Step up to the plate and try not to lose your lunch, with 300 all-new, amazing facts plus photos that kids just can't get enough of"-- Provided by publisher.

A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. A Wrinkle in Time, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.

Dive into these fishy facts: Did you know that the prehistoric shark, megalodon, had jaws so big that it could swallow a car? Or that goats, pigs, dogs, cats, and even an alpaca have all learned how to surf? And if that's not weird enough for ya, one man even rowed solo across the Pacific Ocean for 312 days! In this book filled with 300 wacky facts and pictures, you'll glimpse the ocean's weirdest wildlife, uncover shocking shipwrecks, and meet sensational seafarers, from pirates and sailors to ground-breaking marine scientists. Perfect for ocean enthusiasts and trivia-loving landlubbers alike!
