Is the ultimate destination ordained to be mankind's final foe? Weird events tear apart the life of young pilot Axle Lidenbrock II, adventurous great nephew of the legendary explorer in Jules Verne's Journey to the Center of the Earth. A mysterious note from his long-lost father to rescue him from the mythical land of Shambala proves real, and he launches a secret expedition to save him, but the voyage is hijacked. A desperate reporter, a blind detective stowaway, and a murderer jeopardize the journey and they crash in the Antarctic. Axle's heroism leads them to a fabled entrance to the lost world below, and they descend into a subterranean futuristic kingdom that holds a horrifying secret never before revealed.

These literary masterpieces are made easy and interesting. This series features classic tales retold with color illustrations to introduce literature to struggling readers. Each 64-page eBook retains key phrases and quotations from the original classics. Take a journey into the future of science and imagination, as seen through the eyes of Jules Verne. The adventures of Henry, Hans, and Professor Von Hardwigg take the reader from the surface of a planet they know to a world alien to them located deep inside the earth. Verne shows man's ability to survive even in the most adverse conditions and proves that survival is man's most basic instinct. He brings out the adventurer in all of us.

Journey to the Centre of the Earth 'Journey to the center of the Earth' is a classic novel by Jules Verne (8th February 1828 24th March 1905). He was a French novelist, poet, and playwright. Firstly, this classic science fiction*

*novel was published in French in 1864. Verne's innovation was the concept of the prehistoric realm. Actually he developed a passion for travelling and adventure at an early age. He wrote a series of best-selling adventure novels. 'Twenty thousand leagues under the Seas', 'Around the world in Eighty days'. It also includes 'Journey to center of the earth', 'From the earth to the moon', 'The mysterious island', 'Off on a comet'. Verne has put his best efforts for this novel's distinction, based on well-researched Victorian science. The journey begins in Hamburg, Germany, where Axel lives with his uncle. Its main theme is perseverance toward a larger goal, and the power of earth.*

Journey to the Centre of the Earth has been consistently praised for its style and its vision of the world. It explores the prehistory of the globe, but can also be read as a psychological quest, for the journey itself is as important as arrival or discovery. Professor Lidenbrock and his nephew Axel travel across Iceland, and then down through an extinct crater towards a sunless sea where they enter a living past and are confronted with the origins of man. A classic of nineteenth-century French literature, the novel's distinctive combination of realism and Romanticism has marked figures as diverse as Sartre and Tournier, Mark Twain and Conan Doyle. This new translation of the complete text is faithful to the lyricism, verve, and humour of the original. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

Structophis is a heartwarming YA adventure from the author of The Book of Deacon, Bypass Gemini, and Free-Wrench. It is based upon a concept and artwork by ProjectENDO. In a small town in Colorado, Markus Spiros was just getting his life on track. By day he worked as a veterinary tech, by night he took classes. His steady little routine was rolling along nicely when his impulsive Uncle Dimitrios threw a wrench in the works. Thanks to an unannounced trip, Markus had to swing by his uncle's bistro to tend to the 'special oven.' When he arrived, he discovered it wasn't the oven that was special, it was the rare and exotic egg that had been incubating inside it. And now it had hatched. Suddenly, Markus found his life had become a good deal more

complicated. The creature was a Structophis Gastrignae—a strange creature that was equal parts dragon and oven—and she ’ d become quite a big girl. Large as a refrigerator and curious as a toddler, the creature he ’ d dubbed Blodgette would have been a handful in any situation. Markus had bigger problems than figuring out how to take care of her, though. Owning such a rare and special beast was illegal, so should the cops learn of it, Markus would be destined for jail. Worse, there were certain unscrupulous people who would do anything to acquire Blodgette. Now, with the help of his old classmate Gale, Markus must scramble to stay two steps ahead of the authorities and a corrupt CEO, all while being the best ‘ mommy ’ he can be to his brand-new pizza dragon.

Suitable for children 8-12 years old, great literary classics are retold in full-colour, graphic novel style. The story is engaging and easy to read and a child's first exposure to great classics and remarkable authors. Excellent as introductory readers to great literary works.

***Discover the secret world beneath ours in this abridged version of Jules Verne’s Journey to the Centre of the Earth. Summary of the Book When Alex hears his uncle proclaim that they are about to embark on a quest to find a crater, he is surprised. For one thing, it means leaving his betrothed to go on a mad quest. For another, it means going to Iceland to find a certain crater that leads down into a mysterious world. But Professor Lidenbrock is a hard man to ignore. Fuelled by the spirit of adventure, Alex leaves with Lidenbrock to find this mysterious crater which will take them to a world below the surface. They hire a guide called Hans who takes them to the volcano. Down one of its three craters, these three travellers find a majestic world hidden for centuries, even millennia. Here, prehistoric creatures roam free, and a huge species of man walks upright. Here, there is a large ocean where Palaeolithic creatures rule undeterred by the passage of time. If these three travellers can return home, this discovery will make them rich and famous beyond their wildest dreams. But then again, to do so they will have to find a way out of this world. And so far, there doesn’t seem to be one. About Jules Verne Jules Verne was a French novelist best associated with his books Twenty Thousand Leagues Under The Sea, In Search of the Castaways, The Mysterious Island and Around The World In Eighty Days. The above title has been adapted into several films, including a recent 3-D film by Eric Brevig, starring Brendan Fraser, Anita Briem and Josh Hutcherson. This film is a loose adaptation and is intended to be a sequel rather than a true adaptation of Verne’s text.***

***“Ellen Datlow is the queen of anthology editors in America.”—Peter Straub With original stories by Jeffrey Ford, Pat Cadigan, Elizabeth Bear, Margo Lanagan, and others From Del Rey Books and award-winning editor Ellen Datlow, two of the most respected names in science fiction and fantasy, comes a collection of fifteen all-new short stories, plus a science fiction novella, that could count as a virtual “best of the year” anthology. Here you will find slyly twisted alternate histories, fractured fairy tales, topical science fiction, and edgy urban fantasy. In “Dalthree,” World Fantasy Award–winning author Jeffrey Ford spins a chilling tale of a city in a bottle—and the demented genius who put it there. In “Sonny Liston Takes the Fall,” John W. Campbell Award–winning author Elizabeth Bear pens a poignant and eerie requiem for the heavyweight forever associated with his controversial loss to Cassius Clay. From hot new writer Margo Lanagan comes “The Goosle,” a dark, astonishing take on Hansel and Gretel. In the novella “Prisoners of the Action,” Paul McAuley and Kim Newman take a trip down a rabbit hole that leads to a Guantanamo-like prison whose inmates are not just illegal but extraterrestrial. Many of the writers you’ll recognize. Others you may not. The intrepid Professor Lindenbrock embarks upon the strangest expedition of the nineteenth century: a journey down an extinct Icelandic volcano to the Earth’s very core. In his quest to penetrate the planet’s primordial secrets, the geologist—together with his quaking nephew Axel and their devoted guide, Hans—discovers an astonishing subterranean menagerie of prehistoric proportions. Verne’s imaginative tale is at once the ultimate science fiction adventure and a

reflection on the perfectibility of human understanding and the psychology of the questor. As David Brin notes in his Introduction, though Verne never knew the term “science fiction,” Journey to the Centre of the Earth is “inarguably one of the wellsprings from which it all began.”

“A powerful illustration of the obstacles our society continues to throw up in the paths of ambitious young women.” —The New York Times Book Review “Important . . . empowering.” —Gayle King, CBS This Morning “That [Fowler] became a whistle-blower and a pioneer of a social movement almost seems inevitable once you get to know her. Uber should have seen her coming.” —San Francisco Chronicle Named a Best Book of 2020 by NPR Susan Fowler was just twenty-five years old when her blog post describing the sexual harassment and retaliation she'd experienced at Uber riveted the nation. Her post would eventually lead to the ousting of Uber's powerful CEO, but its ripples extended far beyond that, as her courageous choice to attach her name to the post inspired other women to speak publicly about their experiences. In the

year that followed, an unprecedented number of women came forward, and Fowler was recognized by Time as one of the "Silence Breakers" who ignited the #MeToo movement. Here, she shares her full story: a story of extraordinary determination and resilience that reveals what it takes--and what it means--to be a whistleblower. Long before she arrived at Uber, Fowler's life had been defined by her refusal to accept her circumstances. She propelled herself from an impoverished childhood with little formal education to the Ivy League, and then to a coveted position at one of the most valuable companies in the history of Silicon Valley. Each time she was mistreated, she fought back or found a way to reinvent herself; all she wanted was the opportunity to define her own dreams and work to achieve them. But when she discovered Uber's pervasive culture of sexism, racism, harassment, and abuse, and that the company would do nothing about it, she knew she had to speak out—no matter what it cost her. Whistleblower takes us deep inside this shockingly toxic workplace and reveals new details about the aftermath of the blog post, in which Fowler was investigated and followed, hacked and threatened, to the point that she feared for her life. But even as it illuminates how the deck is stacked in favor of the status quo, Fowler's story serves as a crucial reminder that we can take our power back. Both moving personal narrative and rallying cry, Whistleblower urges us to be the heroes of our own stories, and to keep fighting for a more just and equitable world.

**“A badass debut by any measure—nimble, knowing, and electrifying.” —Colson Whitehead, Pulitzer Prize-winning author of *The Nickel Boys* and *Harlem Shuffle* "...'My Monticello' is, quite simply, an extraordinary debut from a gifted writer with an unflinching view of history and what may come of it." — The Washington Post Winner of the Weatherford Award in Fiction A winner of 2022 Lillian Smith Book Awards** A young woman descended from Thomas Jefferson and Sally Hemings driven from her neighborhood by a white militia. A university professor studying racism by conducting a secret social experiment on his own son. A single mother desperate to buy her first home even as the world hurtles toward catastrophe. Each fighting to survive in America. Tough-minded, vulnerable, and brave, Jocelyn Nicole Johnson’s precisely imagined debut explores burdened inheritances and extraordinary pursuits of belonging. Set in the near future, the eponymous novella, “My Monticello,” tells of a diverse group of Charlottesville neighbors fleeing violent white supremacists. Led by Da’Naisha, a young Black descendant of Thomas Jefferson and Sally Hemings, they seek refuge in Jefferson’s historic plantation home in a desperate attempt to outlive the long-foretold racial and environmental unravelling within the nation. In “Control Negro,” hailed by Roxane Gay as “one hell of a story,” a university professor devotes himself to the study of racism and the development of ACMs (average American Caucasian males) by clinically observing his own son from birth in order to “painstakingly mark the route of this Black child too, one whom I could prove was so strikingly decent and true that America could not find fault in him unless we as a nation had projected it there.” Johnson’s characters all seek out home as a place and an internal state, whether in the form of a Nigerian widower who immigrates to a meager existence in the city of Alexandria, finding himself adrift; a young mixed-race woman who adopts a new tongue and name to escape the landscapes of rural Virginia and her family; or a single mother who seeks salvation through “Buying a House Ahead of the Apocalypse.” United by these characters’ relentless struggles against reality and fate, *My Monticello* is a formidable book that bears witness to this country’s legacies and announces the arrival of a wildly original new voice in American fiction.
