*When Aldous Huxley wrote his famous novel **Brave New World**, he did so with the sincere belief that the dystopian world he created was a true possibility given the direction of the social, political and economic world order. Written almost thirty years later, **Brave New World***

***Revisited is a re-evaluation of his predictions based on the changes he had witnessed in the meantime. In this twelve-part essay, Huxley argues that society is moving toward his dystopian vision even faster than he had originally assumed, and provides his own suggestions on how to bring an end to this decadent decline. Brave New World Revisited condemns symptoms of modern life such as overpopulation, propaganda and extreme government control while providing a staunch defence of***

Andrea Zanzotto is one of the most important and acclaimed poets of postwar Italy. This collection of ninety-one pseudo-haiku in English and Italian—written over several months during 1984 and then revised slowly over the years—confirms his commitment to experimentation throughout his life. *Haiku for a Season* represents a multilevel experiment for Zanzotto: first, to compose poetry bilingually; and second, to write in

a form foreign to Western poetry. The volume traces the life of a woman from youth to adulthood, using the seasons and the varying landscape as a mirror to reflect her growth and changing attitudes and perceptions. With a lifelong interest in the intersections of nature and culture, Zanzotto displays here his usual precise and surprising sense of the living world. These never-before-published original poems in English appear alongside their Italian versions—not strict translations but parallel texts that can be read separately or in conjunction with the originals. As a sequence of interlinked poems,

Haiku for a Season reveals Zanzotto also as a master poet of minimalism. Zanzotto's recent death is a blow to world poetry, and the publication of this book, the last that he approved in manuscript, will be an event in both the United States and in Italy.

The European Respiratory Society (ERS) Handbook of Respiratory Medicine, now in its third edition, is a concise, compact and easy-to-read guide to each of the key areas in respiratory medicine. Its 20 sections, written by clinicians and researchers at the forefront of the field, explain the structure and function of the

respiratory system, its disorders and how to treat them. The Handbook is a must-have for anyone who intends to remain up to date in the field, and to have within arm's reach a reference that covers everything from the basics to the latest developments in respiratory medicine.

Fall in love with the addictive, suspenseful love story between a teenage girl and a vampire with the book that sparked a "literary phenomenon" and redefined romance for a generation (New York Times). Isabella Swan's move to Forks, a small, perpetually rainy town in Washington, could have been the

most boring move she ever made. But once she meets the mysterious and alluring Edward Cullen, Isabella's life takes a thrilling and terrifying turn. Up until now, Edward has managed to keep his vampire identity a secret in the small community he lives in, but now nobody is safe, especially Isabella, the person Edward holds most dear. The lovers find themselves balanced precariously on the point of a knife -- between desire and danger. Deeply romantic and extraordinarily suspenseful, Twilight captures the struggle between defying our instincts and satisfying our desires. This is a love story with

Translation of dalla  
parole delle bambine.

In his theory of the novel, Guido Mazzoni explains that novels consist of stories told in any way whatsoever about the experiences of ordinary men and women who exist as contingent beings within time and space. Novels allow readers to step into other lives and other versions of truth, each a small, local world, absolute in its particularity.
