Village of the Pure, and though Alice and Hatcher would do anything to avoid it, it ties directly in their path...

"A truly profound debut."—"Buzzfeed" A time-bending suspense that's contemplative and fresh, evocative and gripping."—"USA Today" Henry's story captivates, both as a romance and as an imaginative rethinking of time and space."—"Publishers Weekly" "This time-traveling, magical, and beautifully written love story definitely deserves a spot on your bookshelf."—"Bustle Emily Henry's stunning debut novel is Friday Night Lights meets The Time Traveler's Wife and perfectly captures those bittersweet months after high school, when we dream not only of the future, but of all the roads and paths we've left untaken. Natalie's last summer in her small Kentucky hometown is off to a magical start. . . until she starts seeing the "wrong things." They're just momentary glimpses at first—her front door is red instead of its usual green, there's a preschool where the garden store should be. But then her whole town disappears for hours, fading away into rolling hills and grazing buffaloes, and Nat knows something isn't right. Then there are the visits from the kind but mysterious apparition she calls "Grandmother," who tells her, "You have three months to save him." The next night, under the stadium lights of the high school football field, she meets a beautiful boy named Bean, and it's as if time just stops and nothing exists. Nothing, except Natalie and Bean.

Maxie McNabb rushes to Hawaii to assist an old friend, Karen Bailey, in packing up her house after a frantic call, a job that is soon complicated by a mysterious prowler, telephone sabotage, and her old friend's secrets.

The first in a ground-breaking two-volume history of Henry III's rule "Professor Carpenter is one of Britain's foremost medievalists...No one knows more about Henry, and a lifetime of scholarship is here poured out, elegantly and often humorously. This is a fine, judicious, illuminating work that should be the standard study of the reign for generations to come."--Dan Jones, The Sunday Times Nine years of age when he came to the throne in 1216, Henry III had to rule within the limits set by the establishment of Magna Carta and the emergence of parliament. Pacific, conciliatory, and deeply religious, Henry brought many years of peace to England and rebuilt Westminster Abbey in honor of his patron saint, Edward the Confessor. He poured money into embellishing his palaces and creating a magnificent court. Yet this investment in "soft power" did not prevent a great revolution in 1258, led by Simon de Montfort, ending Henry's personal rule. Eminent historian David Carpenter brings to life Henry's character and reign as never before. Using source material of unparalleled richness--material that gets closer to Henry than any other medieval monarch--Carpenter stresses the king's achievements as well as his failures while offering an entirely new perspective on the intimate connections between medieval politics and religion.

"A must-read for anyone interested in moving from inspiration to action."—Cal Newport, author of So Good They Can't Ignore You Most of us fill our days with frantic activity, bouncing from task to task, scrambling to make deadlines and chase the next promotion. But by the end of each day we're often left wondering if any of it really mattered. We feel the ticking of the clock, but we're unsure of the path forward. Die Empty is a tool for people who aren't willing to put off their most important work for another day. Todd Henry explains the forces that lead to stagnation and introduces practices that will keep you on a true and steady course. The key is embracing the idea that time is finite, so you should focus on the unique contribution to the world that only you can make. Henry shows how to sustain your enthusiasm, push through mental barriers, and unleash your best work each day.

(You suspect it was the President of the United States, but can you prove it?) - Why your mom abandoned you when you were six years old? (Was it because she worked for the CIA? Or was it because of your condition?) - What caused your strange condition where you wake up at exactly 3:00 a.m. then fall asleep exactly an hour later, then sleep for twenty-three hours? (Were you experimented on? If so, by who?) - And most importantly, what is Project Sandman? Welcome to Henry Bins's life. The Three Lieutenants

Charismatic, insatiable and cruel, Henry VIII was, as John Guy shows, a king who became mesmerized by his own legend - and in the process destroyed and remade England. Said to be a 'pillager of the commonwealth', this most instantly recognizable of kings remains a figure of extreme contradictions: magnificent and vengeful; a devout traditionalist who oversaw a cataclysmic rupture with the church in Rome; a talented, towering figure who nevertheless could not bear to meet people's eyes when he talked to them. In this revealing new account, John Guy looks behind the mask into Henry's mind to explore how he understood the world and his place in it - from his isolated upbringing and the blazing glory of his accession, to his desperate quest for fame and an heir and the terrifying paranoia of his last, agonising, 54-inch-waisted years.

The neighbors aren't too happy about Henry and his beat-up old house. Why doesn't he clean it up, and weed his garden and sweep his walk? Henry's got better things to do. Tired of being bothered, he finally gets fed up and moves away. The funny thing is, nobody's really happy when he goes--not the neighbors, and not Henry. Here is a wise and witty tale about different kinds of people learning to get along.

The Serpent King meets Stranger Things in Emily Henry's gripping novel about a group of friends in a small town who find themselves dealing with unexpected powers after a cosmic event. Almost everyone in the small town of Splendor, Ohio, was affected when the local steel mill exploded. If you weren't a casualty of the accident yourself, chances are a loved one was. That's the case for seventeen-year-old Franny, who, five years after the explosion, still has to stand by and do nothing as her brother lies in a coma. In the wake of the tragedy, Franny found solace in a group of friends whose experiences mirrored her own. The group calls themselves The Ordinary, and they spend their free time investigating local ghost stories and legends, filming their exploits for their small following of YouTube fans. It's silly, it's fun, and it keeps them from dwelling on the sadness that surrounds them. Until one evening, when the strange and dangerous thing they film isn't fiction—it's a bright light, something massive hurtling toward them from the sky.

A collection of four stories follows Henry as he tries to trick the Tooth Fairy, is a ring bearer at his uncle's wedding, puts up with a moody houseguest, and gets a new teacher.

"A beautiful, lyrical, and achingly brilliant story about love, grief, and family. Henry's writing will leave you breathless."—BuzzFeed Romeo and Juliet meets One Hundred Years of Solitude in Emily Henry's brilliant follow-up to The Love That Split the World, about the daughter and son of two long-feuding families who fall in love while trying to uncover the truth about the strange magic and harrowing curse that has plagued their bloodlines for generations. In their hometown of Five Fingers, Michigan, the O'Donnells and the Angerts have mythic legacies. But for all the tall tales they weave, both founding families are age-gripped and about what caused the century-old rift between them, except to say it began with a cherry tree. Eighteen-year-old Jack "June" O'Donnell doesn't need a better reason than that. She's an O'Donnell to her core, just like her late father was, and O'Donnells stay away from Angerts. Period. But when Saul Angert, the son of June's father's mortal enemy, returns to town after three mysterious years away, June can't seem to avoid him. Soon the unthinkable happens: She finds she doesn't exactly hate the gruff, sarcastic boy she was born to loathe. Saul's arrival sparks a chain reaction, and as the magic, ghosts, and coywolves of Five Fingers conspire to reveal the truth about the dark moment that started the feud, June must question everything she knows about her family and the father she adored. And she must decide whether it's finally time for her—and all of the O'Donnells before her—to let go.

Which is why she agrees to go to Sunshine Falls, North Carolina for the month of August when Libby begs her for a sisters' trip away—with visions of a small town transformation for Nora, who she's convinced needs to become the heroine in her own story. But instead of picnics in meadows, or run-ins with a handsome country doctor or bulging-forearmed bartender, Nora keeps bumping into Charlie Lastra, a bookish brooding editor from back in the city.
