If you continue to do ONLY what you feel like doing, then you will never truly change the way that you are FEELING. Emotions can be raw. Powerful. So powerful that they sometimes feel too powerful for us. We don't think we have enough strength to learn to control them, and therefore, we let emotions dictate our actions. Painful emotions are not easy to deal with. Not even a little bit. But is it necessary to learn to master them? Absolutely. Success can only be achieved by those who have mastered the ability to stay calm and calculation in situations that challenge them the most. To master your emotions, you need to understand why you feel the way that you do. It's not going to be easy to confront some of the reasons behind your emotions. Especially the unpleasant, negative ones. Some emotions could bring up memories from your past that are incredibly painful to deal with. It would be a lot easier if you could go through life without ever confronting your demons, but that's not the way the world works. There are two kinds of people in this world. The ones who are conquerors, and the ones to allow themselves to be conquered. To achieve greatness and the success you've longed for, you need to become the former. The world is tough, and only the strong-willed will survive. You need to be a leader, not a follower. Why do we feel the way that we do? What's triggering these emotions? Are the external circumstances we face dictating the way that we feel? Or are we responsible for creating these emotions in our minds? Those are some very good questions indeed. What if you were told that you are the one responsible for CREATING your emotions? It's not what happens to you. It the way you think about what has happened. It is the value and meaning that your mind assigns to these circumstances that ultimately influence the way you feel. How? Well, those fundamental questions are going to be some of the many areas you're going to explore over the next few chapters in this book as you learn how to become the master of the most powerful force within you: Your emotions. Master Your Emotions will walk you through every step of the process as you develop a greater insight and understanding into the most fundamental part of who we are as human beings. How to identify emotions What makes them different from feelings What the most important emotions are and how to control them The key to creating a shift from negative to positive How your mind, body, and thoughts influence your words How to master and control your fears, worries, anger, panic, and anxiety How to change your mood Understanding your anger Why music influences emotions Emotional intelligence in real life And more... Emotions are the tools that can be used to either make you stronger or weaker, and it depends on how much control you allow these emotions to have over you. If you let your emotions become the master, then you'll always be at their mercy.

Mind Unleashed reveals how your mind works with God to create your reality. You are not a victim of circumstances. You are far more powerful than you may realize. This truth will give you everything you need to achieve your goals in life. You will find true peace and joy. You will find...The God Within.

From the bottom right to the top: The story of Harald Seiz sounds like a blockbuster Hollywood movie. Harald Seiz grew up with his mother and grandmother near Stuttgart in impoverished conditions. Both struggled with alcohol problems, so Seiz had to learn from early on to stand on his own two feet. From a beverage supplier to a vacuum cleaner salesman, he went through numerous professions and—despite harsh setbacks—always adhered to his dream of success and independence. In 2011 Seiz laid the foundation stone for his company Karatbars International GmbH. The goal was for every human being to be able to own gold. What was once a one-man show is now a worldwide empire of companies that generates an annual turnover of more than 100 million euros. But Harald Seiz has even bigger goals: A gold-based means of payment, which is crisis-proof and will revolutionize our financial system. His mission was initially just laughed at. Today he is the market leader for innovative Gold products. And yet Seiz still sees himself at the beginning; a payment system based on gold, gold mines, and the establishment of a bank are only a few of the building blocks which he wants to lay in order to get all the way to the top. Think Big—a book that encourages you to live your dream. And that reveals the recipes for success in achieving your aims.

THE MILLION COPY INTERNATIONAL BESTSELLER Drawn from 3,000 years of the history of power, this is the definitive guide to help readers achieve for themselves what Queen Elizabeth I, Henry Kissinger, Louis XIV and Machiavelli learnt the hard way. Law 1: Never outshine the master Law 2: Never put too much trust in friends; learn how to use enemies Law 3: Conceal your intentions Law 4: Always say less than necessary. The text is bold and elegant, laid out in black and red throughout and replete with fables and unique word sculptures. The 48 laws are illustrated through the tactics, triumphs and failures of great figures from the past who have wielded - or been victimised by - power. _____ (From the Playboy interview with Jay-Z, April 2003) PLAYBOY: Rap careers are usually over fast: one or two hits, then styles change and a new guy comes along. Why have you endured while other rappers haven't? JAY-Z: I would say that it's from still being able to relate to people. It's natural to lose yourself when you have success, to start surrounding yourself with fake people. In The 48 Laws of Power, it says the worst thing you can do is build a fortress around yourself. I still got the people who grew up with me, my cousin and my childhood friends. This guy right here (gestures to the studio manager), he's my friend, and he told me that one of my records, Volume Three, was wack. People set higher standards for me, and I love it.

When a career-ending injury left elite athlete and professional football player Lewis Howes out of work and living on his sister's couch, he decided he needed to make a change for the better. He started by reaching out to people he admired, searching for mentors, and applying his past coaches' advice from sports to life off the field. Lewis did more than bounce back: He built a multimillion-dollar online business and is now a sought-after business coach, speaker, and podcast host. In the New York Times bestseller The School of Greatness, Howes shares the essential tips and habits he gathered in interviewing "the greats" on his wildly popular podcast of the same name. In discussion with people like Olympic gold medalist Shawn Johnson and Pencils of Promise CEO Adam Braun, Howes figured out that greatness is unearthed and cultivated from within. The masters of greatness are not successful because they got lucky or are innately more talented, but because they applied specific habits and tools to embrace and overcome adversity in their lives. A framework for personal development, The School of Greatness gives you the tools, knowledge, and actionable resources you need to reach your potential. Howes anchors each chapter with a specific lesson he culled from his greatness "professors" and his own experiences to teach you how to create a vision, develop hustle, and use dedication, mindfulness, joy, and

love to reach goals. His lessons and practical exercises prove that anyone is capable of achieving success and that we can all strive for greatness in our everyday lives.
