to accompany the critically acclaimed exhibition that opened at the Metropolitan Museum in October 2007. It features essays written by renowned scholars in the field, presenting the results of detailed research, both exploring the manufacture of tapestries designed by outstanding artists and woven of costly materials, and casting new light on the commissioning and collecting of these precious objects during the 17th century.

Lo scopo della psicologia dello sviluppo è descrivere e spiegare i cambiamenti nel comportamento e nelle attività psicologiche dal periodo prenatale fino alla vecchiaia. Il

Read Book In Alto E In Largo Seven Second Summits

volume affronta in modo approfondito i principali temi della psicologia dello sviluppo dal periodo prenatale fino alla vecchiaia, esaminandone sia gli aspetti biologici che quelli culturali. Nel testo sono presentate le più importanti teorie dello sviluppo in una prospettiva storica e, in particolare, quelle di Piaget, Vygotskij e Bowlby, che permettono di comprendere gli orientamenti della ricerca contemporanea e forniscono una sintesi moderna rispetto alle radicali posizioni innatiste e ambientaliste. Il testo presenta inoltre recenti ipotesi, sostenute da evidenze sperimentali, che hanno

Read Book In Alto E In Largo Seven Second Summits

portato a parziali revisioni di queste teorie. Il volume fornisce in tal modo una visione complessiva e aggiornata delle questioni teoriche e metodologiche più rilevanti della psicologia dello sviluppo ed è consigliato per studenti universitari, insegnanti, operatori del settore, genitori e per tutti coloro che sono interessati a questa disciplina. Il curatore di questa edizione ha inoltre apportato integrazioni e adattamenti specifici per il pubblico italiano. A tal fine, sono state anche illustrate recenti ricerche italiane rilevanti per i temi trattati nel testo.

This study presents an overview of the wooden furniture that has come to light since the rediscovery of Herculaneum in the 18th century, with an emphasis on the form, function and the techniques employed. The combination of comments in the excavation reports with the information derived from the surviving pieces of furniture and fittings made of other materials as well as indications for the presence of furniture in the architecture and decoration of the houses, offers a representative idea of the role of wooden furniture in the interior arrangements of
