Madrid in the eighties, and Barcelona ten years later. In these two vibrant locales, Castaways follows the relationship between Alejandra and Julio against the backdrop of these poetic urban spaces where dreams, love, and uncertainty intertwine. Drawn to one another but constantly pushed or pulled in different directions by work, family, and life, Alejandra and Julio circle in and out of each other's lives, while first denying and then coming to accept the fact that by the time they are ready to love one another, the chance has already passed. Intensely emotive and poignant, this stunning graphic novel from Laura Pérez and Pablo Monforte depicts themes of maturity, responsibility, and human connection. Available in English for the first time with translation by Silvia Perea Labayen.

On the island of Arcosi, dragons and their riders used to rule the skies. But now they are only legends, found in bedtime stories, on beautiful murals and ancient jewellery. Forced to keep them secret amidst the growing tensions in the city, she begins to fear that the island's ruler, Duke Olvar, isn't all that he seems. But how can Milla and her friends keep the eggs safe when it means endangering everything

she's ever loved? Fiery friendships, forgotten family and the struggle for power collide as Milla's fight to save the dragons leads her to discover her own hidden past.

W. E. B. Du Bois was a public intellectual, sociologist, and activist on behalf of the African American community. He profoundly shaped black political culture in the United States through his founding role in the NAACP, as well as internationally through the Pan-African movement. Du Bois's sociological and historical research on African-American communities and culture broke ground in many areas, including the history of the post-Civil War Reconstruction period. Du Bois was also a prolific author of novels, autobiographical accounts, innumerable editorials and journalistic pieces, and several works of history. One of the most neglected and obscure books by W. E. B. Du Bois, In Battle for Peace frankly documents Du Bois's experiences following his

attempts to mobilize Americans against the emerging conflict between the United States and the Soviet Union. A victim of McCarthyism, Du Bois endured a humiliating trial-he was later acquitted-and faced political persecution for over a decade. Part autobiography and part political statement, In Battle for Peace remains today a powerful analysis of race in America. With a series introduction by editor Henry Louis Gates, Jr., and an introduction by Manning Marable, this edition is essential for anyone interested in African American history. For all dog-lovers, a heart-warming and original story about the origins of one of Scotland's best-loved characters.

An unmissable essay on the importance of children's literature by the bestselling and award-winning author, Katherine Rundell.'Rundell is the real deal, a writer of boundless gifts and extraordinary imaginative power whose novels will be read, cherished and reread long after most so-called "serious" novels are forgotten' - ObserverKatherine Rundell - Fellow of All Souls College, Oxford, and prize-winning author of five novels for children - explores how children's books ignite, and can re-ignite, the imagination; how children's fiction, with its unabashed emotion and playfulness, can awaken old hungers and create new perspectives on the world. This delightful and persuasive essay is for adult readers. When you look at fine connections, it's hard to say exactly what relation "Alice in Wonderland" has to this book, "Through the Looking-Glass," Oh, it's plainly the same girl, though she seems older, here, and some characters (like Tweedledum and Tweedledee) appear in both. But she doesn't get there the same way, and doesn't refer to her adventures in Wonderland so much as once. Oh well: maybe it's all a dream and she can't

remember the last one -- or maybe the magic through the Looking-Glass has hold of her, just as it has hold of Humpty Dumpty, or the Walrus and the Carpenter.

The past two decades have witnessed increasing opposition to mafia influence and activities in Italy. Community organizations such as Libera, founded in 1995, and Addiopizzo, originating in 2004, exemplify how Italian society has tried to come together to promote antimafia activities. The societal opposition to mafia influence continues to grow and the Internet has become a frontline in the battle between the two groups. The Italian Antimafia, New Media, and the Culture of Legality is the first book to examine the online battles between the mafia and its growing cohort of opponents. While the mafia's supporters have used Internet technologies to expand its power, profits, and violence, antimafia citizens employ the same technologies to recreate Italian civil society. The contributors to this volume are experts in diverse fields and offer interdisciplinary studies of antimafia activism and legality in online journalism, Twitter, YouTube, digital storytelling, blogs, music, and photography.

Marie Kondo's first book, *The Life-Changing Magic of Tidying*, transformed the homes and lives of millions of people around the world. *Spark Joy* is her in-depth tidying masterclass, a line-illustrated, room-by-room guide to decluttering and organising your home. It covers every room in the house - from the bedroom and kitchen to the bathroom and living room - as well as all the items that occupy their spaces. Charming line drawings explain how to organise your house and apply Marie Kondo's unique folding method to all your clothes, including shirts, trousers, jackets, skirts, socks and bras. The secret to Marie Kondo's unique and simple KonMari tidying method is to tidy by category and to focus on what you want to keep, not what you want to get rid of. Ask yourself if something 'sparks joy' and suddenly it becomes so much easier to understand if you really need it in your home and your life. Except tidying up is not just about transforming your home: when you surround yourself with things you love, you will find that your whole life begins to change.

From the mind of Ryukishi07, creator of classics such as *Higurashi* and *Umineko*, comes a heart-pounding, full-throttle *Harem Royale*! *Kohinata Asunaro* is your regular

everyday high school student. He likes light novels, porn games, and fantasizing about the girls in his class. One day when walking home from school he inexplicably releases a demon from a sealed bottle. Her name is Zepafur, and she won't rest until her debt is repaid! "Now begins the Lovey Dovey Harem Royale!" cries the demon, weaving a most curious magic. As a result, Asunaro's regular high school life transforms into a love-comedy series of harem shenanigans, with four girls from his school all vying for his affection, wow! But... Unbeknownst to our dopey protagonist, the four girls are in the midst of a horrific survival game under threat of death and eternal torture. She who fails to capture Asunaro's heart will be confined to the depths of Hell and killed ad infinitum! Just who will survive? Who will thrive? And who will meet their demise?

Pop culture—and the advertising that surrounds it—teaches young girls and boys five myths about sex and sexuality: Girls don't choose boys, boys choose girls—but only sexy girls; there's only one kind of sexy—slender, curvy, white beauty; girls should work to be that type of sexy; the younger a girl is, the sexier she is; and sexual violence can be hot. Together, these five myths make up the Lolita Effect, the mass media trends that work to undermine girls' self-confidence, that condone female objectification, and that tacitly foster sex crimes. But identifying these myths and breaking them down can help girls learn to recognize progressive and healthy sexuality and protect themselves from degrading media ideas and sexual vulnerability.

studies by focusing primarily on screen adaptations and appropriations of Victorian literature and culture. More specifically, this monograph spotlights the overlapping yet often conflicting drives at work in representations of Victorian heroines in contemporary film and TV.

Primorac ' s close analyses of screen representations of Victorian women pay special attention to the use of costume and clothes, revealing the tensions between diverse theoretical interventions and generic (often market-oriented) demands. The author elucidates the push and pull between postcolonial critique and nostalgic, often Orientalist spectacle; between feminist textual interventions and postfeminist media images. Furthermore, this book examines neo-Victorianism ' s relationship with postfeminist media culture and offers an analysis of the politics behind onscreen treatment of Victorian gender roles, family structures, sexuality, and colonial space.

Over 1,000 New York-based technology startups are currently hiring. This may come as a surprise to many who thought of New York as the capital of traditional industries such as financial services, media, advertising and fashion, but not necessarily as a high-tech hub. Yet, it is true: over the past several years the level of startup activity in the city of New York has increased at an exponential rate, reaching and surpassing Boston in number of tech companies formed and money invested. It is good news for the Bloomberg administration that has made the creation of a high-tech industry a strategic priority after the financial collapse of 2008. It is also good news for the many investors in the city (both "angels" and venture capitalists) who have seen the number of opportunities created increase at a fast rate. And it is good news for the entrepreneurs who can finally benefit from a working ecosystem and from an influx of capital not seen since the internet bubble of the late '90s. "Tech and the City" is the first book telling the story of how and why this is happening: from the birth of Silicon Alley in the '90s to today's level of activity and important milestones, such as the building of the Cornell NYC Tech campus. Based on over 50 interviews with entrepreneurs, angel investors, venture capitalists, university professors, members of the Bloomberg administration and other stakeholders, this book's objective is to inform and inspire the current generation of entrepreneurs. Fred Wilson, the best known venture capitalists in New York

and one of the most important in the US, wrote in his foreword: "I hope this book will be an inspiration to New Yorkers to embrace the technology revolution that has taken hold in our city. I also hope it will be an inspiration to other cities, countries, and cultures who may have missed out on the initial wave of the technology revolution." "Tech and the City" takes us on a historical and geographical tour of New York, while addressing the hot themes for entrepreneurs and investors. It is also a guide to help navigate the NYC community: how to network and become part of the community; what to read to understand and keep informed; where to raise capital; what help is available for any professional, entrepreneur, student, researcher seeking to settle in the city. And this is just the basis for an ongoing conversation, which we hope will continue on our blog, <http://www.tech-and-the-city.com> The authors, Alessandro Piol and Maria Teresa Cometto, know the story and the industry well. Alessandro has been a New Yorker for 35 years and a venture capitalist for 20, during which he has seen firsthand the evolution of the New York entrepreneurial ecosystem. He has a deep knowledge of the tech industry and a passionate involvement in the NYC community, where he invests in, and mentors, a number of young entrepreneurs. Maria Teresa Cometto is a journalist and award-winning author based in New York since 2000, covering business and high-tech for the largest Italian daily, Corriere della Sera, and for other important publications.
