This training guide introduces development practitioners, policy analysts, and students to social accounting matrices (SAMs) and their use in policy analysis. There are already a number of books that explain the System of National Accounts and SAM multipliers-some of these are recommended at the end of this training guide. However, most books tend to be quite technical and move quickly from an introduction to more complex applications. By contrast, this guidebook uses a series of hands-on exercises to gradually introduce SAMs and multiplier analysis. It therefore complements more theoretical SAM and multiplier literature and provides a first step for development practitioners and students wishing to understand the strengths and limitations of these economic tools. It is also useful for policy analysts and researchers embarking on more complex SAM-based methodologies. One such methodology is computable general equilibrium (CGE) modeling, for which IFPRI has also developed a series of introductory exercises and a standard modeling framework. To download the exercises, go to www.ifpri.org/publication/social-accounting-matrices-and-multiplier-analysis

'International Express' has a formula that combines general English with business situations. It gives students the social and functional English they need to work, travel, and socialize. The new editions come with a MultiROM with extra interactive self-study material.

Perspectives teaches learners to think critically and to develop the language skills they need to find their own voice in English. The carefully guided language lessons, real-world stories and TED Talks motivate learners to think, creatively and communicate effectively.

Reinforces skills and task types covered in the Coursebook; practises key vocabulary and grammar; can be used in the classroom or for self-study.

The Health and Safety Pocket Book is a handy reference tool for practising health and safety professionals, auditors, managers, HR personnel, employee representatives and anyone with health and safety responsibilities. It is an essential compilation of guidance, data and checklists covering a wide range of health and safety topics, supported by extensive key glossary terms. The A-Z arrangement within the chapters and extensive cross-referencing make the book easy to navigate, while its size and scope make it the ideal volume for ready reference and site visits. The book will also be useful for health and safety courses at all levels. Key features include: The principal health and safety legal requirements for every industry Safety management elements and systems Checklists for major hazards affecting all industries A wealth of charts, hard to remember details and data A glossary of the main concepts of health and safety A list of important health and safety courses, publications and organisations Jeremy Stranks has over 40 years' experience in occupational safety and health enforcement, management consultancy and training. He is a founding member of NEBOSH and has lectured on all aspects of health and safety. His company Safety & Hygiene Consultants offers organisations advice in the preparation of Statements of Health and Safety Policy, risk assessment and safety monitoring procedures, together with in-house training for all levels of management. He also undertakes expert witness work in both criminal and civil cases.
