My life has always been pretty predictable. Run into burning buildings, save those in distress, be a hero. Shoot the shit with my fireman buddies, come home, and do it all again tomorrow. Little did I know that a random SOS call from a woman stuck in a plaster cast with nothing underneath (I swear I only caught a flash of skin) would throw me for a complete loop. Until I see the flighty artist again. At my mom's engagement party. To her dad. Suddenly the unpredictable woman I couldn't stop thinking about is my soon-to-be-stepsisiter. Yeah, the same one I mortified when I accidentally saw her a tiny bit naked. This should make family gatherings way more interesting. Except when your mom's as loaded as mine is, you can never fully let your guard down when a guy comes sniffing around. So I can't help but be suspicious, even though his daughter's the perfect blend of beautiful and wild. As we spend more time together, prepping for our parents' wedding, we both agree that maybe there's nothing wrong with having a little bit of fun in the meantime. But if she knew I was investigating her dad on the side, she would never forgive me... A runaway train is racing toward five men who are tied to the track. Unless the train is stopped, it will inevitably kill all five men. You are standing on a footbridge looking down on the unfolding disaster. However, a fat man, a stranger, is standing next to you. If you push him off the bridge, he will topple onto the line and, although he will die, his chunky body will stop the train, saving five lives. Would you kill the fat man? The question may seem bizarre. But it's one variation of a puzzle that has baffled moral philosophers for almost half a century and that more recently has come to preoccupy neuroscientists, psychologists, and other thinkers as well. In this book, David Edmonds, coauthor of the best-selling Wittgenstein's Poker, tells the riveting story of why and how philosophers have struggled with this ethical dilemma, sometimes called the trolley problem. In the process, he provides an entertaining and informative tour through the history of moral philosophy. Most people feel it's wrong to kill the fat man. But why? After all, in taking one life you could save five. As Edmonds shows, answering the question is far more complex--and important--than it first appears. In fact, how we answer it tells us a great deal about right and wrong.

In this delightfully charming teen spin on You've Got Mail, the one guy Bailey Rydell can't stand is actually the boy of her dreams—she just doesn't know it yet. Classic movie buff Bailey “Mink” Rydell has spent months crushing on a witty film geek she only knows online by “Alex.” Two coasts separate the teens until Bailey moves in with her dad, who lives in the same California surfing town as her online crush. Faced with doubts (what if he’s a creep in real life—or worse?), Bailey doesn’t tell Alex she’s moved to his hometown. Or that she’s landed a job at the local tourist-trap museum. Or that she’s being heckled daily by the irritatingly hot museum security guard, Porter Roth—a.k.a. her new arch-nemesis. But life is whole lot messier than the movies, especially when Bailey discovers that tricky fine line between hate, love, and whatever-it-is she’s starting to feel for Porter. And as the summer months go by, Bailey must choose whether to cling to a dreamy online fantasy in Alex or take a risk on an imperfect reality with Porter. The choice is both simpler and more complicated than she realizes, because Porter Roth is hiding a secret of his own: Porter is Alex...Approximately.

„My dilemma... este senzația internetului și a librăriilor, deopotrivă. Cititorii și fanii au înnebunit complet: nimic altceva nu mai există.“ - La Repubblica Cristina Evans trăiește la Los Angeles și crede că are o viață perfectă, până în ziua în care părinții ei hotărăsc să se mute la Miami. Totul se năruie pentru adolescenta de șaisprezece ani, care se vede obligată să-și părăsească prietenii dintotdeauna și să ia totul de la capăt într-un alt oraș, la o altă școală. Deși Los Angeles-ul și cei mai buni prieteni de acolo rămân permanent în gândurile ei, Cristina reușește foarte repede să se acomodeze în noua casă și să se împrietenească cu câțiva dintre cei mai populari elevi ai liceului. Toți o primesc în cercul lor, mai puțin Cameron și Susan, iubita lui, care o privesc amândoi cu ostilitate. Și astfel, printre tot felul de întâmplări mai mult sau mai puțin plăcute, Cris reușește să-și facă o nouă prietenă, Sam, și se îndrăgostește de Matt. Deși lucrurile par să meargă din ce în ce mai bine în viața ei, ițele inimii ajung să se încurce tot mai mult când Cris și Cameron încep să-și dea seama că antipatia pe care o simt unul față de celălalt ascunde, în realitate, un sentiment complet diferit. United Nations Champion of the Earth, climate scientist, and evangelical Christian Katharine Hayhoe changes the debate on how we can save our future in this nationally bestselling “optimistic view on why collective action is still possible—and how it can be realized” (The New York Times). Called “one of the nation’s most effective communicators on climate change” by The New York Times, Katharine Hayhoe knows how to navigate all sides of the conversation on our changing planet. A Canadian climate scientist living in Texas, she negotiates distrust of data, indifference to imminent threats, and resistance to proposed solutions with ease. Over the past fifteen years Hayhoe has found that the most important thing we can do to address climate change is talk about it—and she wants to teach you how. In Saving Us, Hayhoe argues that when it comes to changing hearts and minds, facts are only one part of the equation. We need to find shared values in order to connect our unique identities to collective action. This is not another doomsday narrative about a planet on fire. It is a multilayered look at science, faith, and human psychology, from an icon in her field—recently named chief scientist at The Nature Conservancy. Drawing on interdisciplinary research and personal stories, Hayhoe shows that small conversations can have astonishing results. Saving Us leaves us with the tools to open a dialogue with your loved ones about how we all can play a role in pushing forward for change.

"Outstanding . . . a wide-ranging invitation to think through the moral ramifications of our eating habits." —The New Yorker One of the New York Times Book Review's Ten Best Books of the Year and Winner of the James Beard Award Author of How to Change Your Mind and the #1 New York Times Bestseller In Defense of Food and Food Rules What should we have for dinner? In the years since, Pollan’s revolutionary examination has changed the way Americans think about food. Bringing wide attention to the little-known but vitally important dimensions of food and agriculture in America, Pollan launched a national conversation about what we eat and the profound consequences that even the simplest everyday food choices have on both ourselves and the natural world. Ten years later, The Omnivore’s Dilemma continues to transform the way Americans think about the politics, perils, and pleasures of eating. From one of rap's most personal and evocative writers comes a stirring memoir about how Boosie Badazz, one of the industry's most controversial figures, was able to overcome insurmountable odds to make his music dreams a reality. A Baton Rouge native who began rapping at age fourteen, Boosie Badazz was already a cult hero in Louisiana when, in 2009, he was sentenced to two years in prison. The next year, he was indicted on even more serious charges, eventually landing him on Death Row. Prosecutors played Boosie's music in the courtroom in an attempt to paint him as a thug with no chance of redemption. However, against overwhelming odds and the backdrop of a social media campaign to #FreeBoosie, he was freed in March of 2014 with a rare second chance to make his music dreams come true. In this evocative and compelling memoir, Boosie explores the relationship between his life on the streets with his ceaseless tear through the rap industry. From near-death experiences to a ruthless bout with kidney cancer to a life-threatening diabetes diagnosis, Boosie has overcome remarkable challenges to make a name for himself as one of rap's most influential voices. A redemptive story with an urgent voice, Cross the Tracks is the survival tale of a man who wasn't sure he would live to see another day...but who rose from the ashes to change the rap industry forever.

In this landmark effort to understand African American people in the New World, Gunnar Myrdal provides deep insight into the contradictions of American democracy as well as a study of a people within a people. The title of the book, 'An American Dilemma', refers to the moral contradiction of a nation torn between allegiance to its highest ideals and awareness of the base realities of racial discrimination. The touchstone of this classic is the jarring discrepancy between the American creed of respect for the inalienable rights to freedom, justice, and opportunity for all and the pervasive violations of the dignity of blacks. The appendices are a gold mine of information, theory, and methodology. Indeed, two of the

appendices were issued as a separate work given their importance for systematic theory in social research. The new introduction by Sissela Bok offers a remarkably intimate yet rigorously objective appraisal of Myrdal—a social scientist who wanted to see himself as an analytic intellectual, yet had an unbending desire to bring about change. 'An American Dilemma' is testimonial to the man as well as the ideas he espoused. When it first appeared 'An American Dilemma' was called "the most penetrating and important book on contemporary American civilization" by Robert S. Lynd; "One of the best political commentaries on American life that has ever been written" in *The American Political Science Review*; and a book with "a novelty and a courage seldom found in American discussions either of our total society or of the part which the Negro plays in it" in *The American Sociological Review*. It is a foundation work for all those concerned with the history and current status of race relations in the United States.

Named a Best Book of 2021 by NPR This inspirational memoir serves as a call to action from prison reform activist Yusef Salaam, of the Exonerated Five, that will inspire us all to turn our stories into tools for change in the pursuit of racial justice. They didn't know who they had. So begins Yusef Salaam telling his story. No one's life is the sum of the worst things that happened to them, and during Yusef Salaam's seven years of wrongful incarceration as one of the Central Park Five, he grew from child to man, and gained a spiritual perspective on life. Yusef learned that we're all "born on purpose, with a purpose." Despite having confronted the racist heart of America while being "run over by the spiked wheels of injustice," Yusef channeled his energy and pain into something positive, not just for himself but for other marginalized people and communities. *Better Not Bitter* is the first time that one of the now Exonerated Five is telling his individual story, in his own words. Yusef writes his narrative: growing up Black in central Harlem in the '80s, being raised by a strong, fierce mother and grandmother, his years of incarceration, his reentry, and exoneration. Yusef connects these stories to lessons and principles he learned that gave him the power to survive through the worst of life's experiences. He inspires readers to accept their own path, to understand their own sense of purpose. With his intimate personal insights, Yusef unpacks the systems built and designed for profit and the oppression of Black and Brown people. He inspires readers to channel their fury into action, and through the spiritual, to turn that anger and trauma into a constructive force that lives alongside accountability and mobilizes change. This memoir is an inspiring story that grew out of one of the gravest miscarriages of justice, one that not only speaks to a moment in time or the rage-filled present, but reflects a 400-year history of a nation's inability to be held accountable for its sins. Yusef Salaam's message is vital for our times, a motivating resource for enacting change. *Better, Not Bitter* has the power to soothe, inspire and transform. It is a galvanizing call to action.

George Orwell set out ‘to make political writing into an art’, and to a wide extent this aim shaped the future of English literature - his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Why I Write, the first in the Orwell's Essays series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the ‘four great motives for writing’ - ‘sheer egoism’, ‘aesthetic enthusiasm’, ‘historical impulse’ and ‘political purpose’ - and considers the importance of keeping these in balance. Why I Write is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can - and must - be rediscovered with every age.' — Irish Times

A harrowing and thorough account of the massacre that upended Norway, and the trial that helped put the country back together On July 22, 2011, Anders Behring Breivik detonated a bomb outside government buildings in central Oslo, killing eight people. He then proceeded to a youth camp on the island of Utøya, where he killed sixty-nine more, most of them teenage members of Norway's governing Labour Party. In One of Us, the journalist Åsne Seierstad tells the story of this terrible day and what led up to it. What made Breivik, a gifted child from an affluent neighborhood in Oslo, become a terrorist? As in her bestseller The Bookseller of Kabul, Seierstad excels at the vivid portraiture of lives under stress. She delves deep into Breivik's troubled childhood, showing how a hip-hop and graffiti aficionado became a right-wing activist and Internet game addict, and then an entrepreneur, Freemason, and self-styled master warrior who sought to "save Norway" from the threat of Islam and multiculturalism. She writes with equal intimacy about Breivik's victims, tracing their political awakenings, aspirations to improve their country, and ill-fated journeys to the island. By the time Seierstad reaches Utøya, we know both the killer and those he will kill. We have also gotten to know an entire country—famously peaceful and prosperous, and utterly incapable of protecting its youth.

“Over a decade after its publication, one book on dating has people firmly in its grip.” —The New York Times We already rely on science to tell us what to eat, when to exercise, and how long to sleep. Why not use science to help us improve our relationships? In this revolutionary book, psychiatrist and neuroscientist Dr. Amir Levine and Rachel Heller scientifically explain why why some people seem to navigate relationships effortlessly, while others struggle. Discover how an understanding of adult attachment—the most advanced relationship science in existence today—can help us find and sustain love. Pioneered by psychologist John Bowlby in the 1950s, the field of attachment posits that each of us behaves in relationships in one of three distinct ways: • Anxious people are often preoccupied with their relationships and tend to worry about their partner's ability to love them back • Avoidant people equate intimacy with a loss of independence and constantly try to minimize closeness. • Secure people feel comfortable with intimacy and are usually warm and loving. Attached guides readers in determining what attachment style they and their mate (or potential mate) follow, offering a road map for building stronger, more fulfilling connections with the people they love.

📖 A sexy, small town sports romance from USA Today bestselling author Lex Martin! 📖 What's worse than having Rider Kingston, the star quarterback, give you the big brushoff because he doesn't want to get serious? You'd probably think living across the street from him where you get a firsthand view of his hookups, right? That's what I thought. Until someone drops off a baby with a note pinned to her blanket that says one of those jocks—either Rider or one of his roommates—is the father. The problem? Baby mama doesn't mention which of these numbskulls is the sperm donor. I wouldn't care about their paternity problems—not the slightest bit—except my brother lives there too. Which means that adorable squawking bundle might be my niece, and there's no way I'm leaving her unattended with those bumbling football players. They need my help, even if they don't know it yet. Once we solve this dilemma and figure out who's the daddy, I'm out. I'll just ignore Rider and those soul-searing looks he gives me every time I reach for the baby. He broke my heart three years ago.
