Wherever You Are

When a child writes a report about a seahorse, the creature himself has a few things to say about the animals he's compared to. First of all, he is nothing like a land horse. His tail is much more useful than an opossum's tail. And his snout fits his face perfectly—unlike an anteater's snout. Delivering fascinating facts along the way, the seahorse sets the record straight about what makes his species so special.? Silliness takes center stage in this laugh-out-loud book from the creator of The Very Hungry Caterpillar?--now available as a board book Yes, there's something strange, something funny and even downright preposterous on every page of this book.
