Income is the consumption and saving opportunity gained by an entity within a specified timeframe, which is generally expressed in monetary terms. [1][2][3] For households and individuals, "income is the sum of all the wages, salaries, profits, interest payments, rents, and other forms of earnings received in a given period of time." [4] (also known as gross income). Net income is defined as the gross income minus taxes and other deductions (e.g., mandatory pension contributions), and

Access Free No Inventory Etsy: How To Sell Products On Etsy Even If You're A Beginner And Have No Product Of Your Own

is usually the basis to calculate how much income tax is owed. 1. **EARNED (ACTIVE) INCOME**

Definition: Earned income is money earned from working that requires your time. This is the income you receive from actively working. You work and you are paid for your work.

Examples: Salary; wages; bonuses; contract work. Tax implications: Earned income is taxed higher than any other income, at a rate of 10%-35%, plus Medicare, Social Security, and other taxes, which can reach close to 50% based on tax calculators and estimators.

Characteristics: It's hard to become wealthy solely from earned income for a few reasons. First, it's taxed at the highest rate, and second, there are only so many hours in the day for you to work (you can work and work and work, but if you have to be there to make the money, there's a cap on your income because time is limited). Another downside besides taxes is that once you stop working, the money stops coming in. On the upside, earned income is the easiest type of income to make. You can just go get a job or side job pretty easily in the US and make some money. This is why most people make money this way-it's easy to do. A great way to switch over into better types of income is to use earned income by putting it into a portfolio or to start a side hustle or business (this is what I did by starting a blog, which is now my full time business). 2. **PORTFOLIO INCOME** *Definition: Portfolio income is money you receive from selling an*

Access Free No Inventory Etsy: How To Sell Products On Etsy Even If You're A Beginner And Have No Product Of Your Own

investment for more than what you paid for it (portfolio income is also referred to as capital gains). Examples: 1) trading assets, like stocks, bonds, and mutual funds, 2) buy and selling real estate, and 3) buying and selling other assets, like a car. Tax implications: Portfolio income is taxed at 10%-20% for investments held over 12 months and taxed as earned income if held less than 12 months. However, portfolio income is not taxed for Medicare or Social Security. Capital gains can be offset by losses on other investments, which is a huge plus. Characteristics: One downside is that for the average person, investing can seem intimidating. This often keeps people away from doing it. It wasn't until I became a Certified Financial Planner that I really understood what was going on with respect to portfolio income. If you're just getting started with investing, read this post - 21 tips for investing in your 30's. Also, this type of income can take a long time to generate if you believe in many of the widely held investing concepts that require buying and holding for years. If you're a trader and attempt to do it much faster, you better be really good at it, because otherwise, it's sort of like gambling. You have to have money to invest upfront to create portfolio income. This is a huge reason why people say they don't invest. You can start with a small amount and contribute to your investments over time, but it requires you to have the

Access Free No Inventory Etsy: How To Sell Products On Etsy Even If You're A Beginner And Have No Product Of Your Own

capital to do it. If you want to get started with hiring someone to help you with your money, read this post on questions you should ask your financial advisor before hiring her. I like using investing as a supplemental income strategy. I don't want to retire, but I like the idea that I could if I ever change my mind or it became medically necessary. So, I save and invest as a bit of a safety net, but not as the end goal of retiring as soon as possible. I like contributing to the world through my work, and I also like creating a lot of income. I just don't ever tie my "hard work" or time to income generated. This way, I know my income potential is unlimited. 3.

PASSIVE INCOME Definition: Passive income is money generated from assets you own, where you are not actively working. Examples: Rental income, business income (as long as it's not earned based on time and effort), creating/selling intellectual property (e.g.: books). Tax implications: Passive income receives the most favorable tax treatment. Characteristics: Passive income is thought to be the key to building wealth. Once you have an investment that generates recurring income, you don't have to do much to maintain it (so time is not a limitation). Typically, there isn't much start up cost to passive income that you have to provide yourself. For example, you can use your time to create a business or you can get funding from investors for your real estate properties or start up company. It's not as easy as earned

Access Free No Inventory Etsy: How To Sell Products On Etsy Even If You're A Beginner And Have No Product Of Your Own

income, but it's not as challenging as portfolio income (in terms of start up funds). It takes a lot of money to make a lot of portfolio income, whereas you can generate a lot of passive income with less. I started a blog with the idea of generating passive income (the Smart Passive Income podcast used to be on repeat!). It's one of the best things I ever did! A FINAL NOTE!

Understanding how income works is important because it affects how you go about deciding what results you want with money in your future. Do you want to retire? Do you want financial independence early? Do you want to focus on contributing to the world through your work as an entrepreneur? Do you want money just to be a scorecard of the value you provide? Do you believe that "hard work" and time create money? (So many questions!) These are philosophical questions, but whatever you believe will drive your feelings, which will drive your actions, which will drive your results. So, ultimately, your beliefs drive your results (you can read more about this in the 5 step framework to master your mindset post here). Based on what you choose to believe, you could end up financial independent and retiring very young and living off 4% of your investment portfolio, with frugal values, while traveling, and doing whatever else you want to experience the world while you're alive. Or, you could end up a multimillionaire focusing on serving the world through your work and never

Access Free No Inventory Etsy: How To Sell Products On Etsy Even If You're A Beginner And Have No Product Of Your Own

retiring. Completely different results. Both involve a lot of money. What you choose matters. What you believe about money matters. What you do matters. The three different types of income are a way of learning how to use money to your advantage to get the results you want most. This is the way our system works. The sooner you understand how money works, the sooner you can make better decisions that will help you achieve financial success (whatever that looks like to you).

Making passive income can often mean putting in effort up front into a venture, and hoping to sit back and relax and watch the money roll in. Often from our experience we've found that even once the top is spinning it still needs some care and attention to ensure the business, or the venture maintains and continues to work. That was the case until we found that creating an Etsy store which sells only downloadable products to be a completely passive way to create income. In this guide we're going to show you the step-by-step process we took in order to create a fully passive, income generating, Etsy store. We started with a fresh slate to write this – we are going to open a store from scratch and go through each step of the process along the way. We did this as a documentation of the journey, and who knows, maybe another passive income store on Etsy!

But there's a big romance movie being filmed in her town, and Logan Jackson, star of the popular TV show Neighbourly, is in it. And Isla gets a job bringing pizza to the set! Claire listens in fascination as Isla tells her about her experience dealing with Logan Jackson, but Isla's mortified. What's even worse, is they keep running into each other outside of the movie set, and Isla suddenly forgets how to act like a human being every time. Logan doesn't notice anything strange though, and they start to form a friendship. A friendship that everyone in town sees as something more. Everything You Need to Know to Turn Your Handmade Hobby into a Thriving Business

Selling on eBay isn't a game. You need to have a plan. eBay 2014 walks you through what it takes to sell on eBay. It answers all of your questions, and gives you ideas about how to get started and grow your eBay business. Do you ever wonder how some sellers can grow a strong thriving business, while others barely scrape by? Many times, I've watched two sellers as they are first starting out on eBay. Both sellers offer the exact same products and prices, yet one business skyrockets to the top of the charts selling thousands of items per month. The other business struggles to sell ten or fifteen items per month. They might even have the same basic look to their listings. On the face of it, it doesn't make sense. Why does one eBay seller prosper, while another falls behind? Is it a matter of luck? Does one eBay

Craft practice has experienced a sharp rise in popularity since the late 2000s, partly through the 'aura of the analogue' and the desire for authentic, handmade products in an increasingly fast paced, digitalised world (Luckman, 2015) but also because of digital platforms such as Etsy and social media enabling 'anyone' to become a craft entrepreneur. This book brings together historical, policy and individual narratives to inform a broad understanding of craft entrepreneurship. Drawing on case studies from around the world, *Craft Entrepreneurship* considers questions of identity, community, and the digital in craft entrepreneurship. In doing so, it finds craft activities to be positioned between or across the arts, heritage, notions of a bohemian lifestyle and the challenges of micro-entrepreneurship. By engaging with the contradictions and fragility of sustaining a craft practice, the chapters in this book contribute to different perspectives for entrepreneurship studies. The contributions to this volume illustrate the craft entrepreneurs' identity, motivation and sense of creative purpose through their craft, as these collide with the tensions brought about through entrepreneurship.

*Etsy is an online retail community just like eBay only that it focuses on vintage or handcrafted commodities. Most of the goods sold there are in the jewelry, arts, crafts, housewares, artisan candies, baked goods, or paper-goods categories. For an item to qualify as vintage it has to be at least 20 years old and can be anything from photos, costumes, housewares, jewelry, and clothing. Etsy provides a great avenue for you to sell your homemade goods—but that's not all. You can find a limitless number of items on Etsy that will help your home business. For instance, if you use *The Happy Planner*, *Filofax*, or *Erin Condren* to schedule and organize your life or business, there are downloadable stickers and inserts that you can buy and use in your planner. If you need promotional items that have your logo on*
