**Born Liquid is the last work by the great sociologist and social theorist Zygmunt Bauman, whose brilliant analyses of liquid modernity changed the way we think about our world today. At the time of his death, Bauman was working on this short book, a conversation with the Italian journalist Thomas Leoncini, exactly sixty years his junior. In these exchanges with Leoncini, Bauman considers, for the first time, the world of those born after the early 1980s, the individuals who were 'born liquid' and feel at home in a society of constant flux. As always, taking his cue from contemporary issues and debates, Bauman examines this world by discussing what are often regarded as its most ephemeral features. The transformation of the body - tattoos, cosmetic surgery, hipsters - aggression, bullying, the Internet, online dating, gender transitions and changing sexual preferences are all analysed with characteristic brilliance in this concise and topical book, which will be of particular interest to young people, natives of the liquid modern world, as well as to Bauman's many readers of all generations.**

**"Persephone is the Goddess of Spring in title only. Since she was a little girl, flowers have only shriveled at her touch. **hypnotic and mysterious stranger. Hades, God of the Dead, has built a gambling empire in the mortal world and his favorite bets are rumored to be impossible. But nothing has ever intrigued him as much as the goddess offering him a bargain he can't resist. After her encounter with Hades, Persephone finds herself in a contract with the God of the Dead, and his terms are impossible: Persephone must create life in the Underworld or lose her freedom forever. The bet does more than expose Persephone's failure as a goddess, however. As she struggles to sow the seeds of her freedom, love for the God of the Dead grows—a love that is both captivating and forbidden"--**

Himari is starting to realize that she and Yori have two very different things in mind when they talk about being in love, and Yori can tell that things aren't quite the same between them since she asked Himari out. But if they want to stay together, whether as friends or something more, they'll have to hear each other out and see if they can get back in harmony. With band practice cutting into their time together and Himari making a new friend who tugs on Yori's deepest insecurities, both girls start to wonder: how can one little word make everything so complicated?

The best-selling illustrated desk diary from the RHS.

Lupus Lablennorre is a man on the run. Like a cosmic Odysseus, he wanders from planet to planet, haunted by his past and orbiting around a woman. It starts as a fishing trip with his ex-military pal Tony. Their lifelong friendship has started to feel different lately, and not just because of the drugs. Picking up Sanaa, a wealthy and mysterious runaway, only complicates the situation. When

tragedy strikes and they're forced to flee, new worlds await with many ways to disappear. But Lupus will find that the tendrils of friendship, love, and family are not so easily severed. Armed with astonishingly expressive brushwork and a dreamy, intimate narrative, Frederick Peeters drifts on the solar winds to a new understanding of memory, guilt, isolation, and connection.

From cultural icon Margaret Atwood comes a brilliant collection of essays--funny, erudite, endlessly curious, uncannily prescient--which seek answers to Burning Questions such as: Why do people everywhere, in all cultures, tell stories? How much of yourself can you give away without evaporating? How can we live on our planet? Is it true? And is it fair? What do zombies have to do with authoritarianism? In over fifty pieces Atwood aims her prodigious intellect and impish humour at the world, and reports back to us on what she finds. This roller-coaster period brought the end of history, a financial crash, the rise of Trump and a pandemic. From debt to tech, the climate crisis to freedom; from when to dispense advice to the young (answer: only when asked) to how to define granola, we have no better guide to the many and varied

mysteries of our universe.

**After forming a coalition of human resistance against the enemy invasion, Dalinar Kholin and his Knights Radiant have spent a year fighting a protracted, brutal war. Neither side has gained an advantage, and the threat of a betrayal by Dalinar's crafty ally Taravangian looms over every strategic move. Now, as new technological discoveries by Navani Kholin's scholars begin to change the face of the war, the enemy prepares a bold and dangerous operation. The arms race that follows will challenge the very core of the Radiant ideals, and potentially reveal the secrets of the ancient tower that was once the heart of their strength. A devastating examination of how collapsing insect populations worldwide threaten everything from wild birds

to the food on our plate. From ants scurrying under leaf litter to bees able to fly higher than Mount Kilimanjaro, insects are everywhere. Three out of every four of our planet's known animal species are insects. In *The Insect Crisis*, acclaimed journalist Oliver Milman dives into the torrent of recent evidence that suggests this kaleidoscopic group of creatures is suffering the greatest existential crisis in its remarkable 400-million-year history. What is causing the collapse of the insect world? Why does this alarming decline pose such a threat to us? And what can be done to stem the loss of the miniature empires that hold aloft life as we know it? With urgency and great clarity, Milman explores this hidden emergency, arguing that its consequences could even rival climate change. He joins the scientists tracking the decline of insect populations across the globe, including the soaring mountains of Mexico that host an epic, yet dwindling, migration of monarch butterflies; the verdant countryside of England that has been emptied of insect life; the gargantuan fields of U.S. agriculture that have proved a killing ground for bees; and an offbeat experiment in Denmark that shows there aren't that many bugs splattering into your car windshield these days. These losses not only further tear at the tapestry of life on our degraded planet; they imperil everything we hold dear, from the food on our supermarket shelves to the medicines in our cabinets to the riot of nature that thrills and enlivens us. Even insects we may dread, including the hated cockroach, or the stinging wasp, play crucial ecological roles, and their decline would

profoundly shape our own story. By connecting butterfly and bee, moth and beetle from across the globe, the full scope of loss renders a portrait of a crisis that threatens to upend the workings of our collective history. Part warning, part celebration of the incredible variety of insects, *The Insect Crisis* is a wake-up call for us all.

BDSM fantasy comix. Celine is a horny young woman who's looking for a real man... and finds one, a Master who turns her into a full time slave. He binds her, torments her, and uses her... and she discovers that she loves it. He sends her to a special "beauty salon" for a kinky makeover. Then he rents her out to swinging couples and sends her to a sex shop to trade her services for kinky toys. Finally, he sells her to a depraved couple (whose twisted tastes we'll probably see in her next adventure). These are sexy comix from Europe, explicitly rendered, leaving nothing to the imagination.
